

TYNE VALLEY

The first card party of the season was held in Tyne Valley Hall on Friday evening, Jan. 25th, with seven tables in play. The following were the winners, Mrs. Hart Lidstone, high lady; Mr. James MacDougall, high Gentleman. Consolation Miss Millicent Stewart and Mr. Leigh Maynard. Prizes were donated by Mrs. Horace Lidstone.

The friends of Mrs. Gordon Noye are sorry to learn she is a patient in the Health Centre and hope she will soon be well.

The friends of Mrs. Dan MacArthur are pleased she has recovered sufficiently to be able to return to the home of her son, Horace, after being a patient in the Prince County Hospital for the past month.

Mrs. Elton Newcombe has accepted the position of clerk in the General store of R. C. MacNeil. Mr. and Mrs. James Nicholson, Charlottetown, spent the week end at the home of Mrs. Nicholson's parents, Mr. and Mrs. Thos Nisbet.

Mr. Ronald Nisbet and Mr. Edgar Ellis, two P.W.C. students spent the weekend at their respective homes in Tyne Valley. Miss Dorothy Darrach, Charlottetown, was a recent weekend guest of her brother and sister-in-law, Mr. and Mrs. Lloyd Darrach.

Congratulations are extended to Mr. and Mrs. Earle Ford on the birth of a son in the Health Centre on Sunday, Jan. 27th.

The Explorers met at the Manse on Friday after school for their usual meeting under the leadership of Mrs. L. MacNaughton and Mrs. Nelson Sheen.

Mrs. Clark MacQuarrie was a son, Mr. Robert L. Phillips and visitor to Summerside on Saturday, Jan. 26th, the guest of her family. B.H.

BEDUQUE

Mr. Walter Bonness underwent a major operation in the Prince County Hospital on February 2nd. He is doing as well as can be expected.

Mrs. Percy Millar, Lot 16, has been the guest of her daughter, Mrs. Ivan Dawson and Mr. Dawson, Central Beduque, recently.

Mr. Ralph Callbeck, Mr. Edson Wright, Central Beduque, Mr. Arthur Murray, Beduque, and Mr. Arthur MacFarlane, Lower Beduque, were visitors to Saint John, N.B., last week.

Mrs. Calvin Leard has returned from a prolonged visit to Moncton, N.B., where she was the guest of her friend, Dr. Alice Harrison.

Rev. G.A. Cowper-Smith, Beduque, has been a patient in the Prince County Hospital for a week where he underwent a minor operation on January 29th. He expects to be home in a few days.

Congratulations to Mr. Maurice Lodge, Borden, who won a prize of \$468.75 in the "Know Your Maritimes" contest recently conducted by certain Halifax papers. B.Q.

BURTON

Friends of Mr. Wilfred Dalton, Burton, are pleased to learn he has returned from Prince County Hospital where he was receiving treatment.

Mr. and Mrs. Ivan Collicutt and daughter Darlene, who are residing in N.S. for the winter spent the weekend with their parents, Mr. and Mrs. Clifford Collicutt, Burton, and Mr. and Mrs. Lloyd Cook, Cape Wolfe.

A very successful card party was held on Monday, January 28th at the home of Mr. and Mrs. Colridge Rogers, Burton. Ladies first prize was awarded to Mrs. Henry Dalton, gentlemen's to Lorne Howard. Consolation prize winners were Miss Mona Collicutt and Cecil Clements. Chas. Perry won the lucky chair prize. A dainty lunch was served by members of Burton W.I. The remainder of the evening was spent in dancing. Music was furnished by Mr. and Mrs. Colridge Rogers. Lance Dalton and Lorne Howard. A substantial sum was realized. Mr. and Mrs. Millage Collicutt and family of Springfield West were Sunday visitors of Mr. and Mrs. Edmond Collicutt, Cape Wolfe. C.R.

NEW ANNAN SCHOOL

The following is the honor standing of New Annan School for January.

- Grade VIII. 1. Pauline Mander-son.
- Grade VII. 1. John Wall.
- Grade VI. 1. Joyce Rayner, 2. Richard Dalzell, 3. Wayne Wright.
- Grade V. 1. Myra Schurman, 2. Freddie Rayner, 3. Alan Wright.
- Grade IV. 1. Nancy Tuplin, 2. Linda Rayner.
- Grade III. 1. Judy Schurman, 2. Blayne Mann, 3. George Wall.
- Grade II. 1. Olive Moase, 2. Errol Thompson.
- Grade I. A. 1. Fraser Mann, 2. Alan Rayner.
- Grade I. 1. Theresa Manderson. Teacher, Mrs. Archie Mann.

LOWER BEDEQUE SCHOOL

The following is the report for the month of January for the Lower Beduque School.

- Grade X. 1. Kathryn Jeffrey, 2. Anne Leard, 3. Velda Arsenault.
- Grade IX. 1. Alan Wright, 2. Ruby Arsenault.
- Grade VIII. 1. Joan Affleck, 2. Janet Affleck, 3. Bobby Arsenault.
- Grade V. 1. Percy Affleck, 2. Nancy Arsenault.
- Grade IV. 1. Jeanie Wright, 2. Melvin Affleck, 3. Douglas Arsenault.
- Grade III. 1. Dannie McLure, 2. Stuart Affleck.
- Grade II. 1. John Wright.
- Grade I. 1. David Arsenault. Teacher, Jean Reeves.

SPEEDY SWIMMER

The dolphin can pace vessels slicing through the waves at 30 knots.

SPEED and accuracy are crit-erions that all graduates of the Clerk Administration School, RCAF Station Aylmer must develop prior to completing the "Clerk Admin" course.

AW2 Sandra Joyce Raworth SEATED 18, whose parents reside in Moncton, N.B., is displaying the correct typing procedure to other members of her Clerk

Admin Course 62 which graduated from RCAF Station Aylmer January 18, 1957.

LEFT AC2 Raymond Gaddess, 19, whose mother resides at New Castle Bridge, N.B.; AC1 John William MacNally, 22, whose mother, Mrs. F. L. MacNally, resides at 36 Rochford St., Charlottetown, P.E.I.; AW2 Joan Gladys Raymond, 18, whose parents

at Rossway, N.S.; and LAC Thomas H.A. Howard, 25, whose wife Freda Ellen resides at Tangier, Halifax County, N.S. and whose mother Mrs. C. O. Howard resides at 1402 Stanley Avenue, Victoria, B.C.

These students graduate as "clerk stenos" and are transferred to RCAF units throughout Canada and overseas.

Sgt. D. H. Skinner Tells How "A Clerk Is Born" In RCAF

What is a clerk? Have you ever encountered in an RCAF Station Orderly Room a beaming individual, -chock full of gen, and wondered just how and why this man got there?

Contrary to popular belief, a clerk does not come into the world with a copy of Queens Regulations (QR (AIR) clutched in his little fist, a la Sgt. Shatterproof (the RCAF's famous administration clerk from the pages of "The Roundel") nor has he the ability to type his own formula, to dispel any illusions you may have, a general idea of how he gains his knowledge is presented.

After nineteen or twenty years of indecision, the prospective clerk decides to join the RCAF. Following a preparatory course at Manning Depot, he arrives, chortling with anticipatory glee, at CkTyp School at RCAF Station Aylmer, ready to astonish the world with his genius.

This school was first established as part of Composite Training School, (KTS) at RCAF Station Mountain View in June, 1946. Early in 1947, KTS moved to RCAF Station Trenton and three years later was transferred to Aylmer. In 1954, the name was changed and KTS became 1 Technical School. (TTTS).

At the Clerk Typ School part of 1 TTS, a clerk learns to type at a minimum of 25 words per minutes after 180 hours of typing instruction. In addition to a refresher course in English grammar, the student is trained to write service correspondence in the correct manner. He is instructed in a good deal of administrative theory. A knowledge of re-mustering procedures, leave regulations, preparation of travelling claims and security regulations

are among the ten administrative subjects in which a clerk is well grounded.

Instructors at the CkTyp School are hand picked for the job of introducing young minds to Service Life and procedures. The main requirements other than a lot of experience in the clerical field, are a sincere desire to teach and the gift of gab.

Clerks are not born but are re-born after clerical growth in the classwork of the alma mater, CkTyp School. A great deal of effort is necessary before an air man or airwoman is graduated as a clerk typist, to face the service life of the RCAF (Regular).

MH-Ferguson Buys Up Standard Shares

LONDON (CP) — The Evening Standard says the Canadian firm of Massey-Harris-Ferguson is buying shares in Standard Motors and will shortly announce its association with the British company. The newspaper says the Toronto firm's main purpose is to control production of Ferguson tractors in Britain.

OLD STATE

Brittany in northwest France, formerly an independent state, was incorporated with France in 1532.

Scandinavians Urgently Seek For More Food From The Sea

COPENHAGEN (Reuters)—Winning more food from the sea, a task which a rapidly increasing world population is daily making more urgent, in future will be tackled jointly by Scandinavian scientists.

They will do so as part of a far-reaching research project covering underwater life along the coasts of Norway, Sweden, Denmark and Finland and including the waters of the Baltic, the North Sea and the Atlantic.

The first step towards this co-operative program was the foundation in Copenhagen last November of a Scandinavian college of marine biology, consisting of one expert from each of the Scandinavian countries.

Small marine observation posts already exist in several parts of Scandinavia, and by 1958 there will be a central research station

in each of the four countries. The 600-mile coastline from Tromsø in northern Norway to Esbjerg in west Denmark also will give Scandinavian scientists ample opportunities to investigate the part played by different water temperatures in the development of sea animals.

It is known that a lobster or a shrimp in Arctic waters develops more slowly than a similar species in a temperate zone, whereas other species in contrasting conditions show differences in their metabolism. Here again, the laws governing the divergencies are still largely guesswork.

The reduction of starfish, snails and crabs also presents researchers with a challenge. These consume about four times as much food per weight unit as the "useful" fish and also multiply more rapidly. As supplies of fish food are not inexhaustible, these species therefore threaten the growth of the less greedy, edible sea animals.

While seeking to protect and increase the types of fish which are useful to man, the Scandinavian researchers also will investigate the possibility of extracting new forms of nourishment from the sea. Though less than two per cent of man's total food intake comes from the sea, fishing waters in some areas already are showing signs of becoming exhausted. One of the reasons for this is that edible fish usually take relatively long to mature.

Council Urges Federal Action

OTTAWA (CP)—Canadian fruit and vegetable growers have asked for federal government action to protect them against dumping of United States produce in Canada at distress prices.

The Canadian Horticultural Council, which represents most of the growers, asked Monday in a brief to Agriculture Minister Gardiner that the government set a "fair market value" for tariff purposes on fruit and vegetable imports during the Canadian marketing season.

The brief said producers' main protest is against imports at "distress prices." American producers' crop-end, clean-up sales set the market price of a very large portion of newly-harvested Canadian crops. Canadian producers could not sell any of their crop at premium prices.

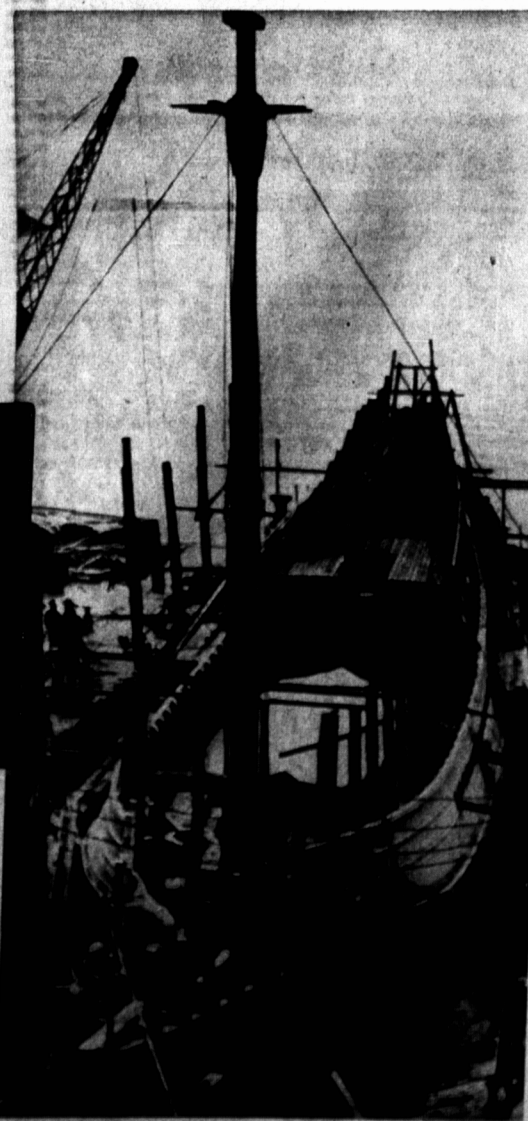

It added that while Canadian protection against dumping had been "whittled away" the U.S. market had protected its primary producers "against even a threat of imports of Canadian primary products at low prices."

ASK REVISION
Of 36 resolutions now under study at the council's four-day annual meeting which began Sunday, 19 call for revision of tariffs on imported fruits and vegetables or seek protection against dumping.

R. D. Sutton of Fort Williams, N.S., chairman of the council's apple committee, reported that production in the four apple-growing provinces—British Columbia, Nova Scotia, Quebec and Ontario—declined last year to 11,614,000 bushels from 19,142,000 in 1955.

PRIMITIVE TRANSPORT

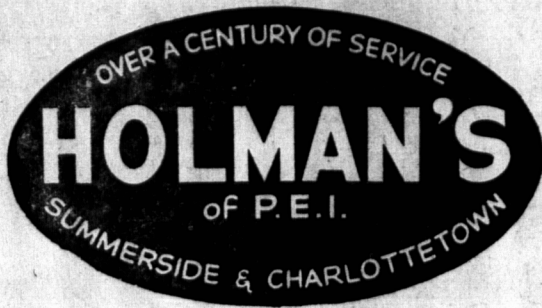

The "travols" used by the old western Indians was two long poles lashed on each side of a horse to hold a baggage net.

NEW MAYFLOWER BUILDING

Hull of the Mayflower II replica of the pilgrim ship that made the Atlantic crossing to America in 1620. The ship is to be built in the dockyard at Brixham, England. Wirephoto.

Vessel is to sail to the United States later this year in good will voyage commemorating the crossing of the pioneer settlers. (AP Wirephoto)

In keeping with HOLMAN'S policy of always bringing you the best in bargains and the latest in style, we are offering these exciting features at substantial savings.

YOU CAN SAVE 50.00

ON THIS GREAT NEW 1957 TV

BY

General Electric

Ultra-vision . . . the sensationally styled TV by General Electric, just packed with loads of important features including more than a few exclusives, has added improvements that you will marvel at. Tuning has been simplified so that channel selection and picture control, as well as sound, has become easier than ever. There is also a noise canceller that eliminates any interference, making your TV viewing the best possible. So visit HOLMAN'S and see this magnificent set soon. Available with or without legs.
