

# MORAN'S GROCERY OPENS CORNER ROCHFORD and KENT

## Former Alberton Man Takes Over Business

Completely redecorated and modernized in every respect the Rochford Square Grocery will open today under new management. The business has been purchased by Mr. John J. Moran who successfully operated a similar one in Alberton for the past 13 years.

The store has been done over from floor to ceiling with many new shelves installed and a thorough change in the west section which has been known to school children for several generations. The main store is designed for adult customers while children will have their own part newly finished. A pleasant green linoleum flooring adds much to the gleaming black and white of serving counters and shelves. The whole interior has been rearranged to provide purchasing convenience. The store will stock a full line of groceries, meats, vegetables, canned goods and the usual things the youngsters like to buy in their section. As a convenience for the ladies there will be a line of cosmetics.
