The Halifax Herald learns that very good orders are coming to the cotton factory for the spring trade, but at low prices. The want of a good understanding among the mills on grey goods is, it believes, more noticeable than it was last year, when the matter was discussed so fully.

A MELANCHOLY accident occurred at Bellefleur on Sunday. While two boys named Wright and Block were skating on a pond, the former broke through the ice and sank. The latter gave the alarm, but before assistance arrived the poor boy perished. He was 14 years of age and son of Mr. Archibald Wright, of Tryon Road.

SEVERAL firms in the city are adopting the Electric Light. The first we notice is the enterprising firm of Beer & Goff, Queen Street. We learn that Messrs W. A. Weeks & Co., W. R. Watson, Druggist, and Theo. L. Chappelle, Esq., intend placing lights in their stores.

THE Gospel Army had their usual prayer meeting yesterday morning, at 7 o'clock and another at 3 p. m. The meeting, at the close of the churches at 8, which promised to be largely attended, was, at the request of His Worship the Mayor, dispensed with. It is thought by next Sunday all the usual Sunday services may be safely held. The Assembly has been recently cleaned and fumigated.—Com.

Is a paper read by the chief of the Bureau of Animal Industry to the Chicago Convention the other day, it was stated that the cattle in the United States number 45,000,000, valued at \$1,200,000,000. The total export of cattle and cattle products was also stated to be \$50,867,000. The difference between the meat demand in Europe and the supply on that continent is 797,000 tons, which America is called on to supply.

The Gospel Army opened up in Chatham, N. B., on Thursday night, under favorable auspices. They have secured the large Masonic Hall for their barracks. They were reinforced by Miss Howell, who arrived from Lindsay on Wednesday. Capt. Collins, writing to a member of the Army in this city says: "We had a good time at the opening meeting. Good attendance, good attention and good interest. We are believing for good." Some of the Army hope to be able to resume work on the Island before the close of Navigation.—Com.

LADY MACDONALD visited the cotton factory while in Halifax, and was shown through by the President, John Doul. She was much interested and pleased with the operations. This was the first cotton factory that Lady Macdonald had ever seen, and she was much pleased with the activity and intelligent appearance of the numerous young employes, and expressed the conviction that the presence of this industry must be of great advantage to the families of the operatives and to the neighborhood.

THE experience of the manufacturers of the 'Myrtle Navy' tobacco is a valuable lesson to political economy. Previous to their commencing that brand, the tobacco made of the finest Virginia leaf was always held at fancy prices, and put up in some fancy style of manufacture. It was thought that only the rich would buy such tobacco, and at the old prices none but the rich could buy it. The makers of the 'Myrtle Navy' resolved to strip the manufacturer of his tobacco of all its fancy outside and put their profit at so low a rate that no competitor could possibly undersell them with the same quality of article. From the very first until now their rate of profit has been a uniform percentage upon the cost. It is their enormous sales which make their low rate of profit a satisfactory one in the aggregate, and also gives them firm hold upon the market. Their success is an excellent lesson for manufacturers to study over.

GRAVENHURST.—On Wednesday, the 11th inst., the friends of Rev. A. Osborne paid a surprise visit to the Parsonage, when the following address was presented to Mrs. Osborne:—

DEAR MRS. OSBORNE.—We are requested by the members of the Ladies' Aid of St. James' Church, Gravenhurst, to beg your acceptance of the accompanying purse as a thank offering and a slight token of the very high esteem in which you and Mr. Osborne are held by your people. Trusting its acceptance will afford you as much pleasure as it has given us in the presentation. We remain, Yours in behalf of Ladies' Aid, T. P. YORK, President. M. A. MASTER, Treasurer. F. T. SEILS, Secretary.

Mr. Osborne made a suitable reply on behalf of his wife, and Mrs. Osborne said a few words of heartfelt thanks. The purse contained a check giving offering of \$200.

The British Elections.

LONDON, Nov. 29.

The Pall Mall Gazette's analysis of the returns to last night shows a Conservative gain of 80 seats against a Liberal gain of 36, but their gain is still insufficient to give the Conservatives a clear majority. The Liberals now claim to hold 161 seats, against 159 for Conservatives, 26 for Nationalists, and 5 for Independents.

Horsford's Acid Phosphate.

Dr. J. C. Wilson, Philadelphia, Pa., says: 'I have used it as a general tonic, and in particular in the debility and dyspepsia of overworked men, with satisfactory results.'

With most people, says a sensible writer, the want of a well defined system or method is one of the chief causes of their getting behindhand with their work. A systematic method of working, combined with industry, will complete a vast amount of work in a day and finish it with ease; but without system and application, the worker may be in a continual rush, and yet accomplish little.

The Spirit of the Press.

RIEL'S CASE IN A NUTSHELL.

[Montreal Gazette.]

Shorn of the sophistries, the misrepresentations, the forgeries, the play of passion and prejudice by which the case of this man has been surrounded, how stands it? A citizen of a foreign country, without a particle of stake in Canada, enters the Northwest, incites a portion of the people to rebellion, induces Indian tribes to massacre, pillage and plunder, makes prisoners of priests and helpless men and women, causes the loss of a hundred lives, the destruction of many, many homes built up by years of patient toil, and lays waste a settlement of thrift and promise. The murder of priests, outrages upon women, the slaughter of settlers and soldiers, the devastation of a wide section of country, at the instigation and under the guidance of a man who had not a scintilla of interest at stake and not one plea to offer in extenuation of his crimes would surely merit the extreme punishment of the law, but the offence becomes all the more heinous when having aroused his dupes, the author of all this misery seeks to extort money from the government as the price of peace. There can be no genuine sympathy with such a wretch, and there will be none. The law must be upheld. Inciters of sedition and rebellion must be taught that the people will not be tolerant of their crime. There is no consideration of race or creed in such a case as Riel's. When he massacred priests and laymen, made prisoners of all who would not be in subjection to him, he knew not nationality or religion.

THE GRIT—REBEL MOB IN OTTAWA.

(Ottawa Citizen.)

Yesterday afternoon a desperate effort was made by the leaders of the Grit-rouge party in Ottawa to work up a demonstration in the evening against the Government in consequence of the execution of the rebel leader, Louis Riel. As the local grits and rouges are the defenders of acts of plunder, robbery and murder committed by men whom Riel induced to take up arms against the Government, it was only natural that they should endeavor to "demonstrate" on the evening of his execution. The programme of the grit-rouge leaders included the burning of Sir John Macdonald and Messrs Mackintosh and Tasso in effigy, the wrecking of the Citizen Office, and other equally commendable acts. The meeting called on Ward Market Square was one of the most magnificent fizzes ever witnessed in Canada. A crowd of about two hundred persons assembled, but no person venturing the task of addressing the meeting, the valor of the audience was wasted in cheering while a piece of canvas, on which were what purported to be the portraits of the Premier and the city members was burned. Altogether it was a humiliating spectacle. In accordance with the instructions issued by the leaders the crowd proceeded in the direction of the Citizen with the object in view of wrecking it, but discretion proved to be the better part of valor and the cowardly gang moved away without accomplishing their object. The crowd afterwards dispersed, and forming into smaller parties proceeded along the streets insulting Conservatives and singing songs not complimentary to the Premier. To such depths has "Liberalism," so-called, been reduced in Ottawa.
