MEETING AT ST. PETER'S.

His Honor the Lieutenant-Governor and Mr. Dillon held a meeting at St. Peter's Bay on Tuesday evening, on behalf of our dairy interests. There was a good attendance, and John A. McLaine, Esq., occupied the chair. The Lieutenant-Governor was presented with the following address:

To His Honor The Honourable George W. Howlan, Lieutenant Governor for the Province of P. E. Island.

MAY IT PLEASE YOUR HONOUR:

In behalf of the entire body of agriculturists and as individuals of this community, we extend to you a most cordial welcome—a welcome which embraces, all the fullness of the meaning of that good old Saxon word.

Not only on account of your dignified position, are we glad to meet you, but we are proud to greet you for yourself alone, being fully aware of the feeling which prompted your elevation to the most honourable position in the gift of the Government, and one which you are so qualified to fill with such gracious dignity.

The gathering together of the tillers of the soil in the different localities throughout our fair Province, to hear words of wisdom and encouragement through such a source, cannot fail to have stimulating effects, and may justly be regarded as events of present enjoyment and of happy memory in after years.

The eyes of all intelligent farmers of today are hopefully looking forward to a prosperous future, recognizing thoroughly that success is not the result of happy chance, but comes as a result of an active brain, coupled with energy and self-sacrifice. So we trust that your presence amongst us will have a significance of inspiring the hearts of all to join in the march toward the goal, where lies the realization of this hope; then will the little garden of the Gulf taken its destined place, as being one of the most sparkling gems in Victoria's crown.

Wishing you and Mrs. Howlan a long and happy life, we have the honor to be, dear sir, yours respectfully,

JOHN A. MCLAINE,
ANDREW LEWIS,
R. D. MCLAUCHLAN,
JAMES H. MCISAAC,
M. MCINNIS,
L. ANDERSON,
J. P. SULLIVAN,
D. A. LAWSON,
ADOLPHUS MCEWEN,
JOHN STEELE,
L. P. DOYLE.

His Honor in reply delivered a lengthy address, which was attentively heard.

Mr. Dillon followed with a practical speech concerning the dairy industry, the growth of corn and other matters incidental to the work is which he is engaged.

TO SUIT THE LOCALITY.

(St. John Sun)

Mr. Laurier has written to the secretary of the Ontario Liberal Association, saying, "With regard to the offensive statements which are attributed to me by the Conservative press I need not tell you that they are absolutely false." We do not know what the false statements are that have been made about Mr. Laurier by the Conservative press, but it was Mr. Laurier's own organ, La Patrie, which first made him say, "Thank God, there is not an Orangemen among us, the Liberals." And Mr. Tarte's paper thus reported the same speech delivered at Chicoutimi:

"The Liberal chief reiterated, amidst indescrible enthusiasm, his solemn engagement to re-establish the Catholic schools on his arrival in power. The Conservatives were as enthusiastic as the liberals, and an outrance.

"'I know,' said Mr. Laurier, 'that I shall be appealed to to fulfil that engagement, because the present government cannot settle the question. How do you think that men who have taken an oath to suppress Catholic influence can re-establish the Catholic schools which are the source of their influence? Thank God, there are no Orangemen among us, the Liberals! The day when the people shall have confided to me the direction of affairs, I shall have but to appeal to the Christian sentiments of my followers to engage them in the rendering of justice to whom justice is due.'"

La Patrie prefaced its report with the words:

"Seeing that the conservative journals have published fantastic accounts of the discourse pronounced, we give here the exact text of the declaration of Hon. Mr. Laurier," and then went on to give the text of the declaration, as follows:

"'I know that I shall be called upon to fulfil this engagement, because the government cannot settle the question. How can you expect that men who are sworn to suppress Catholic influence will re-establish the Catholic schools which is the source of that influence? Thank God, there is no Orangemen among us, liberals! The day when the people confide to me the direction of the affairs of the country, I shall have but to appeal to the Christian sentiments of my party to render justice to those to whom justice is due.'"

Now, if Mr. Laurier did not use this language it is certain that he must have said something to the same purpose. It is also certain that his associates have been doing all they can to make the French Canadian Catholics of Quebec believe that Mr. Laurier thanked God that he had no Orangeman in his party, and that his opponents had taken an oath to suppress Catholic influence. Mr. Laurier has found it necessary to publish a denial. But he has sent the denial to Ontario, while for weeks he has left uncontradicted the original report in the French papers of his own province.

Recently, during a sermon in the St. John's, Nfld., Tabernacle a scene occurred almost beyond description. Some young lads congregated about the doors and porch, and when the caretaker opened it they rushed out, being followed by some others. A crowd of other boys standing near, raised the cry of "fire," and immediately the congregation were in a state of wild confusion. Four or five ladies fainted and a general stampede was made for the door. Some cool-headed gentlemen assured the people there was no cause for alarm, but a number left and only when the Rev. G. W. Siddall caused the choir to sing a hymn could order be restored.

HALIFAX, Oct. 8.—It has been decided to build an immigration quarters here. The edifice will be of wood and situated upon the filled portion of the I. C. R. terminus at deep water. An extension will be placed upon creosoted spiles. Specifications are to be prepared at once and contracts called for. Customs office, cable and telegraph offices, exchange offices, ticket offices, dormitories and matron's apartments will all be under one roof, and the disinfecting apparatus will be located in the ell of the main building. The building will accommodate fifteen hundred immigrants at least at one time.

Now see that your blood is pure. Good health follows the use of Hood's Sarsaparilla which is the one great blood purifier.

ARTILLERY INSPECTION.

The City Batteries of the P. E. Island Brigade, Garrison Artillery, were inspected yesterday afternoon on Victoria Park by Lieut. Colonel Montizambert, Commandant of the Royal School of Artillery, Quebec, Inspector of Artillery. He was accompanied by Lieut. Colonel Moore, D. A. G.

The Batteries turned out in full strength. The weather was all that could be desired, and a large number of citizens were on the Park and watched with must interest the various evolutions through which the men were put. Among these we observed many of the principal officers of the Engineers and Infantry.

The brigade was drawn up in line under command of Lieut.-Colonel Longworth, and received the inspecting officer with a "general salute." The clothing, arms and accoutrements were then inspected. The batteries then "marched past" in column, the marching and wheeling being particularly well done. "Perfect" was the criticism we heard from the lips of many looking on, whose military experience permitted them to speak with knowledge. The officers next put their companies separately through the manual and firing exercises and company movements, which were all peformed in a highly creditable manner. We heard the opinion expressed that no better inspection in company drill ever took place on Victoria Park, and we must confess the statement voiceed our own opinion.

The men were then marched to the Drill Shed, where each Battery furnished four smart detachments for gun drill—two each with the 40-pounder R. B. L. guns, and two each with the 64-pounder R. M. L. guns. The manner in which the "boys" acquitted themselves in handling the "big guns" reflected great credit upon the skill and care of their instructors, as well as upon themselves. Satisfactory as the company drill upon the Park had been, the gun drill in the Shed was ever more so. We understand the Inspecting Officer expressed himself as being thoroughly satisfied with the result of the inspection.

The following officers were present at the inspection: Major Morson; Surgeon Jenkins, Paymaster Hodgson, Quartermaster Cameron and Sergeant-Major Heartz. No. 1 Battery was under the command of Capt. Davison, with Lieutenants Carvell and Bartlett; No. 2 Battery being commanded by Capt. Moore, with Lieutenants Peake and Richards. The District Paymaster, Major George L. Dogherty, was also present. The Brigade Band, under the leadership of Bandmaster Worth, was also on parade, and furnished suitable music for the occasion.

Our Island Garrison Artillery have, in the past, attained a very high reputation for effeciency, having won the Governor General's prize from the whole Dominion for eight or nine years in succession, and when the official report comes to hand we hope to see them again take first rank against all competitors from Halifax to British Columbia. Lieut.-Col. Moore, D. A. G., and Lieut.-Col. Longworth are enthusiastic military men who seem to possess the happy faculty of inspiring their men with so much of their own spirit that the study of military tactics becomes a pleasure to them—hence their very great success. May they continue in giving our province a name and a place, as a military power, among the greater provinces of this vast Dominion.

This afternoon the city Batteries of Artillery are at Keppoch performing their annaul target practice with two 40-pounder Rifled Breech Loading guns.

SHOOTING MATCH YESTERDAY.

THE shooting match of No. 1 Company, 82nd Batt., came off yesterday. Notwithstanding a very heavy cross wind the scoring was good. Staff-Sergt. M. Allan won the medal, presented by B. Rogers, M. L. A., and Pt. J. A. Stewart won the medal given by Capt. Hooper to the recruits. Mr. Rogers kindly presented the prizes, and with a few appropriate remarks congratulated the company on their fine shooting. As he pinned the medal on the veteran Staff-Sergt's. breast, Mr. Rogers said he hoped the gentleman would long live to wear it, and will win many more such prizes. He also congratulated Pte. J. A. Stewart on winning the medal given to the young shots. As this was the first time he had fired a Martini rifle, his shooting was good.

Ranges—200, 400 and 500 yards; seven shots at each range.

	Pts.
Staff-Sergt. M. Allan, medal and three months' tuition in the Business College	89
Capt. D. L Hooper, first premium on $1,000 policy in the North American Assurance Co.	88
Pte. F Jones, alarm clock and $1	88
Corpl. Henry Hooper, DAILY EXAMINER for one year	85
Pte. F. B. McRae, cardigan jacket and $1	85
Pte. Donald McMillan, Daily Patriot one year	84
Sergt. Jas. Walker. 2½ yds. cloth and 75c.	75
Sergt. A. Rodd, pair vases and 75c.	72
Lieut. J. M. Jones, pipe and 50c.	63
Pte. J. A. Stewart, Medal prize, 50c.	63
Lieut. Mellish, coffee pot, coffee and 50c.	50
Pte. R. Hughes, slippers and 50c.	48
Pte. Holcey Hooper, teapot and 50c.	43
Pte. Lem. Henry, handkerchief and 50c.	40
Pte. Lewis Rodd, handkerchief and 50c.	37
Pte. Robt. Edwards, flannel shirt and 50c.	27
Pte. Roberts, collar, studs and braces and 50c.	25
Pte. W. Rodd, hat and 50c.	24
Pte. Thos. Diamond, necktie and 50c.	23
Pte. Geo. Rodd, braces and 50c.	19

Capt. Hooper, officers and men take this opportunity of thanking B. Rogers, Esq., for the handsome medal. They are also thankful to L. B. Miller, Esq., Principal of the Charlottetown Business College for the magnificent prize of three months' tuition in his college, value $28.00; also to J. K. Ross, General Manager of the North American Life Assurance Company for P. E. Island, for the splendid prize of the first premium on a twenty pay life policy for $1,000; and also THE DAILY EXAMINER, Daily Patriot and Weekly Guardian, and the following gentlemen: Carvell Bros., N. Rattenbury, J. T. Peardon, W. E. Dawson, Jas. Waddell, Fennell & Chandler, A. B. McKenzie, G. E. Hughes, John McLeod & Co. R. Small, Prowse Bros., Moore & McLeod, Haszard & Moore, J. T. McKenzie, Stewart & Gates, Beer Bros., McKay Woolen Mills, E. McDougall, G. D. Davison, Stanley Bros.

For Over Fifty Years.

AN OLD AND WELL TRIED REMEDY. Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays the pain, cures the colic, and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.—m. w. f. wkly—1 y

NEWS NOTES.

The gold production of the world for this year is estimated at $200,000,000.

A doubtful rumor has gained currency that the Queen will make a visit to Ireland next summer.

The report that the Japanese had given contracts to American firms for the construction of warships is without foundation.

Countess Clanearty, known as Bella Bolton, who was some years ago a decidly well-known concert hall singer, proposes to return to the stage. She is negotiating with the manager of a Liverpool theatre.

Only once in the last fifteen years has the official income of the British attorney-general been less than $50,000; in 1893-94 it was over $100,000, though the salary is $35,000 a year. The solicitor-general's salary is $30,000.

It is estimated that a man weighing 150 pounds, riding a bicycle at the rate of seven miles an hour, has a momentum of 1,500 pounds, leaving out of the account the weight of the wheel. This is sufficient to upset a pedestrian with terrible force.

One of the most singular peculiarities of the floral world is the evening primrose, which opens about 6 o'clock p. m. with an explosion, not very loud or formidable, but still quite perceptible to anyone who is watching the bud. It remains open all night.

The alphabets of the different nations contain the following number of letters: English, 26; French, 24; Italian, 20; Spanish, 27; German, 26; Schavonian, 27; Russian, 41; Latin, 22; Greek, 24; Hebrew, 22; Arabic, 28; Persian, 32; Turkish, 33; Sanscrit, 50; Chinese, 214.

An epliptic young woman, whose case is reported in the Lancet, seems to have broken the record for fits. She had 3,205 distinct fits in 21 days, an average of 152 a day, and in one day had 380 of them. She was cured with a chloral hydrate and bromide of potassium.

William B. Hornblower, the New York lawyer, in a notable address before the Georgia State Bar Association, says that the tendency of the present decade is in the direction of a centralizing plutocracy, but he declines to think that the development of scientific discovery may put an end to corporate monopolies.

Over the shop of a barber in the Isle of Man, who supplies his customers with all kinds of fishing tackle, may be read:—"Piscatorial Repository, Tonsorial Artist, Physiognomical Hairdresser, Cranium Manipulator, Capillary Abridger, Shaving and Hair-cutting with Ambidexterous Facility, Shampooing on Philogical Principles."

A novel feat was performed at the Diamond Ice Company's works in Newport, R. I. A plate of ice was stood on edge just as it was taken out of the tank, and behind this half a dozen persons took their positions, while on the other side a photographer posed his camera. The features could be seen distinctly through the ice.

The families of Japanese who fell in the late campaign against China are most anxious to possess some remains of their dead relatives, however multilated. In one village the friends of a deceased soldier solemnly brought back a paper man fastened to a real leg—the only portion which could be found after the owner was killed by a shell.

Mrs. Coffey, aged 104, a native of Kerry Ireland, landed at New York a few days ago. She came over with her youngest daughter, who is fifty-six years old, and proceeded to Plainfield, Conn. She speaks only the old Gælic tongue. She remembers the famous battle of Ballinamuck, in 1798, when the French troops, under Gen. Hoche, landed on Irish soil.

The House of Commons is protected from fog by the following method, which is both ingenious and expensive. The air pumped in from the river terrace is forced by steam fans through thick layers of cotton wool, which retains all impurities leaving the air in a state of great purity. The layers of cotton wool are six inches in thickness and occupy an area of 800 square feet.

About a million complete bibles, and an equal number of prayer books, are issued by the Clarendon Press every year. There are 78 different editions of the Bible and 90 editions of the prayer book printed. The revised version does not sell one-tenth as well as the older version of 1611, while the revised New Testament, though it sold rapidly when first published, scarcely sells at all now.

While New Yorkers were sweltering in torrid heat on Friday, Sept. 20, a man was frozen to death in a heavy snowstorm that was then raging in another part of the republic. This was in the mountains thirty miles east of Livingstone, Mon. The man was a prospector, and was with a party trying to cross the divide. A blinding snowstorm swept down on the mountains, the man became separated from the party, and a few days later his body was found under three feet of snow within 500 yards of camp.

FATHER MURPHY'S GOLD CURE.—An efficacious and permanent cure for drunkenness, morphinism, and the tobacco habit Testimonials and all information touching the treatment furnished on application to the undersigned. Correspondence strictly confidential. J. E. Quinn, Manager, College St., Halifax, N. S.

sep24, 1mon.

A young man named F. X Emard accidentally shot himself in the leg at Beauharnois, Que, a few days ago during a dispute with a companion about a dog. In answer to some remark, Emard drew a revolver from his pocket, saying "Take it back, or I'll shoot." As he was returning it, the trigger caught, and the revolver was discharged, sending the bullet down the fleshy part of the leg to close by the ankle, where it was finally located and removed. Emard will probably lose his leg.

LOTS OF HEAT, BUT NO FIRE.

The best system of keeping warm is to keep up the natural heat of the body, the warmth resulting from sitting over a fire is not nearly as grateful. Now Fibre Chamois is a perfect warmth sustainer because it keeps out the cold and wind, and keeps in the natural heat. A whole ton of it wouldn't make you warm if you sat near and looked at it, but one layer through a coat, vest or jacket makes an absolute protection from bitter winds and raw air, and thus sustains the natural temperature of the system. It does not literally give heat, but it produces perfect warmth and comfort, because it keeps out all cold.

LETTERS TO THE EDITOR.

THE TWO DAILY SESSIONS.

SIR,—As one who has taken some interest in our public schools, I cannot but feel that the proposal of our School Board to hold two sessions a day is a mistake.

In winter, to compel small children to travel four times a day between their homes and the school is surely unreasonable, unless it can be shown that some great advantage can be secured. Anyone who recalls the snowstorms of last winter will, I feel, surely agree with this.

In the case of the older children, who may be of use in their own homes, surely the full half day is better than the proposed arrangement. If any are taking lessons in music, drawing, &c., where is the time to be found either for the lessons or the necessary practice?

In summer the cool hours of the morning are better for study than the hot afternoons. Is it not better for our children's health that they have the opportunity of spending the summer afternoons in the Park, among the green fields, or sailing on our beautiful rivers, rather than that they be cooped up in our not too well ventilated school rooms practically the whole day?

The result of the afternoon session will be that a number of children will not return after morning school. Our schools are doing good work now, and it is difficult to see any necessity for the proposed change. The hours for study are long enough, and the two recesses prevent the strain on the pupils being too great and at the same time give an opportunity for the enjoyment of luncheon.

I am quite sure that both teachers and pupils are opposed to the change, and it would be a very simple matter to ascertain if the majority of parents favor it by asking each pupil to bring a vote of "yes" or "no" from their parents to the teacher of their room. Of course, if a majority of parents favored such a change, it would be a strong argument for its adoption.

SPECIAL DESPATCHES TO THE EXAMINER

The N. B. Provincial Election.

ST. JOHN, Oct. 9.

Nomination day through the province passed off quietly. In some constituencies candidates who were expected to run withdrew at the last moment, and elections by acclamation took place in five constituencies, returning 16 of the 46 members. Many were surprised at the turn affairs in St. John took. Rourke, one of the ticket in the county, failed to come to time with his nomination and deposit. This broke up the Opposition arrangements, and one of the Government ticket in the city was also determined not to run. The result was that an understanding was arrived at to withdraw the remnant of the Government ticket in the city and Opposition in the county. This proceeding, to which the Opposition leader was strongly opposed, seemed, however, to be forced on his followers by failure to have another candidate available.

Methodist Missionaries in Japan.

MONTREAL Oct. 10.

The Methodist Mission Board, after an exhaustive hearing, have decided to recall its missionaries in Japan, Messrs. Cumming, Dunlop, Coates, McKenzie, McArthur and Elliott. The decision comes into operation in June next, but the door has been left open so that if the missionaries can see their way clear to support the policy of the Board and act in harmony with its officers, the desire has been manifested that it be cordially received. Rev. Dr. Eby, who, on account of illness has been unable to appear before the Committee, is to be employed by the executive. The case of Rev. C. A. Cady is still under discussion.

Assignment of John Stairs & Co.

HALIFAX, Oct. 10.

The assignment of Messrs John Stairs & Co. is announced in favor of Austin Bros. The firm has been forced to assign through the effect of the recent order of the court directing all management and funds of the estate of the late John Stairs should be transferred to the Eastern Trust Co. The order in question involved something like $70,000. Preferences in assignment aggregate $50,000.

Drowned at Lunenburg, N. S.

LUNENBURG, N. S. Oct. 10.

The whole town was startled and shocked early this morning when it was learned that Margaret Chesley and Robert Chesley, son and daughter of S. A. Chesley, Recorder, were drowned last evening. They were returning home in a boat from Ritcey's Cove, and were upset.

Militiamen and Their Pay.

OTTAWA, Oct. 9.

The deputation of militiamen yesterday was one of the most representative that ever waited upon the Government. The object was to urge that city battalions this year be paid full twelve days' drill allowance. Messrs. Dickey and Foster gave assurance that the representations of the delegates would be carefully considered.

The Laurie-Bertram Case Settled.

SYDNEY, C. B., Oct. 10.

At the opening of the court here this morning, the plaintiff in the somewhat celebrated case of Laurie vs. Bertram asked leave to discontinue action and pay costs, which leave was granted, and the defendant's costs fixed by consent at $225.

Nice enough for the prettiest girl - pretty enough for the nicest girl—Our Short Jackets!

ARRIVED—New English Rainproof Garments, direct from the makers:

Brains Tell Us!

In an advertising quarrel the merchant with nothing to lose always gains something. And the merchant with nothing to gain always loses something. The policy, therefore, of the little chap is to excite a controversy, while the policy of the greater house is to avoid one. You know what happens when a big man kicks at a small rascally boy. If he hits him he angers the crowd; if he misses him he amuses the crowd. In either event he has lost somewhat of his dignity.

JAMES PATON & CO

The Shoe that's envied!

A good shoe is a good friend—to the man who wears it—to the dealer who sells it. But a good shoe is a bad enemy to the dealer who can't get the right to sell it, and dares not tell his customers so. We are local agents for THE SLATER SHOE, which is the best shoe for men we know of.

We are the only firm in this city which can buy these shoes WHOLESALE, and with the knowledge and consent of the makers. Other shoemen want them so badly that they get their friends to purchase from us "on the quiet" a few individual pairs, at full retail price, in order to put them in their windows for show. But these firms can't buy the Genuine Slater Shoes TO SELL again—they buy them to KEEP them and talk against them. We buy ours wholesale from the manufacturers, so we can afford to sell them retail. We keep every size, width and shape in stock, so that we can fit any man, no matter what kind of feet he is addicted to.

Ours are The Genuine "Slater Shoes," stamped on the sole $3.00, $4.00, $5.00 per pair.

Now don't you think it must be a pretty good shoe that's envied like this? Perhaps you should see these shoes that shoemen want so badly. We are the only people who have the right to show them to you.
