

A Note.

BY SHAPHAN THE SCRIBE.

To people who object to our methods of spreading Salvation and raising money, I may mention that a few days ago I received by post the programme of a bazaar in aid of the building fund of a church, within five miles of the Clapton Congress Hall.

Among the attractions offered were ventriloquism; Chinese conjuring; living marionettes; Royal Punch and Judy; wax-works; "a new and original magical scene;" and "a sensational drama;" while among the stalls was an office for conducting raffles.

It seemed to me that the Vicar had chosen a particularly appropriate position in assuming the charge of the "curiosity shop."

And yet, I suppose many friends who attended and helped to make the bazaar a success, would be very much down on the Salvation Army, in its efforts to attract the attention of poor sinners to the Gospel.

A Courteous Cat.

A member of the Zoological Society says:—"I once had a cat who always sat up to the dinner table with me, and had his napkin round his neck, and his plate and some fish. He used his paw, of course, but he was very particular, and behaved with extraordinary decorum. When he had finished his fish I sometimes gave him a piece of mine.

One day he was not to be found when the dinner bell rang, so we began without him. Just as the plates were put round for the entree, puss came rushing up stairs and sprang into his chair, with two mice in his mouth. Before he could be stopped he dropped a mouse on his own plate, and one on mine. He divided his dinner with me, as I had divided mine with him.—Manchester Times.

Drawing the Long Bow.

The ladies of the sewing society were busily engaged at their work, when the 7-year-old son of the hostess asked Mrs. Bently if she belonged to an archery club.

"No, Bobby," she replied, amused at the question. "What put that into your head?"

"Pa did. He said you can beat any woman in town drawing the long bow."

New Use For Knitting Needles.

A German test for watering milk consists of dipping a well-polished knitting needle into a deep vessel of milk, and then immediately withdrawing it in an upright position. If the milk is pure, a drop of the fluid will hang to the needle, but the addition of even a small portion of water will prevent the adherence of the water.

Heads, I Win - Tails, You Lose.

The love of draw-poker passes all understanding. If a player is a constant winner he is a gambler, and should quit. If he is a steady loser he is a fool, and should play no more. If it is a see-saw arrangement, the players cut up and drink all the profits, and should be in better business.—N. O. Picayune.

A Hairbreath Escape.

Sending a man to prison for a long term for marrying two women is often quite as much of a pleasure as a punishment to him. The only certain way to terrorize him would be to compel him to live with both of them and see that he was never allowed to have his hair cut.—Fall River Herald.

How to Tell Good Eggs.

Place the large end of the egg against the tongue; if it becomes immediately warm to the tongue, the egg is very fresh; if it becomes warm slowly, it is stale; if no heat is felt, the egg is bad. The degree of freshness of eggs is thus easily ascertained.

A Model Son-in-Law.

On the mother-in-law business, New Jersey has a representative with kindness enough to redeem a whole State. He lives in Atlantic City, and can kiss his wife's mother a welcome when she comes to stay with him.

Wise Beyond His Years.

"Tell me, now, where do the bad people go, who disobey the commandment and steal?" "Canada!" squealed a little boy over in the corner, before the crowd had a chance to answer.

A New Kicking Diet.

Parisians ate 13,000 donkeys, mules and horses last year. The Academie de Medicine has awarded a prize to an essayist who strongly recommends a more general use of such diet.

Truth.

The open, bold, honest truth—is always the wisest, always the safest, for any one in any and all circumstances.

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Paratubercular Ulcers, Nervous and Physical Collapse, etc. It allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alternative that it eradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

Is composed of the genuine Honduras Sarsaparilla, with Yellow Dock, Stillington, the Iodides of Potassium and Iron, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.
