

PRESIDENT

Dean MacMillan

over the past two years. I offer these along with my experience, keen desire, and positive attitude to you, the students. I believe that as president I could make a definite difference in our Student Union.

As the official spokesman of the Student Union, I will make it my prerogative to ensure that at the end of my term all Islanders know what the Student Union is and what it is about. I will also do my utmost to make sure that provincial and federal governments hear us, the students, loud and clear.

Here on campus, spirit will be my foremost task. I have many ideas to make our spirit in 1988-89 the best ever. This along with my other plans to upgrade the services that the Student Union offers you, will hopefully make for the best year ever for the UPEISU.

Over the next few days I will be advertising my platform. Please feel free to ask me about any of the programs I would like to implement. It is essential that I speak with everyone over the next year to hear your ideas and opinions. Thank you very much for your support. Let's look forward to a great year.

Yours sincerely
Dean MacMillan

My name is Dean MacMillan. I am running for the position of Student Union president here at UPEI. I have two years of council experience and have been on over ten council sub-committees, chairing two of these. I have held the position of Freshmen representative and am currently an Arts representative on this year's council.

I started my studies at UPEI three years ago and from then have been actively involved with keen interest in Student Union activities. For the past two years I have seen how the Student Union operates from a first hand view. I have seen many problems arise, with various solutions, some working, some failing. I have kept note of the ideas I have come up with

Rhonda McLellan

The position of president of the Student Union is a privilege as well as a responsibility. It includes duties such as representing the

student body to the university, the community, and the country. This is a duty which I feel is one of the most important ones.

The validity of this representation depends on open communication between the president, the student council, and the students. The president must express a willingness to listen to your ideas and concerns. It is up to you to elect him/her for this reason.

I am confident in my abilities and innovative ideas to represent you honestly, and, by doing so, overcome apathy and give the UPEI

student body a new "spirit".

On March 15, I look forward to expressing these ideas and issues which are important to know before you can vote for the right candidate. Once you have decided which one serves your needs and interests best, you can exercise your voting right on the 16th and 17th of March. By voting, you are electing someone you know will be your best representative.

Vote Rhonda McLellan
for SU President, 1988-89

Lisa Murphy – VP Academic

Hello!

My name is Lisa Murphy and I would like to offer my candidacy for the Vice President Academic position of 1988/89. I am a 2nd year Arts student majoring in Canadian Studies and Political Studies. I would like to outline some of the VPA's duties and then let you know why I think I should be considered for this elected position on the UPEI Student Union Executive.

Among various executive member duties, the VP Academic is responsible for all academic issues of students of the Union. This includes academic matters and concerns of the student sub-organizations on campus and all research activities undertaken by the Union on behalf of students. The VP Academic oversees the operation of both the yearbook and the student newspaper, The Gem. The VP Academic, as a member on Sen-

tee, and was recently selected as one of Canada's two Red Cross Youth Delegates to go to Australia in upcoming April.

As Vice President Academic, I could broaden the outlook students cur-

Cont. on page 14

ate, acts as a liaison between the student and the faculty/administration and sits on various academic and award committees for quality representation of UPEI students.

I am firmly committed to serving the needs of students during their educational years at UPEI. The quality of education and the accessibility to it has been a very strong interest of mine and one that I have strived to achieve since my entry to UPEI. A recent example of my commitment to the cause of quality education was my involvement in the "National Week of Action". As an organizer, with a hard working committee and with student involvement, I am proud to say we achieved some much needed awareness from our levels of government, our community, and our UPEI campus. We said

"Hey, we students care about our education at ole' UPEI", and the powers that be in the world of funding listened to our voices.

My involvement this year with our student newspaper in its production has provided me with a working knowledge and appreciation of the operations of a campus paper and I feel confident and capable in this area – one of the VPA's duties. I have been fortunate to be UPEI's CFS representative this year and have learned a great deal about student politics and about the many resources available to this university through our membership with CFS. As a member of the UPEI Debating Society I have gained organization and presentation skills and I feel that I would provide good representation of the needs and wishes of the students of UPEI.

We, candidates, have been asked to keep this introduction brief and so I will end for now. I look forward to future discussion and interaction with you, my fellow students, in the near campaigning future and invite your comments and concerns that you may have.

Sincerely

Lisa Murphy

Candidate for VP Academic

John Scott – VP Academic

Hi! My name is John Scott and I am a scholarship student in my second year of Engineering. My past endeavors with the Uni-

versity included my participation in Frosh committee 1987, my appointment to the Computer Science Sub Committee of Senate, and my recent involvement with the VPC Committee; responsible for the current referendum that resulted in the creation of that office. My extra-curricular activities, however, stem beyond the university lifeline, to volunteer organizations such as Red Cross. I currently chair the Provincial Youth Action Committee, hold a voting position on the Provincial First Aid Advisory Commit-
