

See Russia Calling The Economic Tune For Egypt

By EDWIN SHANKE
CAIRO AP—Economic informants say Russia could ruin Egypt overnight by refusing to take her cotton or by withholding deliveries of wheat or petroleum products.

The picture of Egypt being at the mercy of Russia economically was drawn by men who pointed to Egypt's need of wheat to feed her undernourished millions and oil to keep her machines moving.

And cotton is the economic life blood of this country. Such a potential threat is bound to influence Egypt's international policies.

Informants say Egypt is "moving faster and faster toward the Soviet bloc economically."

The reason, they explained, is Egypt's dire need of money—foreign exchange for trading—and President Nasser's first flirtation with Khrushchev in the cotton-for-arms deal which began to shift Egypt's trade pattern eastward.

RUSSIA MAJOR SOURCE

The informants outlined the position in this way:

Since the November attack on

Egypt by Britain, France and Israel, all imports of finished petroleum products—kerosene, fuel and diesel oil—are coming from Romania and Russia. These meet 40 per cent of Egypt's requirements. The rest is produced at Egypt's own refineries from crude oil obtained in the Persian Gulf and financed by King Saud.

Egypt annually imports 600,000 tons of wheat, of which Russia provides 400,000. Egypt now is heavily dependent on these imports because her domestic wheat supply is used up normally in the first six months after the harvest. The country's storage facilities are limited, making it impossible to store up huge stocks. The grey-colored bread of recent months shows how the millers are stretching supply.

An estimated half of what Egypt sells abroad now is going to the Soviet bloc, where credits are available elsewhere pile up. Egypt is buying arms, wheat, petroleum products and industrial machinery against these credits.

Soviet bloc technicians come along with the machinery to in-

stall it. About 1,500 technicians now are in Egypt, informants say.

CREDIT SQUEEZE HELPED

The British-French and American freeze on Egypt's assets after the Suez Canal's nationalization accelerated the shift toward the Soviet bloc. The trend actually began in early 1955 when Egypt found itself loaded with cotton, which accounts for about 80 to 85 per cent of her exports. The immediate reason was the depressed cotton market. Russia stepped in and bought.

From the normal 12 per cent of the cotton crop which the Soviet bloc bought in 1954, cotton exports to these countries jumped to 25 per cent in 1955, 35 per cent in 1956, and are expected to reach 50 per cent this year.

Traders report it is almost impossible to get import licences for goods obtainable only in the West because of lack of foreign exchange. Even so, Egypt now has built up a bigger-than-ever hoard of dollars abroad through \$50,000,000 advanced by King Saud and \$30,000,000 she is entitled to draw from the International Monetary Fund as a member.

But the pressure on dollars for such essentials as medicines is very great because Britain has blocked Egypt's sterling assets with which she formerly did most of her international trading.

The gradual drying up of imports from the west and the shortage of foreign exchange is stimulating home industries, such as cloth makers, glass and porcelain manufacturers, to meet needs of local consumption. The Egyptians now are forced to buy more home-produced necessities even though they may be inferior.

Junior Farmers Directors Meet

The first 1957 directors' meeting of the Prince Edward Island Junior Farmers Federation was held in the agricultural board room, Charlottetown on May 6, 1957, with the president, Edward Clarke presiding. There were 12 members present, also Miss Audrey MacMillan, field worker with the Department of Agriculture.

The minutes of the last annual meeting were read and approved on motion, seconded by George Riley and the minutes of the last directors' meeting were read and approved on motion, seconded by Robert Rackham.

The president questioned the meeting as to whether or not they were satisfied with the way the Government grant was divided and how it is being used. St. Georges group reported they had used some of their grant to pay for the scraping of roads in their district. The New Glasgow and district and East Prince groups reported that their grant had not been used to date.

It was decided that during the year that the executive of each group make at least one visit to another group to increase relationship between the three groups. Each group then gave a short summary of their activities during the winter months.

Hampton Y.P.S. Variety Concert

A capacity audience greeted the Hampton Young Peoples Society, when they held their Variety Concert in the hall on April 17th, to raise funds for the purpose of putting a railing up to the church. Rev. Mr. Charman acted as chairman; and during intermission Melville Bell auctioned Washington pies. Accompanists were Dr. Peter MacDonald, Mrs. Allison Lea and Mrs. Bud Morrison.

The following is a summary of the program. O'Canada; Trio: Wendy MacEachern, Sharon Dunsford and Marlene Myers; Recitation: Jane Dunsford; Tap Dance: Judy Dawson; Dust-Heater and Linda Harvey; Reading: Mrs. Windsor Bell; Solo: Mrs. C. H. A. R. D. MacQuarrie; Reading: Mrs. Cham-; Piano Solo: Barry Dunsford; Sword Dance: Judy Dawson; Duet: Mrs. Mullins and Mrs. MacQuarrie; Instrumental music: Athol and Blair Buel; Dialogue: Bringing Up Junior.

Those taking part in the play, Mrs. Charles Dunford, Winston Provencher, Sheldon MacNeill, Mrs. Bud Morrison, Dorothy Ferguson and Ruth Dunsford, John Dunsford was stage director.

DRAMA CREST CONTEST WINNERS

Winners of the recent P.E.I. Drama Festival Crest contest, shown above, are: 1st prize Everett Johnstone, 2nd yr. P.W.C. student from Millon. Mrs. Donald F. Stewart, 2nd prize winner, Bunsbury, P.E.I. Prizes of \$25.00 and \$15.00 respectively will be awarded on May 21st at opening night of the Festival at St. Peter's Cathedral Hall, Rochford Square.

Zion Y.P.S. Has Closing Banquet

On Tuesday, May 7, Zion Young People's Society met at the church hall for their closing banquet. A delicious turkey dinner was served by the women of Group 3 of W.A. Rev. W.H. Brown, Gwen O'Brien and Donnie Moore proposed toasts to the church, the Society, and the Queen, respectively.

Following dinner, Mr. John-Lea Morgan led in a sing-song. A duet, "God Will Take Care of You," was sung by Gail Currie and Sandra Sutherland.

After the singing of "Blest be the Tie that Binds" in the fellowship circle, Rev. W.H. Brown closed the meeting by pronouncing the Benediction.

AGRICULTURAL NEWS

P. E. I. Department of Agriculture

Annual meetings of the various Clubs are now being held. The Eastern Prince County Artificial Breeding Club members met in the Canadian Legion Hall, Summerside last Wednesday night. President, Clarence Marshbank conducted the annual meeting and called for the various reports. Secretary-Treasurer, Frank Jardine, read the minutes of the first annual meeting and then presented the financial statement. Other reports were given by Ken Walker, the inseminator.

The year's operation showed that there were 333 members and that 1,990 cows were bred. This shows an increase of 819 in the number of cows over the previous year.

Dr. George C. Fisher, who heads the Artificial Insemination work in the province, complimented the inseminator and all those who contributed to the successful operation of the Club. He went on to describe the rapid expansion of other Clubs within the Province. Stating that in all probability, that about fifteen thousand cows will be bred artificially this year in P.E.I. In referring to advances in frozen semen he stated that two other clubs had also placed orders for larger frozen semen lockers, namely Kensington, and O'Leary. The decision of the Eastern Prince County Directors to purchase one of these lockers will put the club in a position to extend a more efficient service to its members. It will materially assist in overcoming transportation delays and provide an up-to-date call shot service for purebred breeders.

their eyes wide open to notice the first signs of an outbreak of coccidiosis in their chickens. If detected early the losses can be greatly minimized. An accurate diagnosis is essential to successful treatment and handling of outbreaks. The Veterinary Division of the P.E.I. Department of Agriculture offer this free service to all poultry raisers of the Province. If trouble starts why not bring or submit two or three of the affected chicks for examination. If it is coccidiosis you can be given the diagnosis in a very short time. As a matter of fact while you wait, some of the first symptoms are a drop in feed consumption, droopiness in the flock, wings down and birds reluctant to move about. Often raisers have the mistaken idea that blood in the droppings is the cause when coccidiosis is present. This is not so. There is only one type of approximately ten which gives bloody droppings. For information contact your Veterinarian Division, P.O. Box 3000, Charlottetown.

SHEEP PARASITES
Have you pulled your sheep yet? If not, are you going to pill them before they go out on pasture? These are questions that all sheep raisers should be answering this time of year. Parasites in sheep cause very severe losses each year in this Province. These losses can be prevented by using the proper treatment, at the right time and using a sound husbandry programme.

It has been proven that the pilling in Eastern Canada is the most satisfactory and effective method in controlling nodular worms. Each winter our pastures are cleaned by mother nature. Therefore, it is important that sheep do not have access to their summer pasture until they have all been treated. The rain or one individual left untreated can contaminate a whole pasture field.

Often articles appear concerning the continuous treatment of phenothiazine. This is the system used in Britain. It is an inferior type of treatment to the pilling. However, it is the most effective for sheep raisers in the "Old Country" because their winters are not as severe as ours and consequently do not sterilize the pastures. If breeders in this area wish to use this method it is fine if used only as an adjunct to pilling.

Some breeders use the hog method. Take a log and bore holes about the size of a sheep's nose. In the hole goes a mineral mixture, salt and powdered phenothiazine. Around the holes smear pine tar. This serves to smear the sheep's nose when they go after the salt-mineral phenothiazine mixture and will help to prevent infestation of the nose fly.

Another parasitic problem in sheep is the sheep ked. The use of dusts, dips or sprays can materially assist in overcoming external parasites in sheep. Last year the fieldman reported a very high percentage of sheep so infested. As stated before the adoption of sound husbandry practices can cut down losses in sheep raising and in the end assure more adequate returns. Both internal and external cause severe infestations and losses. It is up to you as a breeder.

CARE URGED
Here is an interesting article from the West. Care with 2, 4-D was emphasized at the annual meeting in Regina this spring of the Western Canadian Society for Horticulture. Too much damage is being caused from indiscriminate use of this weedkiller, say these prairie specialists. A little more care and perhaps a little more knowledge would be of advantage. There is no doubt about the benefits from 2, 4-D, but valuable plants as well as weeds can be killed or damaged by careless application.

Study of the situation during the past year by a committee of the Society has shown injury to vegetables, ornamentals and nursery stock over wide areas. Spraying with high volatile formulations and when wind velocities were excessive produced spray drift that has travelled long distances and caused considerable loss to growers of susceptible horticultural crops, they report.

Much could be done by spraying when the air is calm and avoiding where possible the use of high volatile compounds, the horticulturists believe. There is no doubt in the use of this valuable weed-killer are urged to use every care in its application.

PLYWOOD WARNING
Anyone buying plywood for use outside or in a damp location should make sure that it is bonded with waterproof glue say the Agricultural Engineers. Where plywood is to be used for an exterior finish of walls or roofs of buildings this cannot be too strongly emphasized.

For some years the Canadian manufacturers of fir plywood have used only waterproof glue in their product and good manufacturers of other types of plywood have used mauling, but not entirely, a waterproof bond. For this reason Canadian users have become so accustomed to this waterproof feature, that they have taken it for granted. It should be noted now, that some imported fir plywoods, and also some of our own softwood plywoods are on the market that are designed for interior use, or in a dry location and have only a water resistant glue. If this material is used in a position exposed to weather, trouble with delamination may be experienced.

To save considerable cost and worry at a later date make enquiries concerning plywood at the time of purchase.

CLUB NEWS
The O'Leary 4-H Calf Club met at the home of Eric Phillips on Friday evening, April 26th, with the president, Perley MacNeill presiding.

The meeting opened by repeating the club pledge in unison. Roll call was answered by eleven members. The minutes of the previous meetings were read and approved. Two new members joined the club and paid their fees.

It was decided to have a debate for the next meeting; the topic being "Resolved that Country Life is Better Than City Life." This was followed by a study period. Lunch committee for next meeting is Elaine Palmer, Marlene Phillips, Perley MacNeill, and Frankie Smallman. The meeting was adjourned and a delicious lunch was served by the committee in charge, Fenton Shaw, Secretary.

The Pleasant Valley 4-H Calf Club met on Friday evening, April 26th, at the home of Mr. John Hagen. Mr. Dave MacLean of the Department of Agriculture was present.

The president, Jean Hagen, called the meeting to order. O'Canada was sung and the 4-H pledge was repeated by all the members. Eight members answered the roll call. Collection amounted to 90 cents. The minutes of the previous meeting were read and approved. Books on Feeding and Care of the Dairy Calf were given out by the club leader, Milton Weeks.

It was moved by Ernie McLellan and seconded by Leonard Weeks that the next meeting to be held at Eleanor McKinnon's. Jean Hagen and Juanita Weeks are to bring lunch for the next meeting. A debate "resolve that the people of this district discontinue the use of horses and use mechanical power" was held. As this was the first debate no winner was chosen. The meeting adjourned. Lunch was served. Roma Murray, Secretary-Treasurer.

COMING EVENTS
Booking clover seeds, MacGulgan and Boyle Ltd.

Variety concert in Kinkora Hall, Wednesday, May 8, 8:30 o'clock.

Regular dance Mt. Ryan dance hall Thursday, May 9th.

Spring sale continues all this week at Waddell Bros., Crapaud.

Cleaning grain and timothy seed daily. Elmer MacDonald, Crapaud.

Dance Millview Hall Friday, May 3rd.

Square dance, Community centre tonight. Rod Linnell calling.

Card Party, Hampshire Hall, on Thursday night, May 9th.

Show, St. Peter's Bay Holy Name Hall, Friday, May 10th, 8 p.m.

Weekly dance Holy Name Hall, St. Peter's, Wednesday, May 8, Cliffords Orchestra.

Dance Stanhope and Covehead Community Hall, Sat. May 11, Dancing 9 to 12.

New London Concert in New Glasgow Hall, May 14th, Sponsored by Junior Farmers.

Dance every Thursday night, Cardigan Legion Hall, Websters Orchestra.

Dance at West Royalty Hall every Wednesday night, Rollie MacKenzie's Orchestra, 9.30 to 12.30.

Junior Farmers meeting, New Glasgow School tonight. Guest speaker.

See Vernon River players present "Maid of Honor" in Corran Barr Hall, Friday, May 10th, Curtain 8:15.

See "Have a Heart" by Charlottetown Easter Monday Players, Parish Hall, Souris, Saturday, May 11, at 8:30, specialties.

Long Creek Hall Friday, May 17, travelogue Kodachrome slides by Sterling Inman and variety concert.

Monthly meeting Kingston Branch Canadian Legion, will be held Thursday, May 9 at 8 p.m. Full attendance is requested.

SUNSHINE ISLAND DAIRY

NOTICE
The meeting was adjourned and a delicious lunch was served by the hostess, Garth Coffin, Club Reporter.

The Shearbrook 4-H Calf Club held its regular meeting of the year on April 27, 1957, at the home of Woodland Paupit. The meeting opened with the singing of O'Canada. The minutes were read of the last meeting and nine members answered the roll call.

John MacDonald placed first in the public speaking among the calf club members with eighty-five points.

It was decided that a debate would be held on the topic, "Resolved that boys have an easier life than girls." On the affirmative side are Woodland Paupit, Vera Chappell and John MacDonald. On the negative side are Violet Compton, Allison Chappell and Carl Paupit.

Violet Compton offered to have the next meeting.

Questions were asked out of the meeting by with a new lesson set for the next meeting. It was moved by Allison Chappell and seconded by Carl Paupit that the next roll call be answered by each member naming three parts of a cow. Correspondence was read by the club leader, Urban Laughlin.

FIELD DAY

After a lengthy but interesting discussion regarding a Prince Edward Island Junior Farmers' field day, it was moved by George Kiley and seconded by Stirling MacRae that a committee consisting of Edward Clarke, Robert Rackham and Laura MacLellan work together with the Department of Agriculture and outline a program for a field day.

Miss MacMillan gave some very helpful suggestions with regard to projects. She said that Junior Farmers should have projects, such as farm management, soil management, soil tests and soil maps, that would show the other farmers in the communities the advantage of these projects and thereby help the farming situation. Miss MacMillan also suggested the keeping of a farm records by making farm inventory which would enable farmers to better estimate the profits or losses.

Miss MacMillan also suggested the keeping of a farm records by making farm inventory which would enable farmers to better estimate the profits or losses.

FIELD DAY

Considerable discussion arose regarding Daylight Saving Time and it was felt the majority of the meeting that since this was an agricultural province that Daylight Saving time would not be beneficial to farmers. The letter was asked to write a letter to the Minister of Education in regard to teaching elements of farm practise in all schools in Prince Edward Island.

It was suggested by Wallace Wood that a calfhood vaccination project for Bangs disease be considered.
