Northumberland county in New Brunswick facing the Gulf of St. Lawrence was created in 1785. Canada in 1951 had a telephone system of 10,330,000 miles of wire nearly 1,000,000 more than in 1950.

Since December 1951, The Royal Bank of Canada has provided banking service to construction crews working on the gigantic power and aluminum project now taking shape on B.C.'s rugged mountain coast. Branches and sub-branches are operating at Kemano, Tahtsa Lake, Nechako River damsite, Kildala, Skins Lake and other strategic points in this great undertaking.

Pioneering in remote areas is nothing new to the Royal Bank. It is a strong tradition. Today, for example, we maintain offices at Churchill on Hudson's Bay, Mayo in the Yukon, and Port Radium on the fringe of the Arctic—the "farthest-north" bank in Canada. Whenever and wherever the need arises, The Royal Bank of Canada heads north with the men who are establishing Canada's new frontiers.

FALSE TEETH

Need Not Embarrass That Loosen

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little PASTEETH, the alkaline (non-acid) powder, on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (deture breath.) Get PASTEETH at any drug store.
