

GEMINI (MAY 21 TO JUNE 20) This should be a lucrative week for you, so be on the lookout for a new job. Geminis are generally qualified listeners, so be on the watch for someone who needs an ear to cry into. Don't be too hasty in your important decisions. Be as creative as you possibly can this week and it will pay off in the weeks to come.

CANCER (JUNE 21 TO JULY 22) Cancers are known for their sensitivity, but Heaven knows even you can be a real jerk when you want to be. Don't get offensive; react. If you are edging towards a horrible mood swing, remember to take out your hostilities on a non-breathing object. Do a little bit of soul-searching and help out a bit more at home. The cash situation should lighten up around mid-week.

**Movie Review
Deceived - Goldie Hawn**

This movie is excellent if you like being scared silly without any blood and gore. It has you on the edge of your seat for the entire movie even though you know exactly what is going to happen at the end.

Goldie Hawn plays a convincing part even though she is not one of the best actresses around.

I suggest that everyone should see this film it is good to finally get a scare without seeing such ridiculous things as a doll running around killing people.
