

Sanctuary—Where Wild Game Become Tame.

The air-lanes lead to Milltown Cross for more than 30 Canada geese and hundreds of ducks of various species as they seek the Sanctuary of Mr. Harvey Moore every evening. Sited four miles from Montague on the Commercial Road, the Sanctuary has become a show-place as developed under the skillful and diligent work of Mr. Moore, who, in the picture above has just scattered grain and sent out the supper call. The geese are much less timorous than the ducks—some coming within a foot of the photographer.—(Photo by Margaret Mallett).

Potato Plebiscite Issues Reviewed Last Night At Murray River Meeting

Mr. Donald A. MacDonald and Mr. Leo MacIsaac were present at the potato growers meeting held at Murray River last night to explain the issues involved in the plebiscite to be held November 10. The very-attentive meeting was presided over by Mr. William Whiteway, and both speakers were given a good hearing by everyone in the packed hall. Mr. MacDonald traced the setting up of the potato board and the selling agency, and continued on to explain the proposed policies which has been set up this year. He stated that the primary purpose of the board was to establish a uniform price for Island potatoes. Regarding the pooling policies he said there would be four and a half pools, foundation seed, certified seed, tablestock, and miscellaneous, and five pools periods. An initial payment would be made within a few days after loading, a later interim payment at the end of the pool, and a final payment at the end of the season. On a question from Mr. Millburn Buell, Mr. MacIsaac stated that if the government agreement were set up it (the government) would set the initial payment. Otherwise financing would be done through the bank, and it was hoped that over 60 percent of the potato price would be made on the initial payment. He went on to outline the further advantages of the pool through the medium of collective bargaining. He deplored the selling of futures on the southern markets in the spring, saying this had a tendency to influence the fall market price.

ANOTHER PLEBISCITE?

Mr. Buell asked Mr. MacIsaac if another plebiscite could be held next year, and Mr. MacIsaac replied that the government machinery was there, and if it was desired, he could see no reason why another could not be held. Mr. MacIsaac deplored the price cutting within the province as it had a tendency to depress the market, and he was assured that only the agency could do anything to help maintain a uniform price. Mr. Roland MacDonald, president of the P. E. I. Federation of Agriculture also spoke briefly, and urged those eligible to get out and vote on November 10. Mr. Percy MacPherson asked if the board was taking No. 2 tablestock this year, and he was informed that it would go in the miscellaneous pool. Mr. MacIsaac pumped pie and ice cream was served by a committee of the ladies. Excellent music was furnished by Mr. Otis Jackson, violin, Mr. Preston Jackson, guitar, and Mrs. Atwood MacDonald, piano.

New Montreal CNR Hotel To Be Queen Elizabeth

MONTREAL — The name of the new hotel which the Canadian National Railways is building in Montreal, will be the Queen Elizabeth. Announcement of the name follows receipt of a letter from His Excellency the Governor-General to Donald Gordon, informing him that "Her Majesty the Queen has been graciously pleased to grant permission that the new Canadian National Railways hotel in Montreal should be called 'The Queen Elizabeth'."

In making the news public, Mr. Gordon stated that from the day when it was made known that the company would build a large convention hotel in Montreal, hundreds of people had written him suggesting names for it. "The suggestions," said Mr. Gordon, "covered a wide range of historical and geographical names. But, by far, the largest number of both French and English-speaking citizens writing me wished the name to be identified, in some form, with the crown. Work on 'The Queen Elizabeth' which will contain more than 1200 rooms, all air-conditioned, and the largest, most modern convention facilities in Canada, is proceeding on schedule. The foundation and other work necessary for the erection of steel and to tie the hotel to Central Station, is keeping pace with plans. Contracts have been placed for the steel and stone and nothing occurs to interfere with the present rate of progress, the intention of having the hotel ready for occupancy in 1957 will be realized."

Sales of Savings Bonds Lagging

OTTAWA (CP)—Sales of ninth series Canada savings bonds are lagging behind those of a year ago, but the Bank of Canada reported Tuesday that a big increase is expected in the next two weeks. Sales at the end of two weeks of the current campaign totalled \$240,000,000 compared with \$270,000,000 for the similar period last year. "Estimates for total sales as at Nov. 15 now run to as high as \$700,000,000, a substantially larger figure than had been foreseen before selling began," the bank said. "There is known to be a large 'hold back' of orders awaiting processing over the month end to take advantage of the new bank interest tabulation date of Oct. 31. These orders are not yet reflected in recorded totals."

ASSIST BY BIRDS

ST. JOHN'S, Nfld. (CP)—Many columns of army worms were sighted in Newfoundland this year but agricultural officials say destruction was light. They credited blackbirds with destroying most of the worms. Work on 'The Queen Elizabeth' which will contain more than 1200 rooms, all air-conditioned, and the largest, most modern convention facilities in Canada, is proceeding on schedule. The foundation and other work necessary for the erection of steel and to tie the hotel to Central Station, is keeping pace with plans. Contracts have been placed for the steel and stone and nothing occurs to interfere with the present rate of progress, the intention of having the hotel ready for occupancy in 1957 will be realized."

N. S. Gov't Sells Debenture Issue

HALIFAX (CP) — The Nova Scotia government Tuesday sold a \$12,000,000 issue of debentures bearing coupon interest at 3 1/4 per cent for a 46-year term. Cost to the province was 3.48 per cent compared with 3.9 per cent for a similar issue in March. Provincial treasurer R. M. Fielding said, "In this first issue since the death of Premier Angus L. Macdonald it is gratifying to see that the investing public continues to show confidence in the financial position of this province." The province accepted a tender for 97.18 per hundred submitted by a syndicate of the Bank of Nova Scotia; Meleod, Young, Weir and Co. Ltd.; the Dominion Bank; Bell, Gouinlock and Company Ltd.; Mills, Spence and Co. Ltd., and F. J. Brennan (N. S.) Ltd. The issue will be used for refunding about \$6,500,000 building roads and bridges and for a \$1,500,000 advance to the Nova Scotia power commission. Three per cent of the principal will be put into a sinking fund to redeem the debentures.
