

(Continued from first page.)

In our butter production, while there are no evidences of marked success, while there are rather evidences of failure, the genius of our people must be equal to the needs of the situation, even as it was in the case of cheese production. But the people should set themselves at once and heartily to the task. What has been done already in this connection will show that the temper of the people is for improvement and progress, but not enough has been done and not enough attempted. I do not claim that the task is a light one; I claim, only, that the genius of the people is equal to the need, if it will assert itself here as it has done elsewhere. What action must needs be taken, it is not within the scope of the present writing to discuss.

The agencies which are already working for improvement of dairying in Canada are, mainly, the following:— The Western and Eastern Dairymen's Associations of Ontario, and the Dairymen's Association of Quebec, have been more than all else instrumental in building up our great cheese industry, and making it what it is. The Ontario Creameries Association, of recent organization, is promising of much help to the butter industry. The Nova Scotia Dairymen's Association is a live organization, and for about five years has done good pioneer work. There is an association in Manitoba, of whose practicality I cannot speak from personal knowledge. The Ontario Agricultural College, at Guelph, has made a good beginning with its working creamery, but it doubtless has its best work yet to do. It is now doing good experimental work, and perhaps better lecture work outside among the farmers, and the head of this department has abilities of the highest order, which fit him well to do a great work for general Canadian dairying. The Dominion experimental farm at Ottawa has not yet put itself on the record of things accomplished, but it may be made to do a most important and much needed service in the line of experiment and education. Canada has an excellent agricultural press, which has done, and is doing, a grand work educating its readers. The ordinary newspaper itself is keenly alive to its own power to reach and impress the masses in the direction of improvement. The Dominion and some of the provincial governments have made a beginning by circulating dairy literature specially prepared. As the writer of some of the pamphlets, I am glad to have substantial evidence that it has done good work.

In view of our natural advantages, the genius of our people, what has already been attained, and an awakened disposition throughout the country to make greater progress, there is surely reason to hope that for the dairy interest in Canada

"Untold Agony" from Catarrh.  
Prof. W. HADNER, the famous mesmerist, of Ithaca, N. Y., writes: "Some ten years ago I suffered untold agony from chronic nasal catarrh. My family physician gave me up as incurable, and I was in a most deplorable state. My case was such a bad one, that every day, towards sunset, my voice would become so hoarse I could barely speak above a whisper. In the morning my coughing and clearing of my throat would almost strangle me. By the use of Dr. Sage's Catarrh Remedy, in three months I was well again, and the cure has been permanent."  
"Constantly Hacking and Spitting."  
THOMAS J. RUSHING, Esq., 202 Pine Street, St. Louis, Mo., writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe, and was constantly hacking and spitting, and for the last eight months could not breathe through the nostrils. I thought nothing could be done for me. Luckily, I was advised to try Dr. Sage's Catarrh Remedy, and in three months I was well again, and the cure has been permanent."  
Three Bottles Cure Catarrh.  
Eli Robbins, Bremen P. O., Columbia Co., Pa., writes: "My father had catarrh when he was five years old, very badly. I saw Dr. Sage's Catarrh Remedy advertised, and procured a bottle for her, and soon saw that it helped her; a third bottle effected a permanent cure. She is now eighteen years old and sound and hearty."
