

THE DAILY EXAMINER.

MAY 30, 1889.

Notes and Comments.

It is said that large consignments of rice are being shipped from China to Chicago per the Canadian Pacific and the lake steamers.

The statement is made on the authority of no less a personage than Admiral Kimberley that the Samoan natives are disbanding and that peace prevails.

This is an age of commissions. The Irish Times says that a government commission, which, by the way, is to have no connection with politics, will be appointed to enquire into the existing system of local and Imperial government, with a view to drafting an Irish local Government bill.

A Toronto despatch to the St. John Sun says it is rumored that at a recent private meeting the Liberal managers decided to prepare for the Ontario elections early in the coming autumn and that the demonstrations now preparing, ostensibly as ordinary political meetings, are really intended as the opening of the campaign.

They have a very nice way of making appointments in the neighboring republic. William H. Campbell, an old-fashioned Democrat, who has been Postmaster in a Vermont town for four years, has just stepped out, and his wife, a "staunch Republican," has been given the commission, while William becomes Assistant Postmaster!

Washington advises state that proposals for the construction of three cruisers for the United States navy have been issued from the Navy Department under authority of the Act of Congress of September 7th, 1888. These vessels are to be of 2,000 tons displacement, and are to exhibit a maximum speed of 18 knots an hour for four consecutive hours. They are to be finished within two years. The cost of the vessels is estimated at \$700,000.

It is stated, on what seems to be reliable authority, that many of the shareholders in the Joggins and Phoenix coal mines are opposed to their sale to Mr. R. G. Leckie, and some of them are about making a formal protest to the Nova Scotia Government against the transfer of the largely subsidized Joggins railway, built expressly for the best interests of the Joggins and Phoenix stockholders. Mr. Leckie's offer to purchase the Prospect coal mines for \$40,000 is, however, likely to be accepted.

The leading English papers are commenting upon the annual meeting of the Imperial Federation League. The Times, in the course of a recent article, expresses the opinion that "if the colonies are agreed to levy no duties on natural products and manufactures of the mother country or other colonies, they could approach the Imperial Parliament with an offer of closer political connection and a common system of defence and free trade, the subject of a moderate differential tariff against all countries outside the Imperial customs union, but while the colonies persist in their present trade policy the league is not likely to carry its work beyond co-operation for Imperial defence."

In the course of an article on the Queen's Birthday, the Boston Advertiser says: "But in Canada, from the highest to the lowest, the 24th of May is a day of general holiday and celebration. The same general spirit marks the occasion as with us on our 'Glorious Fourth.' Railroad excursions, games and athletic sports, picnics and speech-making are all combined to celebrate the occasion in a fitting manner, and the love of the motherland finds a hearty expression in every way. To those gentlemen who have been agitating 'annexation' ceaselessly, in season and out, we believe an excursion into any of the provinces yesterday would have been a liberal education."

The Prince Albert Times, alluding to a rumor that the Hon. Mr. Dewdney is about to visit that town, gives credit to the Minister of the Interior for the services he has already rendered to the North-west, and says that he seems determined to administer the affairs of his department in the way which will be most to our advantage. It adds: "If he visits this place, as we trust he will, we consider it the duty of our citizens to give him the fitting public reception that his position and merits deserve at their hands." But, of course, the Opposition press knows much more about the manner in which Mr. Dewdney manages the Department than those directly interested, and will continue to assert that he is not doing what he should.

According to a return recently laid on the table of the British House of Commons 303 more vessels passed through the Suez Canal in 1888 than in 1887, the increase in net tonnage being 737,810 tons, and in the dues paid 6,969,303 francs. The percentage of the tonnage of Great Britain was 78.65 of the total, as compared with 78.31 in 1887, France having diminished from 4.28 per cent. to 4.03. Germany is now fourth on the list, having taken the place of Holland, which occupied that position in 1887. The tonnage for 1888 is the highest ever registered, and in spite of the diminution of the rates of dues levied the traffic receipts are less by only one million francs than the high figure reached in the prosperous year of 1883. The mean net tonnage of the entire navigation for 1888 was 1,930, as against 1,851 in the previous year. The return shows a considerable development of the night traffic through the canal. The average duration of passage through the canal for the total navigation was 30 1/2 hours, as compared with 34 hours in 1887, and 48 1/2 hours in 1883.

Ladies' black and colored kid gloves just received at James Paton & Co's.

Woven Wire Mattresses, the cheapest and best. John Newson, m14 lm

Salt will curdle new milk; in preparing porridge, gravies, etc., salt should not be added until the dish is prepared.

James Paton & Co's. is the best place in the city to buy a carpet. They have the largest stock and sell at the lowest prices.

COMPLETE.—Our seasons stock of suitings, coatings and trousers, neck-wear and underwear is complete. We would call special attention to our \$12 all-wool custom made suits. Our prices in hats can't be duplicated in the city.—D. A. Bruce.

Parasols and umbrellas in great variety at Stanley Bros., Brown's Block. m28 2i

Thirty Million Dollars.

A VAST ESTATE IN SCOTLAND CLAIMED BY THE CHRISTIES, SHIPLEYS, MILLS, RIPLEYS AND ATKINSONS.

A Moncton despatch says that Harvey Atkinson, barrister of that town, has been employed by parties in Nova Scotia to enquire into a claim to an estate six million pounds sterling in Scotland. About 1840 Miss Innes died near Edinburgh, leaving two millions of personal property and four millions of heritable estate, having made disposition in trust to her nearest of kin whomsoever. Several heirs have come forward and been admitted, but it is claimed that the principal heir was one Robert Innes, who landed at Pictou in the ship Hector, the first immigrant ship from Scotland that ever touched at that port. The heirs of Robert Innes include the Christies, Shipleys, Mills, Ripleys and Atkinson families, now located in Amherst, River Hebert, Boston and other parts. There are about seventy interested parties. Mr. Atkinson has secured a copy of the deceased lady's trust deed and other valuable documentary evidence. He has visited Truro and Halifax searching registers, and it is proposed to send a delegate to Scotland to investigate further. Miss Innes was of a miserly disposition, and an account of her death, which appeared in the St. John Observer of 1840, states that she fell down a cellar stairs and broke her neck.

Personal.

Hon. John Lefursey, Summerside, is at the Hotel Davies. Mr. W. B. Murdock, representing Wm. Darling & Co., Montreal, is among the guests at the Davies.

Mr. J. Arlington Cooke, the temperance lecturer, has been engaged to give two lectures in Summerside on the evenings of the 10th and 11th June.

Perrin, who fired a blank cartridge at President Carnot on the eve of the opening of the Paris exhibition, has been sentenced to four months' imprisonment.

The University of Toronto has conferred the degree of Doctor of Law on Sir John A. Macdonald, Edward Blake, Oliver Mowat, Chancellor Boyd and Mr. Meredith.

Says the Zaleski's, O., Graphic, in parting with a member of its staff: "Jesse Allen, formerly local editor of this paper, has accepted a position as off-bearer in a saw-mill at New Plymouth. Jesse is well fitted for the position, and we wish him unbounded success."

Mr. and Mrs. H. A. Compton, of Summerside, celebrated their crystal wedding last Monday evening. Over one hundred guests sat down to a sumptuous repast, and a general good time was enjoyed during the evening. Mr. & Mrs. Compton were the recipients of numerous and appropriate presents.

Mr. Jas. Jay Campbell, a popular young newspaper man and playwright, of Boston, was recently tendered a complimentary entertainment by his many friends in that city. Among the performers was "Senator" Giles Cox, formerly of Charlottetown. Mr. Campbell may add, is a native of Tracadie.

The Springfield, Mass., Daily News of the 21st inst., says that Mr. J. Leslie Townsend, for nearly two years past a clerk at J. S. Marsh & Son's, started that afternoon for his home in Prince Edward Island, in the hope of recovering his health, which has failed. Mr. Townsend belongs to Traveller's Rest.

Hon. Mr. Dewdney has received a communication from President Van Home, stating that the C. P. R. will give cheap excursion rates this summer to points west of Moosomin, as urged. Broadview, Qu'Appelle, Regina and Moose Jaw, will therefore likely benefit by this extension of excursion rates, made at the suggestion of the Minister of the Interior.

If the Sufferers From Consumption,

Scrofula and General Debility will try Scott's Emulsion of Cod Liver Oil with Hypophosphites, they will find immediate relief and a permanent benefit. Dr. H. V. Mott, Brentwood, Cal., writes: "I have used Scott's Emulsion with great advantage in cases of Pthisis, Scrofula and Wasting Disorders. It is very palatable." Sold by druggists, at 50c. and \$1.
