ROLLO BAY

Mrs. Somerled McDonald and young daughter, Montreal, Que., are visiting Mrs. McDonald's parents, Mr. and Mrs. Hugh McKinnon Rollo Bay West.

Mr. Kelvin Mullally, Cambridge Mass., is visiting friends and relatives in Souris and Souris West.

Mr. J.R. Peters, Dorchester, Mass., is spending his vacation with his brother and sister-in-law, Mr. and Mrs. Henry Peters, Souris West.

Mr. and Mrs. Earl Crispin of London, Ont., who have been visiting at Mrs. Chrispins' former home in Rollo Bay, left on return on Friday morning. They were accompanied by Mrs. Crispin's brother Mr. Clifford McDonald.

Mr. and Mrs. Arnold Mahar and family, Fredericton, N. B., are spending a vacation at Mr. Mahar's former home in Rollo Bay.

Miss Caroline McKinnon Boston, Mass., is visiting at her old home in Bear River.

Sgt. Martimer Mahar, Mrs. Mahar and daughter Beverley, Halifax, N.S. are visiting relatives in New Zealand and Souris West.

FIRST TIME EVER-
Television that doesn't cut corners!

The round corners on your present 21" TV set often deprive you of part of the picture

New Admiral 23" wide-angle screen "squares" the corners, provides an extra 20 sq. in. of viewing area . . . shows you all the picture

Admiral TV for 1960 with new wide-angle 23" screen gives you bigger, clearer, sharper pictures in a cabinet no larger than present 21" sets.

All the picture the TV station transmits—that's what you get with Admiral's new 23" wide-angle picture tube. You see, no matter whether it's a live show, or film, a *"squared"* picture comes over the air. With the new Admiral 23" screen, for the first time you *see* a "squared" picture on your TV set. You'll notice the difference most easily in movie titles, where now whole words are sometimes lost—chopped off by the rounded corners of the present 21" tube.

But Admiral TV for 1960 gives you more than a *bigger* picture. It gives you a *sharper*, clearer picture. There are two important reasons for this. First, the new Admiral 23" tube does away with the present dirt-catching space between picture tube and safety glass, there's nothing to clean but the screen front! With the new Admiral tube, both safety glass and optic filter are permanently bonded to the tube face plate. Distortion and reflection from room lights are cut down by as much as 50%. The angle of vision is increased—the picture's sharp even when you sit off to one side. And because the tube can be placed closer to the front of the set, the new Admiral cabinets are slimmer.

Second reason, is Admiral's new Dynamic Automatic Focus Control that brings every portion of the picture into the same sharp focus—from the centre right out to the new, square corners.

A bigger, better picture—a slimmer cabinet, these you can *see*. But there are still other Admiral advances. There are the Admiral-pioneered etched circuits, now so perfected that they are backed by *a 5 year written warranty*. There's the new Admiral circuit breaker, a simple, effective safeguard that replaces annoying fuses. And because of its unit construction, the new Admiral picture tube is *the safest tube ever invented*.

See Admiral TV for 1960 at your Admiral dealer's . . . again, as in every year since TV came to Canada, your best TV buy.

THE SOMERSET

Model L24M81X. 23" Imperial TV Lowboy. New wide angle 23" picture tube. Dynamic automatic focus. 20,000 volts of picture power. Transformer powered. Etched circuits with 5 year warranty. Two 6" full fidelity speakers. Ultra-slim cabinet in walnut, Swedish walnut or cherry veneers.
