## The Boom is Here.

### NO DILEMMA THIS TIME.

WE HAVE THE LARGEST STOCK OF FURNITURE ever shown on P. E. Island, backed up by the best equipped Furniture Factory east of Montreal.

We are prepared to double our business this year. Small Profits and Quick Sales is what is going to do it. We lead in low prices and good value. Home manufactured goods are what the people of P. E. Island want.

JUST THINK OF IT!—A Complete Bedroom Set, including Three Cane Chairs, for \$16.00, spot cash.  
How can we afford to do it? Call and see our plant of labor-saving machinery.

**MARK WRIGHT & CO.**  
Charlottetown, June 4, 1889—2aw wky

### Local and Other Items.

**MARITIME EXHIBITION.**—Moncton will hold a maritime agricultural and industrial exhibition this fall.

To KEEP the beard from turning gray, and thus prevent the appearance of age, use Buckingham's Dye for the Whiskers, the best dye made.

**ANOTHER ANNIVERSARY.**—The 25th anniversary of the founding of St. Joseph's College, Memramcook, is to be celebrated on June 26th.

**WHERE TO GO FOR BAIT.**—Says the Boston Herald: "Halifax is going to have a summer carnival, and she invites all Americans to put in there for bait."

**THE SALMON FISHERY.**—The St. John Sun says: "The catch of salmon up to the present has been very small, and the fishery, will, it is feared, be a failure."

**FREAK OF NATURE.**—A cow belonging to William Higgins, who resides near Sackville, N. B., gave birth to a calf with five legs the other day. Two are located in front and three behind.

**FLOUR SHIPMENTS.**—Within the last two weeks, says an exchange, several carloads of flour from western states have been forwarded through Canada over Canadian railways down the Temiscouata and N. B. railway into northern Anroostok.

The benefits of vacation season may be greatly enhanced, if, at the same time, the blood is being cleansed and vitalized by the use of Ayer's Sarsaparilla. A good appetite, fresh vigor, and buoyant spirits attend the use of this wonderful medicine.

**ATTEMPTED SUICIDE.**—A young man named Terrence Collins, living on Water Street, Halifax, attempted suicide a few days ago by cutting his throat. It appears that he had an attack of the d. t. s. and was further stimulated to the act by a letter he received from his best girl.

"My father at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor, the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Cullen, Saratoga Springs, New York.

**FOR THE JOHNSTOWN SUFFERERS.**—Harrison's orchestra gave a concert in St. John recently for the benefit of the Johnstown sufferers. They realized about \$100, which will be forwarded to Johnstown immediately.

**TO KEEP OFF MOSQUITOES.**—Take a small quantity of two per cent. carbolic acid solution and sprinkle sheets, coverlets, pillow, and bolster on both sides, the edges of bed curtains, and the wall next the bed. The face and neck may also be slightly wetted with the solution. Not a single gnat or mosquito, it is said, will come near.

**NEW CURES FOR CRAMPS.**—According to an exchange, there are two idle superstitions about cramps that come in the legs and start a man out of his bed quicker than anything else. One is to stick a jack-knife in the headboard of a bed on retiring for the night, and the other is to arrange the slippers very carefully, bottom up, at the end of the bed.

**WHAT CAPTAIN HILL SAYS.**—The Halifax Herald reports:—In conversation with Capt. Hill, of the s.s. Halifax, he expressed surprise at seeing a telegraphic despatch in the Halifax newspapers "that the Halifax was aground in Boston." He remarked that it was evidently sent by some opponent of the line. It was true that at low water she grounded at the wharf in Boston, which is not an uncommon event for any ship at low water at some wharves.

**NO STREET PARADE.**—Although the Wood-St. John Co. do not give any "razzle dazzle" street parade, yet their entertainment is of such a character as to please every patron. It is becoming a recognized fact that theatrical companies who give a sensational street showing are those that possess the least stage talent. Ask your friends next Saturday how they liked the Wood-St. John Co.

**THE SUMMER TIME TABLE.**—For the convenience of the public we condense the hours of departure and arrival of trains (local time):

FOR THE WEST.  
7 and 9.45 a. m.; 4.30 p. m.

FROM THE WEST.  
10.35 a. m.; 4 and 8.10 p. m.

FOR THE EAST.  
7.30 a. m. and 4.15 p. m.

FROM THE EAST.  
10.20 a. m. and 7.15 p. m.

**DIED IN CHURCH.**—The Portland F. C. B. Church was recently the scene of a very sad and sudden death. About half-past nine one evening, when the prayer meeting which was being held, was nearly over, Mrs. C. S. Phipps, a lady who has always taken an active part in the church work, arose and testified. As she sat down she covered her face with her hands, seemingly overcome with emotion. But as she remained that way for a considerable time, and seemed to breathe hard, her friends became alarmed, and when they went over to where she sat they found she had suddenly expired. Mrs. Phipps had always enjoyed good health up to the time of her death.

**WAR RUMORS.**—It is now understood, says a recent Vienna despatch, that Russia is making extensive preparations for war at an early date. It is reported that immense quantities of fodder are being stored all along the western railway system, which can mean nothing but military activity. 4,000,000 pairs of boots have been ordered to be delivered within two months' date. A large increase in Russian artillery is contemplated. Gen. Gourko's proposition to erect a new series of fortifications in Poland has been adopted. This will cost from twenty to thirty million roubles. The construction of the work will begin immediately in the Warsaw district.

### Marriage this Morning.

THIS morning's sun witnessed the nuptials of Mr. George Stanley, of the firm of Stanley Bros.—one of the most popular of our rising young merchants—and Miss Annie Findley, daughter of William Findley, Esq., of this city. The marriage ceremony was performed in Prince Street Methodist Church by the Rev. John Read. Mr. George Moore, of the firm of Perkins & Sterns, acted as groomsmen, and Miss Florence Findley, sister of the bride, as bridesmaid. There were many spectators of the auspicious event; and as the happy couple left the church, good wishes were expressed by liberal showers of rice. Indeed, the rice infliction was too much of a good thing, and must have been anything but pleasant, while it lasted, to those who had to bear it.

Mr. and Mrs. Stanley started by the first train for a tour through the neighboring Provinces and the New England States. THE EXAMINER joins in the congratulations of hosts of friends, and sincerely wishes them health, happiness and prosperity.

### Alone, and a Stranger.

Says the Halifax Herald of Monday: Lizzie Elwood, 17 years of age, from Georgetown, Prince Edward Island, was met by Detective Phelan near the Common last evening, about seven o'clock, crying bitterly. When questioned by the officer, she said her father was dead, and that, being very badly used by her uncle, with whom she lived, she decided to leave his house. On arriving at North street depot yesterday, she had but thirteen cents, and, being a stranger, she did not know what to do. Yesterday afternoon, she was met by a West Riding soldier near Mr. Black's place, on Gottingen street, to whom she told her story. The soldier said he would meet her near the liberty tree last evening, where she was found by Phelan. The girl, when seen by the officer, looked as though she had been badly beaten, her face being bruised, while one of her eyes was blackened. She says the night she left her uncle's house she was struck in the face with a whip handle by her uncle, who pushed her out on the roadside and threatened to kill her if she again returned. Mr. Phelan referred the girl to a lady on South street, who was in search of a young person to do general housework. The officer enquired at the house to-day, and found that the girl had secured a permanent situation and was contented.

### A German Electrical Executioner.

There are signs of reform in the method of execution in other countries besides America, says one of our foreign contemporaries, but it is doubtful whether the German government will adopt the excessively dramatic mode which has been recommended to it by a certain Leipsic inventor. His apparatus consists of a platform nine meters square, approached by five steps. In the centre of the platform is a chair for the condemned man. Behind it stands a figure of Justice holding a pair of scales in her left hand. Under the platform is a series of electrical accumulators, from which wires pass through the legs of the chair into the seat and back, and terminate in platinum plates. The patient having been seated, the executioner reads the sentence, and then, taking a wand, breaks it and deposits the pieces in one of the scales. This descends, completes the necessary connections, and so ends the matter. In Germany, indeed, reform is just now being loudly clamored for, public opinion having been greatly stirred by a tragedy which occurred a few weeks ago, when, it may be remembered, the imperial executioner, in a fit of jealous rage, kicked one of his assistants to death. It is contended, with some show of reason, that the crime was, to some extent, attributable to the brutalizing effects of the prisoner's occupation.

### LETTERS TO THE EDITOR

"The Schoolmaster Abroad."

SIR,—The following communication was handed to the Secretary of the Lodge of this place a few days ago and I think it is worthy of a place in your columns as a specimen of the way the English language can be butchered by educated (?) men." The schoolmaster must have been "abroad" again.

CRITIC.  
Mount Stewart, June 12, 1889.

B—H— June 11, 1889.

Officers and members of—Lodge No. — As I have determined to defalcate my coalescence with the fraternity of—Lodge I hereby earnestly solicit the obliteration of my name from the books of the above mentioned Lodge.  
Yours fraternally,

### BIRTH.

On the 17th inst., the wife of Henry C. Connolly, of a daughter.

### MARRIED.

This morning, by the Rev. John Read, George Stanley, of the firm of Stanley Brothers, to Annie L. Findley, daughter of William H. Findley, Esq., of this city.

A valuable discovery of anthracite coal has been made at Cheticamp, Cape Breton, and on trial is said to have proved of excellent quality. One hundred barrels has been sent to England for analysis, and if it turns out as expected the mine will be at once developed to its fullest extent.

The debt of Newfoundland is steadily increasing, rising from \$5,140,548 in 1885 to \$2,713,499 at the present moment. The expenditure of the colony, which was \$1,376,185 in 1885, was \$1,830,541 in 1888.

### Obituary.

DEPARTED this life at Cumberland Hill, Dundas, P. E. I., on the morning of June 5th, 1889, Mr. Peter Johnstone, aged 68 years.

The deceased was only ill four days, of inflammation of the lungs, and, although he had the best of medical attendance through his short illness, death took him. He was the eldest son of the late Sergeant William Johnstone, of the 42nd Royal Highlanders, and last survivor of Sergeant Johnstone's family—with the exception of Mrs. John M. Johnstone, of Cumberland Hill, who is alone left. The deceased was married to a daughter of the late Thomas Alexander, of Charlottetown, who died some years ago, leaving no family. He was a great reader, and had a wonderful memory. Any passage in the Bible that was wanted was quickly turned up by him. Talk to him of battles or disputes between nations, he could tell you all about them, his memory was so great.

Although not a regular church-goer, he was a strong adherent of the Presbyterian Church. Deceased was always a Liberal-Conservative in politics, and a loyal subject of the British Queen. Nothing would induce him more than for any person to speak to him against England or Her Most Gracious Queen. But now his body sleeps in Dundas Presbyterian Churchyard, and his soul, we hope, is at rest.

### Sugar Goes Miting.

A RISE OF MORE THAN 60 PER CENT. IN LESS THAN THREE MONTHS.

Sugar has gone up, is going up, and will probably continue to go up until the next beet root crop is gathered. Taking it by the quotations in the London market from Jan. 1 to March 15 of the present year, beet sugar was steady at 15 shillings and 1½ pence per 112 pounds. From that price it steadily rose to 23 shillings and 9 pence, at which it stood on April 23. This morning the price in the same market was 25 shillings and 3 pence.

A rise of more than 70 per cent. on the price of March 15 has thus taken place in less than three months. As the profits in handling sugar are always fractional, this increased price has fallen, and is likely to fall still more heavily on the consumer.

There is no article so universally consumed as sugar. To the poor and the rich it is equally indispensable. But sugar has been so cheap for many years past that such advances are most keenly felt by the poorer classes.

During the months of June and July the demand for sugar is always very great. The large fruit preservers require it by the hundreds of tons. Every family in the United States which owns a few fruit trees wants sugar for the same purpose. With any greater advance the effect will be felt in every household in the country.

Dear sugar, means dear jam, dear candy, dear pie, dear ices, dear tea and dear coffee. Even some vicious habits will be hard hit by the advance, as when chewing gum and mixed drinks will become more expensive luxuries than at present.

The peculiarity of the present rise in sugar is that it is due to perfectly legitimate causes, if statisticians can be trusted. The great European beet root crop, from which so much sugar is nowadays made, has fallen off seriously for the past two years. During the same period the world's consumption of sugar marked its accustomed average advance of 5 per cent. over the previous year.—N. Y. Sun.

### Well Deserved Tributes.

The Boston Traveller publishes a sketch of the captains of the northern fleets, in which it says: "Plying between Boston and Charlottetown, Prince Edward Island, and touching at Halifax, the propeller steamships Carroll, Captain George H. Brown, and the Worcester, Captain Z. Nickerson, Jr., make frequent trips all through the open season. Capt. Brown and Capt. Nickerson are good men and true 'salt of the earth' as well as of the sea, bold mariners with established reputations for courage and nerve in the hour of danger, and withal kind-hearted and agreeable men, with a good relish for the pleasant side of life. Captain Brown and Captain Nickerson spring from good New England stock, and have proved themselves worthy of their ancestry. Sailing direct to Halifax without touching at any intermediate point, the staunch steel propeller steamship Halifax, and her gallant commander, Captain S. R. Hill, are worthy of more than passing notice. A bright, cheery man, and a splendid sailor and navigator is Capt. Hill, one who loves

A life on the ocean wave,  
A home on the rolling deep,  
Where the scattered waters lave,  
And the winds their vigils keep.

Generous and hospitable like all 'toilers of the sea,' Capt. Hill, with his frank, hearty manner and straightforward ways, makes friends of all with whom he comes in contact."

### Personal.

Hon. Joseph O. Arsenault is visiting the city.

Dr. McIntyre, M. P., of Souris, is in town to-day.

Hon. W. W. Sullivan and Mrs. Sullivan went West to-day.

Rev. D. D. Moore left this morning to attend the Methodist Conference.

William Heard, Esq., and Mrs. Heard were among the passengers who crossed to the Mainland to-day.

Mrs. Lawson, wife of the Editor of The Colonist, of Victoria, B. C., and Miss Marianne Lawson, left for the Great West this morning.

Rev. John Read and Mrs. Read, and Rev. Fred Smallwood and Mrs. Smallwood, and Rev. D. D. Moore left this morning to attend the Methodist Conference, which opens at St. John to-morrow forenoon.

The very best value in Men's Suits is to be found at James Paton & Co's., Market Square.
