# Broadcast Governors Reveal Decision On Applications

OTTAWA (CP) — The Board of Broadcast governors has ruled against a proposal for a new radio station in Corner Brook, Nfld., but announced approval for television rebroadcasting stations for areas of Newfoundland and Quebec.

Decision also was reserved in an application for Amplitude Modulation and Frequency Modulation radio stations to serve the lower Ottawa River Valley from Chatboro, Que.

The recommendations, which followed public hearings of the board here Jan. 19 and 20, go to the transport minister for final action.

Recommending against the bid by Colonial Broadcasting System Limited for a new AM station at Corner Brook, the BBG noted that in the last five years one new radio station and two new TV stations have entered the area and four applications for improved facilities have been approved. The market needs further time to accommodate itself to the changes, the announcement said, and no new station will be considered until 1966.

**STATION CFCB OBJECTS**

Colonial operates stations in three other Newfoundland centres and had asked for a west coast outlet to complete its coverage. Chief opposition came from Station CFCB, which started operations in Corner Brook in 1960.

The board said it wanted more time to consider the application for a combined French-English radio operation from Chatboro before making a recommendation to the minister. Donald Attifield of Ottawa headed a group seeking to serve the area with a daytime-only AM French station and an FM station that would carry the French AM programs during the day but English-language programming at night.

Chatboro is near the Ottawa River between Lachute, Que., and Hawkesbury, Ont., and Mr. Attfield described it as an area with a high percentage of bilingual residents.

A TV rebroadcast station was approved for Grand Bank, Nfld., to pick up the signal from CJOX—TV in Argentia.

There was approval with conditions for TV satellites in Murdochville, mining centre in Quebec's Gaspe Peninsula, and Malartic in northwestern Quebec.

The Malartic proposal was for a satellite for the mother station CFCL-TV in Timmins, Ont., to bring English programs in for some 6,000 residents of that language. The BBG suggested the small proportion of French programs carried on CFCL-TV remain at the 1964 level if a licence is issued.

For Murdochville the condition suggested was that "operation of the station consist exclusively in the simultaneous reception and rebroadcasting of programs broadcast from station CKAM - TV, Upsalquitch Lake, N.B.," with no control over programming. This was because the company bidding to bring English - Language TV to the mining centre would have Gaspe Copper Mines Limited as a majority stockholder.

The board recommended the following facility chages, subject to government approval:

CBZ Fredericton, change of frequency to 970 kilocycles from 1480.

CKLS La Sarre, Que., change of main studio location.

CHSJ and CHSJ - TV Saint John, N.B., change of main studio location.

# Immigration Department Has Change

OTTAWA (CP)—Changes are being made in the immigration department that will improve its machinery for weeding out criminals and other undesirables entering Canada, Immigration Minister Tremblay said here.

He said steps are being taken "to bolster our internal control system and to add strength and improved facilities to the investigational units of the immigration branch.

Addressing law students at a University of Ottawa luncheon, Mr. Tremblay said:

"I think that such changes will provide an even better capacity for control and, when necessary, the deportation of criminal and other unwanted entrants who come in the general stream of visitors or immigrants."

He explained undesirable persons can enter Canada with relative ease and remain undetected because of two factors.

"This is one of the easiest countries in the world for persons to enter as visitors. It is also one of the few countries in the world that does not have some system of internal alien control.

"While I am not advocating more stringent measures, these factors evidently make our country more vulnerable to the infiltration of undesirable and criminal elements and compound the difficulty of locating, apprehending and deporting illegal entrants."

Despite this, the department had a good record in detecting undesirable entrants. "Indeed, when we consider the visitor traffic to this country averages 600,000 a week, our record might be described as better than good."

**WEATHER'S TOLL**

An average of one out of every 10 planes is grounded at London airport because of adverse weather conditions.

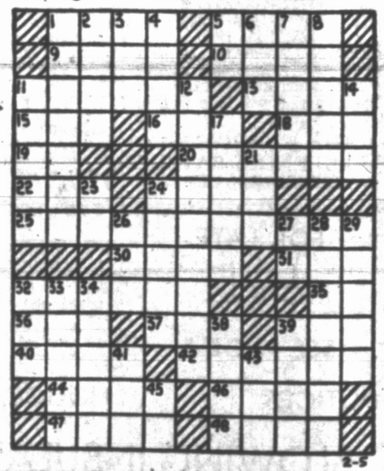
Yesterday's Answer



2-5

**DAILY CRYPTOQUOTE — Here's how to work it:**

A X Y D L B A A X B
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

**A Cryptogram Quotation**

HNN UWMWZF SE FUAHS INHXA WM PR H VWZOWZF MSHWU.—YUHZXWM PHXES

# CONTRACT BRIDGE

By B. JAY BECKER

**TEST YOUR PLAY**

1. You are declarer with the West hand at Three Notrump. North leads the six of hearts on which you play the king, South playing the three. How would you now play the hand?

| | | |
|---|---|---|
| | ♠ A Q 8<br>♥ Q 7 4<br>♦ J 2<br>♣ A 9 8 7 3 | |
| ♠ K 9 2<br>♥ K 5<br>♦ A K 7 5 4 2<br>♣ 6 2 | N<br>W E<br>S | |
| | | |

2. You are declarer with the West hand at Six Hearts. North leads the queen of diamonds. How would you play the hand?

| | | |
|---|---|---|
| | ♠ 7 3<br>♥ K Q J 5<br>♦ A K 8 2<br>♣ Q 5 2 | |
| ♠ A K Q 6 5<br>♥ A 10 3<br>♦ 6 4<br>♣ A 8 3 | N<br>W E<br>S | |
| | | |

1. The situation you should fear most is that North has five hearts to the A-J or A-10 and that South will obtain the lead to play through your unguarded queen and thus defeat the contract. All plays should therefore be shaped to keep South out of the lead, if possible.

Play a spade to the queen and lead a low diamond towards dummy. If North produces the queen, let him win it. If he follows low, play the king from dummy. Now return to your hand with the ace of spades and play the jack of diamonds. If North plays the queen, let him win it. Assuming the diamonds are divided 3-2, this play will make the contract. If North follows low to the second diamond lead, win it with the ace and play another diamond, hoping that North started with three diamonds.

This method of play makes the hand whenever North's diamond holding consists of the singleton queen, the doubleton queen, or any three diamonds. In each of these cases the diamonds become established without permitting South to obtain the lead for the fatal heart return.

2. Whether you make six hearts depends partly on how the adverse cards are divided and partly on how you choose to play the hand. All kinds of complications arise if you elect to cash the A-K of diamonds and then ruff a diamond in dummy. This may appear to be the best way to start to play the hand, but actually it is not.

The method of play likely to do best in the long run is really quite simple. Win the diamond lead and play a spade, ducking in dummy!

Win any return, ruff a diamond with the ten of hearts, and draw trumps. This sequence of plays makes the contract if the spades and the trumps are divided normally, that is, either 3-3 or 4-2. The twelve tricks, in such case, consist of four spades, four hearts, two diamonds, a ruff, and a club.
