## A Chapter of Accidents.

A workman named Quimby, in Mr. Gibson's Mills, Fredericton, N. B., lost the fingers of his left hand a few days ago, in a planing machine.

During the past five months between two and three hundred persons have been killed in Minnesota, Dakota, and Montana by atmospheric electricity and tornadoes.

On Wednesday night last a well-dressed lady and gentleman registered at Sieck's Hotel, New York, as Mr. Reilly and wife. Upon retiring they blew out the gas, and next morning were found dead in bed.

Christopher Patriquin of Truro, N. S., aged 68 years, was accidentally shot whilst taking a load out of a gun on Wednesday evening. The abdominal wall was torn away, leaving the bowels protruding. He lived in agony for one hour.

A North Sydney despatch says that the American fishing schooner Ossipee, from North Bay, has arrived there. She lost jibboom, seine boat and dories, and split her foremast. She is 14 weeks from home, has 300 barrels of mackerel, and will repair there.

On Tuesday afternoon, as the ship William Tapscott was getting under way at St. John, N. B., one of the sailors fell from the upper foretopmast yard into the water. He struck the water with such force that he lost consciousness, but was rescued in time to save his life.

A son of Mr. William Roach was seriously injured on Monday last, at Main River, Kent County, N. B. He was engaged hauling hemlock bark, and by some means the binding pole broke, striking young Roach in the stomach, inflicting wounds that may yet prove fatal.

Albert Higgins, of Onslow, N. S., died on Tuesday last, from the effects of a kick from his horse, three weeks ago. At the post mortem examination the liver was found to be ruptured, and the doctors now wonder how he lived so long. He leaves a widow, a small family and an aged father.

The Chatham, N. B. Advance says: As we go to press, advices from Doaktown bring the news that two charges of dynamite were exploded, one upon each lower chord of the Western span of the Doaktown Railway Bridge, on Tuesday night, practically destroying the centres of the chords and rendering the re-erection of the temporary supports and the reconstruction of the chords necessary.

A distressing and fatal accident occurred at Lower Village, Richibucto, Kent Co., N. B., a few days ago. A lad, twelve years of age, son of Marcel Arseneau, was taking a horse to the pasture. The rope was fastened around the lad's body. The horse became frightened by a dog, ran away and dragged the boy after him for a distance of two hundred yards. The lad's head and body were frightfully mutilated, so much so that he survived only a few hours.

The recent gale on the Labrador coast has involved more destruction to property than at first anticipated. On the Northern Labrador coast five British schooners were totally lost. Only three lives were lost. The vessels were fish laden. One Grand Banker was cut down by an ocean steamer off Cape Race. Hundreds of famishing families are at present hurrying from the French shore into the mining settlements of Notre Dame Bay.

A terrible wind storm, accompanied by lightning, thunder and rain, broke over Alden, a mining village about ten miles from Wilkesbarre, Pa., on Monday evening, and wrought great havoc. Nearly every building in the village was damaged. Sixteen houses standing on a hill above the village were totally demolished and swept away. They were occupied by Hungarian laborers in the mines, who had to fly for their lives, losing all they had. Several persons were badly bruised and hurt, but no one was killed. The storm was also felt at Wanamie and Morgantown, and some damage was done in them.

A few days ago Thos. McFarland and James Sullivan had a very narrow escape from being killed. They were at work in the sand pit at Silver Falls, N. B., when a slide of about fifty feet took place. The men were completely buried and for a time it was generally believed that neither would be got out alive. Word was passed around what had occurred, and in a short time a large number of men living in the vicinity were at work digging McFarland and Sullivan out. The work was proceeded with under much difficulty, as the sand kept sliding into the pit until fence pickets were procured to prevent further slides. Sullivan was first rescued, not a great deal the worse of his experience, but McFarland was nearly three-quarters of an hour in the pit. When got out he was in a very exhausted condition. He has, however, recovered all right.

A new way to pay old debts. Shakespeare tells how this can be accomplished in one of his immortal plays; but debts to nature must be paid on demand, unless days of grace be obtained through the use of Dr. Pierce's Golden Medical Discovery. It is not a "cure all," but invaluable for sore throat, bronchitis, asthma, catarrh, consumption, and all diseases of the pulmonary and other organs, caused by scrofula or bad blood. Scrofulous ulcers, swellings and tumors are caused by its wonderful alterative action. By druggists.

## Boston Markets.

BOSTON, Sept. 22.

POTATOES—There has been a liberal supply of Potatoes the past few days, and prices are easy. Eastern Rose have been selling at 50c., and Hebrons at 50c. per bushel. Northern Rose and Hebrons at 45c., and Northern Burbanks at 48 to 50c. Sweet's are quiet at \$1.50 to \$2 per bbl.

Eggs—The market maintains a firm tone, and fresh stock is well sold up. Eastern extras command 20c., and Eastern firsts 18c. to 19c. P. E. Island sold readily at 18c. to 19c. on Monday and Tuesday, and 19c. is asked for the best marks at the close.

FISH TRADE.—Receipts of mackerel from the provinces since last Friday foot up about 5,000 brls. Market continues firm, with a good demand. Sales of uncleaned at \$11 to \$12 per brl, and some late receipts held higher. Several Bay trips have arrived, and sales at \$13 to \$14 with brl. Not much doing in inspected lots of Bay mackerel, and prices are mostly nominal. Last quotations were \$9 to \$10 for No. 3; \$14 to \$13 for No. 2; and \$16 to \$2 for No. 1. Boaters run up to \$36 per brl. Sales of late caught 1885 No. 2 at \$8 to \$9 per brl, and these are now the cheapest grades on the market. The Bay fleet are arriving home with small average fares and there is no prospect of any more large hauls this season. The total New England catch to date is only 51,259 brls, as made up by the Boston Fish Bureau, as against 250,302 brls for the same time last year, a deficiency of about 200,000 brls. Of this season's catch, only 8,726 brls were caught on the American shore. The balance, 42,533 brls, were brought from the Bay. The jobbing trade is fair, but country dealers do not respond freely to the advanced prices. Codfish are in liberal supply and rule at low prices. Sales of pickle cured Bank at \$2 to \$2.45 for medium, and \$2.37 for large; and Dry at \$2.25 to \$2.50 per qtl. Good shore codfish command \$3 \$3.35 per qtl.

Uniting England and America.  
The Pittsburg, Pa. Leader, has investigated the report published on the strength of a New York special last Friday to the effect that the Prince of Wales and his consort have decided that their son Prince Albert Victor should marry an American wife. The reasons given for the decision were the opposition of the English populace to any more German alliances, the paucity of reigning Protestant families in Europe, and the bitter opposition to Catholics becoming connected with the English Government. In addition to this, it is also stated that the marital union of England and America was some time since suggested by Lord Beaconsfield. There was mystery, however, in connection with the identity of the American lady said to have been selected as the Prince's bride, but a Pittsburg gentleman who has just returned from New York is authority for the information that the lady in the case is Miss Jennie Chamberlain, of Cleveland, whose beauty has created a sensation on both continents. He says, while in New York, the report was privately circulated in the highest social circles that she and Albert Victor became engaged while she was in Europe last winter. A Leader reporter was sent to Cleveland to investigate the telegraphs. The same rumor prevails among society people in that city. Miss Chamberlain is now in Scotland, and in an interview with her father, that gentleman disclaimed any knowledge of the betrothal.

Another Good Man Gone Wrong.  
The city of Portland, Me., is profoundly agitated, and well it might be, over the defalcation of Mr. Wm. E. Gould, cashier of the First National Bank, the amount of the deficit being supposed to be all the way from \$87,000 to \$150,000. The money has been spent in Wall street speculations. Gould was held up as an exemplary citizen. He was, says a Portland despatch, quite a literary student and had fitted up an elegant library in his palatial State street residence. He was a prominent Congregationalist and often supplied pulpits in the suburbs, lectured on commercial and literary subjects in local and sometimes in college courses, spoke on temperance occasionally, and stood high in Y. M. C. A. circles. Gould is held under arrest in a civil suit by the bank awaiting the action of the corporation. It is said he first commenced to take funds of the bank as far back as 1882, and has continued the practice ever since. Gen. Neal Dow is on his bonds for \$20,000 and the same will be paid to the bank.

Railway Earnings.  
The Montreal Gazette remarks that one of the most encouraging and convincing signs of the renewal of trade on this continent is found in the steady increase in railway earnings since the opening of the year. Seventy-three roads reporting for August, having a mileage of 53,287 miles, or over 40 per cent. of the total mileage of the country, show gross earnings of \$24,939,906, or the very large increase of \$3,749,245 as compared with the corresponding month last year, and sixty-eight roads, whose returns of traffic receipts have been made, show an aggregate increase in earnings of \$13,995,345 for the eight months ending August 31. It is a matter of significance and satisfaction that the most notable gains for the year have been made by the two great Canadian systems, the Grand Trunk showing an increase in the eight months of \$1,121,393, and the Canadian Pacific an increase of \$991,798. These figures, to quote the language of the Railway Age, are encouraging evidences of the actual improvement in which the security owners have a share.

ANOTHER very large supply of good Tea-pots will be sold cheap at W. P. Colwill's.  
by 164 way 1w—sept 23
