TORONTO

TORONTO (CP) — The stock market closed a shade lower Thursday after a session of dull trading.

The western oil index lost more than three-quarters of a point as a long list of issues moved down. Golds were off a half point on their index. Base metals were virtually unchanged from the previous close.

Interest in specualative mines, for the second straight session, was noticeably lacking. Brokers said many investors were showing caution in their stock transactions, thus adding more dullness to trading.

Senior base metals were mixed but International Nickel and Noranda had major-fractional gains. Lower-priced mines moved in a 10-cent range in most cases.

Index changes: golds off .59 to 82.43; base metals up .03 to 166.17; western oils off .83 to 134.26.
