NO 115

EXCITING WORK OFF HAVANA.

Expecting Spanish Ships.

AMERICAN VESSELS GATHERING IN STRENGTH

To be Ready to Cope With the Spaniards.

[SPECIAL TO THE EXAMINER.]

OFF HAVANA, May 17, (via Key West, May 18).—Again, tonight, precisely at sunset, Morrow Castle beacon light began flashing brightly every thirty seconds.

"They either are expecting visitors or wish us to think they are," remarked a blockading officer, and the line of blockading vessels spread out more widely as if to encourage the elusive Cape Verde squadron to come within the blockade where it could be got at.

It would not be surprising if the cruiser Albatross XII, laid up there for an number of new tubes should soon venture forth.

It is suspected that a ship which the Washington authorities permitted to enter carried repairing material.

Very soon, however, there will be an extraordinary force of Americans in Cuban and Caribbean waters, fit to cope with anything yet heard of.

AMERICAN SQUADRONS UNITED

[SPECIAL TO THE EXAMINER]

WASHINGTON, May 19.—The report current is Scilly's squadron has formed a junction with Sampson's squadron off Key West and the combined fleet will shortly move against Havana.

The cruisers, Minneapolis and Yale arrived here yesterday and received orders by cable.

By only Shore's clothing.—Paton & Co. are Local Agents.

FISHERMEN.

require a good outfit—this is all right, but the fly is the most important part.

A. W. E. specially tied for us are just what you require.

No. 7 Hook Fat body's plenty of tinsel—let us show them to you. Everything in fishing gear at low prices.

Casts that are casts.

AMERICANS FEEL MORE CONFIDENT

Getting Ready to Land

HAVE GOT BOTH OF THEIR FLEETS COMBINED.

And Do Not Feel at All Uneasy Now.

[SPECIAL TO THE EXAMINER.]

WASHINGTON, May 18.—Secretary Alger says he hopes to see an advance made into Cuba next week, and as soon as the for war movement begins there will be no halting until a force is landed sufficient to invest Havana.

This movement, it is said, was decided upon when it was learned that the American fleets, both Sampson's and Schley's, are between the Spaniards and Key West.

Lieut. Rowan reports that no aid can be expected from the Cubans and describes the Cuban army as a number of bands of guerillas. The United States' army alone will have to conquer the Spaniards.

A Specimen War Rumor.

[SPECIAL TO THE EXAMINER.]

LONDON, May 19.—It is said that Cerveras fleet when at Curacao was ordered to go direct to the coast of Newfoundland where colliers would await it; but it is suspected that this information is given out by the Spanish government with a view of confusing the strategic board at Washington.

TROUBLE AHEAD.

Not So Easy to Take Havana.

WASHINGTON, D. C., May 18.—Havana's capture will be no summer holiday excursion. The authorities here know that during the past year military supplies of all kinds have been sent to Cuba in large quantities. A great number of Krupp and Armstrong guns have been purchased by the Madrid Government and sent to Cuba with large quantities of projectiles and smokeless powder. Most of the new guns sent to Cuba have been mounted at Havana and immediate neighborhood of that city. New batteries have been erected commanding the approaches from the sea. While only indefinite information can be obtained as to what has transpired in the island since the declaration of war, it is believed that considerable work has been done in strengthening the defences of the land approaches to Havana. Reports that General Blanco is short of ammunition are not credited here, especially by the Navy Department to which he has shown a disposition to use powder and shot against American vessels of all descriptions, which seems to indicate that his supply is not running short. That Havana can be taken by a combined land and sea attack no one here doubts, but there is no disposition to underrate the task that the army and navy will have on their hands.

Comedy and pathos in the play at the Opera House.

BIG EXPEDITION FOR PHILIPPINES.

Spanish Ships and Troops.

NOW BEING GOT READY AT CADIZ.

To Sail with out Delay to Manila.

[SPECIAL TO THE EXAMINER.]

WASHINGTON, May 19.—It is semi-officially reported that Spain's fleet is off San Juan.

The Gibraltar, the first-class battleship Pelayo, the armoured cruiser Emperado, Carlos 5th, Alfonso XIII, Victoria and Giralda, auxiliary cruisers; the Rapido, Buena Areas and Antonio Lopez, and three torpedo boats now at Cadiz are ready for sea, and are expected to sail to the Philippines before the end of this month with 11,000 troops.

YANKEES WANT MORE SOLDIERS.

Many More Men Required

TO GO TO CUBA AND THE PHILIPPINES.

Allowance Must be Made for Disease.

[SPECIAL TO THE EXAMINER.]

WASHINGTON, May 18.—A War Department authority told the President last evening that 100,000 men would not be enough for Cuba, and that 150,000 might have to be sent there, while from 40,000 to 50,000 would have to go to the Philippines where climatic diseases would be more disastrous than in Cuba.

Death of Gladstone.

[SPECIAL TO THE EXAMINER.]

HAWARREN, May 19.—Gladstone died here at midnight.

William Ewart Gladstone, statesman, orator and author, was born at Liverpool Dec. 29th, 1809, and was therefore in his 89th year at the time of his death. He was the fourth son of Sir John Gladstone, a Liverpool merchant and M. P.

Fire on the St. Paul.

[SPECIAL TO THE EXAMINER.]

MIAMI, Fla., May 18.—Fire broke out on Monday in the coal bunkers of the U. S. cruiser St. Paul. It took half a day to get the flames under control. There were 1300 tons of ammunition on board, and Captain Sigbee and crew had a hard time.

Leiter's Speculations.

Leiter, the wheat speculator, objects to being held responsible for the bread riots in Europe, on the ground that he has been instrumental in sending much grain there. The excuse is a very weak one. It is not easy to apportion between Leiter and the crop shortness the shares each should have for the dear bread that is now the rule, and the distress it is causing. As Leiter only shipped grain to Europe, however, for the purpose of keeping up the price in the supplying market, and so increasing his huge profits, his efforts to pose as a philanthropist are rather more daring than his scheme for cornering the wheat supply.

THE PARLIAMENT OF CANADA.

The Case of Senor Polo

AROUSES LIVELY DISCUSSION IN THE HOUSE.

The Alien Labor Law Gets a Scoring.

[SPECIAL TO THE EXAMINER.]

OTTAWA, May 18.—In the House of Commons, Charlton stated that according to a report Senor Polo, the latest Spanish ambassador in Washington, was plotting in this country against the United States, and keeping up communications with Spanish spies across the border.

Sir Wilfrid Laurier said he had no information on the point. He added that Britain and the Colonies had always been a refuge for the fugitives of every country, and so long as Senor Polo observes the rules of neutrality there was no occasion to interfere with him.

There was a lively discussion for an hour and a half on the matter of Alien labor law.

Mr. McCleary stated that many Canadians employed on the Grand Trunk lines in the States had been discharged while railway men from the United States had been permitted to work in Canada.

While admitting that the general sentiment of the country was kindly at this time to the United States, he believed there were many who would like to see the United States spank a little in the beginning of this war, as outrage had been their treatment of our working people in that country.

Sir Wilfrid Laurier admitted that the Alien Labor Law of last year was too weak to be effective, but they thought it better to endure inconvenience for a time than to do anything at this particular moment which might even seem to be hostile to the United States.

Sir Charles Tupper supported Laurier's opinion. His own views were in favor of the enactment and enforcement of an alien law exactly like that of the States, but he agreed that this was not the time to deal with this matter, and that we ought to do all that was possible to strengthen the kindly feeling now existing between the two countries.

The Senate has adjourned for a fortnight.

TEN PER CENT. DISCOUNT

In all cash purchases of Miscellaneous Books, Stationery, and Fancy Goods, school books 5 per cent., at

CARTER'S BOOKSTORE

N. B.—The above discount is given in all cases, where the cash purchase amounts to 10c or more. Everybody is entitled to it and should see that they get it.—Geo. C. & Co.

This pair of Kid Gloves is guaranteed by

MOORE & MCLEOD,

and if they should rip or tear

On first putting on, not having been further worn by the purchaser and correct size bought, will be replaced by another pair.

MOORE & MCLEOD

Just before we put it away for the summer; what?

The Quebec Heater

We put one, (No. 6) on trial in the City Hardware Store; started the fire Jan. 25th, it was never-out till May 14th; always left without attention from Saturday at 6 o'clock till Monday at half-past seven o'clock—about 38 hours.

From Jan. 28th till April 22nd it burned 56 pounds of SOFT COAL per 24 hours, thus showing that the City Hardware Store, office included, can be heated from Nov. 1st to May 1st for less than \$12. The store is 27x60 feet, ceiling 13 feet high.

NO GRATE, VERY LITTLE LABOR OR ATTENTION, NO POKING, NO SNAKING, consequently NO DUST. Don't forget it next fall. GIVE away or THROW away your base-burner and get a QUEBEC HEATER. Save coal, labor and trouble, and get comfort. Buy at the
