

Forecasts New Bank Account

TORONTO (CP) — James Muir, chairman and president of the Royal Bank of Canada, today forecast a new type of bank account, a personal checking account, to eliminate frequent issuing of cheques against savings accounts.

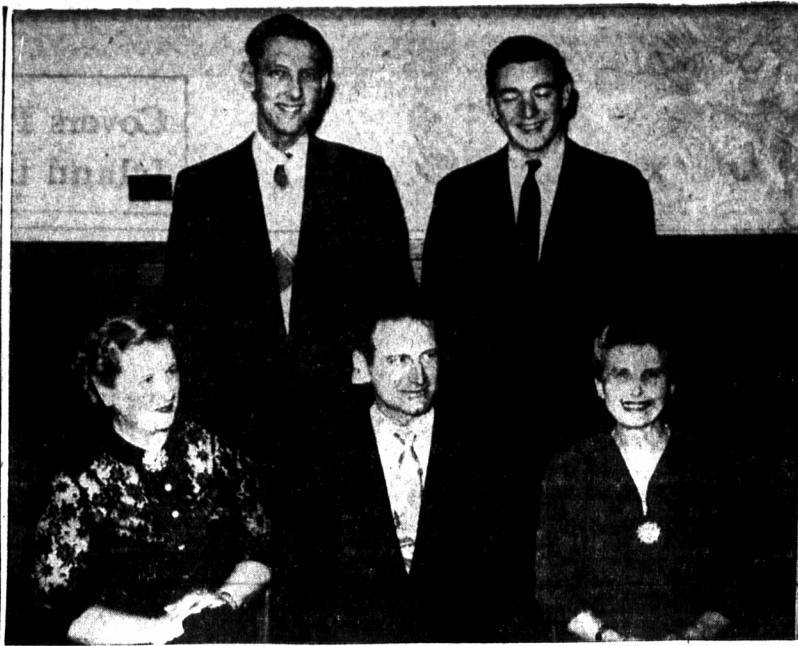

Mr. Muir, speaking at a meeting of the Canadian Club, said no interest would be allowed on the new accounts but cheque books for use with them would be sold to customers.

"This arrangement would make for a better checking service than is now possible with savings accounts and it would have the advantage of making savings accounts what they truly should be, a way for the public to accumulate and hold their savings," he said.

Since 1945 the banking public had been drawing an increasing number of cheques on savings accounts.

Observe 25th Anniversary Of The Community Concert Ass'n

The 25th, anniversary of the Community Concert Association in Charlottetown was marked last evening in the Y.M.C.A. by a gathering of active members who each year at this time, make overtures to citizens and rural enthusiasts to renew their season membership and seek to broaden interest in the organization.

Mrs. Keith Rogers, President of the Association, gave a brief but graphic review of the activities of the organization since its beginning 25 years ago when Mr. Justice A.E. Arsenault, supported by a vigorous and enthusiastic committee, led in the formation of the Association and became its first President.

During the quarter of a century which has elapsed, each year three or four rare programmes have been provided, in which high class entertainment of great variety has been presented to the delight of residents of the city and province.

The announcement that the Association had been re-organized in Summerside was received with interest and satisfaction.

Messrs. Josh Baldwin and Alan Bunce from Headquarters of the Community Concert Association were present to assist the campaign directors and their associates in organizing and assigning routine procedure to the workers.

One hundred members have been organized into a working force to carry out the objectives of the Association.

Following the very successful meeting, refreshments were served.

WCTU Program Held Yesterday

On Monday afternoon in the Baptist Hall the Women's Christian Temperance Union put on a Franches Willard program.

The meeting was opened with a brief devotional service and a short biography of Franches Willard was given. Mrs. Samuel Campbell ably took the part of the great leader and looked very quaint in her old fashioned costume.

An exercise "Franches Willard Calls" was given by the different members each representing one of the Provinces and each of whom reported to Franches Willard what they were doing in an effort to carry on.

Mrs. H.L. Milton and Mrs. Victor Runtz delighted the audience with a beautiful duet.

Three new members were received.

At the close of the meeting refreshments were served.

REPORT Shortage of Newsprint In U.S.

NEW YORK (AP)—The American paper industry Monday reported that a continued shortage of newsprint in the United States has increased imports from Europe.

During the last month Germany shipping manifests as principal European suppliers of newsprint. Col. Warren B. Bullock, manager of the import committee of the American paper industry, reported.

Bullock, who made his report in connection with the 79th annual convention of the American Paper and Pulp Association, gave no figures on newsprint shipments, which are admitted to the United States duty-free.

Sergeant Majors Protest Civilian Use Of Uniforms

CAMP BORDEN, Ont. (CP)—A group of regimental sergeant-majors Sunday protested wearing of army battle dress as working clothes by civilians.

Twenty-two first class warrant officers, representing all regular army infantry regiments, met in the first country-wide conference of infantry RMS held by the Canadian Army. The meeting was held in this army camp near Barrie and about 50 miles north of Toronto.

An RSM is responsible among other things for discipline and for enforcing regulations governing the wearing of the Queen's uniform.

RSM R. H. Finnie of the Black Watch 1st Battalion asked: "Why should I be required to spend hundreds of dollars to keep my uniform looking smart, only to find a street cleaner wearing the same uniform?"

The RSMs said a law forbids wearing the Queen's uniform without first having it dyed. But, they said, police and magistrates won't enforce it.

The meeting continues 10 days.

Federal Aid Boost Urged By N.B. Apple Producers

OTTAWA (CP)—New Brunswick potato growers have appealed to the agriculture department for an increase of 20 cents a barrel in federal price support and a representative said today "we are hopeful that something will be done."

New Brunswick representatives met with agricultural price support board officials Thursday to request a boost in federal aid in the program to divert surplus potatoes into starch factories.

The government last month agreed to participate in a scheme to assure growers of a minimum return of \$1 for a 165-pound barrel about 2 1/2 bushels—for Canada No. 1 grade potatoes diverted to the factories. The program is to cover about 2,000,000 bushels of New Brunswick and Prince Edward Island potatoes.

New Brunswick growers want the minimum return boosted to \$1.20 a barrel from \$1.

Jock Fraser of Woodstock, N.B., representing shippers at the meeting, said the group got a good reception and were told their request will be considered.

Describes Trip To Mexico City

Dr. Owen Curtis, Deputy Minister of Health, was guest speaker at the weekly luncheon meeting of the Rotary Club at the Charlottetown Hotel yesterday. Fulton Pierce was chairman and B. Graham Rogers, co-chairman.

Dr. Curtis spoke on his attendance at the meeting of the World Health Organization held in Mexico City last summer at which 72 countries were represented. Various countries presented their problems, many of which were interesting to hear about but did come within the scope of local activities. Such medical problems as malaria, smallpox, typhus and leprosy were dealt with along with more familiar ailments.

The speaker was also able to present a number of interesting colored slides and give a brief review of the history of Mexico which tied in nicely with the pictures, some very ancient, others ultra modern. He touched on agriculture, stock raising, gold and silver mining and the vast wealth of all available in the country.

Dr. Curtis found the people very polite lovers of pleasure and intensely fond of music and dancing. He had the experience of driving through the Great Northern Desert for 100 miles, where the highway runs straight for 70 miles. He described the vegetation in the area as cactus and sage bush. Later in his pleasure to visit the fruit belt where oranges, lemons, sugar-cane, grain and coffee are raised in profusion, in rural sections were seen at work with wooden plows as was the custom centuries ago.

Mexico City and other large cities are noted for their grand homes and gardens, their affection for the drama and beautiful cathedrals and churches. A bull fight every Sunday in Mexico City attracts thousands to the ring which is the largest in the world with a seating capacity of 50,000.

Dr. Curtis was thanked by co-chairman B.G. Rogers for his entertaining talk.

Regret was expressed by President Frank Curtis at the death of Mrs. Jones, mother of Rotarian Ralph Jones, which took place last week.

Congratulations were extended to Dr. G.H. Houston on his birthday anniversary which was yesterday. Bob Pitt, hotel manager who has been ill for two weeks was welcomed back to the activities of Rotary.

Ice Enshrouded Europe Faces Spectre Of Famine

LONDON (AP) — Dwindling food stocks brought fresh misery and the spectre of famine to ice-enshrouded Europe today. Vegetable prices rocketed as spring crops rotted under a three-week pall of snow.

The death toll rose to a known 676 in the worst winter in living memory.

The river Seine was frozen from bank to bank 25 miles south of Paris and the Thames iced solid outside the grey stone walls of Windsor Castle, where the Queen was week-ending after her three-week tour of tropical Nigeria.

In Rome, potato prices doubled to 100 lire a kilo (about nine cents a pound). Olive oil hit an all-time high of 1,000 lire a litre.

NEW BLIZZARDS

Eerie fog sirens moaned over the North sea as fresh Arctic blizzards reduced visibility to a few yards. Road patrols reported traffic conditions in Britain the worst ever and warned motorists "keep off the roads unless you absolutely must travel."

Three thousand shipworkers at Sunderland in northeast England were sent home after snowdrifts buried the dockyards and made
