

Murder Trial In Child's Death

WINDSOR, Ont. (CP) — It is quite possible for infant's ribs to be broken by the application of artificial respiration by an amateur, the supreme court was told here Thursday at the murder trial of Joseph Adams, 24.

Adams is charged with beating his six-week-old daughter, Deborah Ann, to death on the morning of April 26. He pleaded innocent. Accused, facing police testimony that he claimed he beat his child to death because she wouldn't stop crying, testified Wednesday that he had attempted to give her artificial respiration after the child swallowed water during an early morning bath.

Mr. D. V. Hutton, Windsor pediatrician, was called by the defence this morning, and claimed that artificial respiration if applied by an amateur could easily break an infant's ribs. He said he had seen three such cases.

Previous medical evidence showed that the child died from internal injuries, and that she had suffered broken ribs. Three doctors disagreed on whether the ribs could be broken by artificial respiration.

Adams Wednesday told the jury how he found the baby girl "choking and sputtering" in the bath and tried to aid her by squeezing her stomach.

Reach Agreement Re Payment Of Pensions To Disabled

An agreement has been reached between this Province and the Federal Government on the payment of allowances to disabled persons, it was announced last night by Hon. B. Earle MacDonald, Minister of Welfare.

The payments will be up to \$40.00 monthly with the Provincial and Federal Governments each paying one-half.

The Act was assented to by the House of Commons on June 26 this year and following that a conference of all Provincial Ministers of Welfare and their Deputies was called to meet in Ottawa this week. At the meeting those attending discussed all the proposed regulations under the Act and in some cases amended or even deleted them as would best suit the Province as a whole.

Mr. MacDonald felt that the purpose of the Act was not only to help disabled persons, in itself a worthy move by the Federal Government, but also to be closely related to the rehabilitation program already in effect in most Provinces.

gical, anatomical or psychological impairment, verified by objective medical findings. And if such impairment is likely to continue without improvement and as a result of which the person is sever-

APPLICATION OF ACT

The Act provides for people who shall be deemed to be totally disabled only when such persons is suffering from a major physio-

Coming Events

- Buying and cleaning timothy fall. McGulgan & Boyle.
- Regular Dance, Howe's Hall, tonight. Music by Dolron Bros.
- Dance at Gordon Lodge every Friday night.
- Dance, Cardross School, Friday, September 24th.
- Reserve Wednesday, Oct. 27 for Tryon United Church supper.
- Bingo, Dance, Kellys Cross School, Friday, September 24th, 3.30 p. m.
- Chicken supper, Springton school, Friday, September 24, serving from five.
- Reserve Thursday, Oct. 28th for Hallowe'en tea, St. James Church.
- Dance at Mt. Ryan Hall at Johnson's River every Friday, Burke's Orchestra.
- Pantry Sale Wheatley River Store, Saturday night, September 25th. Aid of W. M. S.
- See Georgetown Players present "Betty the Girl O' My Dreams" in Brookfield Hall, September 28th. Curtain 8.30.
- New Whitshire visitation Stanley and Hackett Lodge visits Tanzon Lodge Brookfield, Monday 7th.
- Pantry Sale Saturday, September 25th, at 2 p. m. Moore & McLeod, in aid of West Royalty Community Hall.
- L.O.L. and L.O.B.A. hot chicken dinner with plum pudding. Varnville hall, Oct. 27, serving 5 v.m.
- We are buying Timothy Seed daily at highest market prices. Beaton and MacRae Shun-Gain Feed Service, Winoeloe. Dial 9514.
- Pantry Sale, Fennell and Chandler's, 1.00 o'clock, Friday, September 24th. Fairview Women's Institute.
- The Annual Meeting of Belfast Home Association, will be held in Belfast Hall, Monday, September 27th, at 8 p. m. Frank MacDonald, Secretary.
- Last presentation of three-act play in South Rustico hall, Friday, Sept. 24, by South Rustico Dramatic Club. Good specialties.
- A special meeting of the directors of the North River Community Club will be held in the North River Hall Friday, Sept. 24th at 8 o'clock.
- Crapaud hall Tuesday night, Sept. 28, old time fiddling and step dancing competition. Winners will participate in Charlottetown. Prizes announced by radio. Please send your entries. President Women's Institute Crapaud. Dance following.
- Reserve Wednesday, Sept. 29th for old time fiddling and step dancing eliminations in Morell hall at 8.30 p.m. Sponsored by Morell Women's Institute. Send entries to Mrs. Vincent Coffin, Morell. Valuable prizes. Winners eligible for championship finals in Charlottetown Forum, Oct. 5th.
- Reserve Tuesday, Sept. 28th for old time fiddling and step dancing eliminations in Crapaud hall at 8.30 p.m. Sponsored by Crapaud Women's Institute. Send entries to Mrs. LeRoy Howatt, Crapaud. Valuable prizes. Winners eligible for championship finals in Charlottetown Forum, Oct. 5th.
- Show coming Morell tonight only. "Fort Defiance". This is "killer country" and the story of the guns that won it glory! All the fury of the last great Indian War! In color. Starring Dane Clark, Ben Johnson, Peter Graves, Johnny Fraser than a snakes tongue and twice as nasty. Julie—the outcast, knew love too little, men too well! A real story. 8 p. m.

Canadian Defence Officials Worried By Rapid Progress Made By Russians

OTTAWA (CP)—Senior Canadian defence officials said Thursday they are worried by the rapid progress being made by the Russians in the development of atomic weapons and aircraft.

One official who declined use of his name said the West is losing ground to the Russians in these fields.

"We have no reason for complacency," the official said. "It is time the public knew that we are worried about how the Russians are forging ahead."

The comments came at a time when a new hydrogen bomb test is reported to have taken place in Siberia.

Officials said there has been some increase this week in Canada in the fall of radioactivity. They added this might be due to a nuclear explosion in Russia but they could not say definitely.

to decide what kind of war would be fought, and when and where.

Other officials said they have misgivings about the speed with which the Russians apparently are developing new and more deadly weapons.

They said Canada has not complete information on what the Russians are doing in the weapons field, but that it has enough to know that they are making rapid progress.

Ten 'Copters Added To Search, Rescue

OTTAWA (CP)—The RCAF is going to reinforce its search and rescue operations across Canada. It announced Thursday the purchase of 10 Sikorsky S-55 helicopters, to be stationed with various search and rescue units from coast to coast.

Six of the helicopters will have been delivered by late this month. Two more will arrive in October and the last two in November. All are expected to be in operational use by Christmas.

Twenty-four pilots will be trained on the new aircraft. Eight of them already are receiving training with Okanagan Helicopter Company in British Columbia.

The S-55 is 42 feet long and can accommodate six stretcher patients or 10 passengers. It has a range of more than 400 miles and this can be extended by the addition of extra fuel tanks. It has a cruising speed of 100 miles an hour and a ceiling of more than 10,000 feet.

The S-55 is a single-engine, single-rotor type of utility helicopter. It is powered by a Pratt and Whitney 600 horse-power engine located in the nose of the aircraft for easy maintenance.

The S-55 will be the third type of helicopter flown by the air force. The other two types in service are the Sikorsky S-51 and the Piasecki H21A.

Pilots attending the two-months course which began Sept. 20 include FO R. A. Coneen, Irish Road, N. B.

FEAR SHIP LOST

VALPARAISO, Chile (AP)—Shipping men have abandoned hope for the Argentine freighter San Martin, which vanished in the Strait of Magellan 12 days ago with her crew of 54 and 10,000 tons of wheat.

Merchant marine headquarters speculated that the cargo shifted and the 9,000-ton San Martin sank off Rapper lighthouse. Searchers have found some life preservers.

Dulles Gives Plan To Speed Atom Use

Pearson Pledges Canadian Support

By William Harcourt
Canadian Press Staff Writer
UNITED NATIONS, N. Y. (CP)—External Affairs Minister Pearson said Thursday Canada believes an international agency to develop non-military uses of atomic energy can be organized by the United Nations even without Russian participation.

The Canadian minister, heading Canada's delegation, spoke to the newly-opened ninth session of the UN General Assembly shortly before he was to leave for London to attend the nine-power conference on German rearmament.

Pearson said Canada is in a position to make a useful contribution to the work of such an agency and will be glad to do so.

Pearson voiced disappointment at the results of the London conference on disarmament last spring which he attended. At those meetings the Soviet Union had seemed as unwilling as ever to accept any adequate system of supervision and control. "The indispensable pre-

Continued on page 15 Col. 2

UNITED NATIONS, N. Y. (AP)—U. S. State Secretary Dulles Thursday laid before the UN General Assembly a four-point plan to speed the use of atomic energy for peaceful purposes.

The plan called for creation of a new international agency, including members from all parts of the world, to explore and develop atomic energy for peaceful uses.

It also proposed the calling of a world scientific conference to meet in the spring of 1955 under UN auspices to explore the whole subject of atomic development for non-war purposes.

At the same time Dulles announced that the United States will open early next year a reactor training school where students from abroad may learn the working principles of atomic energy with special regard for peaceful uses.

In his fourth point, Dulles said the United States will invite a substantial number of medical and surgical experts from abroad to participate in the work of U. S. cancer hospitals in which atomic energy techniques are being used.

Dulles spoke in the opening round of general debate before the UN General Assembly. He announced that the United States will submit a new item for the assembly's agenda to cover the plan he had outlined.

Six Federal By-elections To Be Held Nov. 8

OTTAWA, (CP) — The prime minister's office announced Thursday that six federal by-elections will be held Monday, Nov. 8.

The by-elections will fill House of Commons vacancies in:

York West, previously held by Rodney Adamson, Progressive Conservative, killed in an air crash at Moose Jaw, Sask., April 8.

Toronto Trinity, formerly held by Lionel Conacher, Liberal, who died at a Commons softball game May 26.

St. Lawrence, previously held by Transport Minister Chervier now Canadian president of the St. Lawrence seaway authority.

St. Lawrence-St. George, formerly held by Defence Minister Claxton who retired to become Canadian general manager of the Metropolitan Life Insurance Company.

Montreal St. Antoine-Westmont, formerly held by Finance Minister Abbott now a member of the Supreme Court.

Selkirk, formerly held by Robert J. Wood, who died of a heart attack in Winnipeg Aug. 8.

First To Die From H-Bomb

By SYDNEY BROOKS
TOKYO (Reuters) — A humble Japanese fisherman Thursday became the world's first hydrogen bomb victim.

He died in Tokyo hospital after six months of suffering and the whole nation mourned him.

He was Aikichi Kuboyama, 39, one of 23 crew members injured when radioactive ash showered the fishing vessel Lucky Dragon after a United States H-bomb test on Bikini atoll last March.

DOOR STILL OPEN

He expressed regret that Soviet Russia had declined all U. S. efforts to obtain East-West cooperation in the atomic pooling idea, but he said the way was open for the Russians to come into the plan at any time.

"I would like to make perfectly clear," Dulles said, "that our plan excludes no nation from participation in this great venture."

"As our proposals take shape, all nations interested in participating and willing to take on the responsibilities of membership will be welcome to join with us in the planning and execution of this program."

"Even though much is denied us by Soviet negation, nevertheless

MAKING RAPID PROGRESS

"The Russians are gaining or perhaps ahead of us in the fields they choose to concentrate on, such as atomic weapons and aircraft," an official said.

"That means they may be able

News Briefs From Home And Abroad

OTTAWA (CP) — Reaction here to a new Communist bid for another conference to try to settle the Korean problem can be summed up in three words: "Same old line."

UNITED NATIONS, N. Y. (Reuters)—Britain will boycott any debate on Cyprus in the political committee of the United Nations General Assembly, usually reliable sources said Thursday.

MILLTOWN, N. B. (CP)—Textiles Sales, Ltd., has accepted in principle a union proposal for operation of the company's mill here by co-operative methods, a union spokesman said Thursday night.

KITCHENER, Ont. (CP) — The \$8,300 mortgage on the house of the late John Mitchell was burned Thursday in the presence of Mrs. Mitchell. Mr. Mitchell died several weeks ago in a vain attempt to save Harold Karchner from sewer gas death. Donations from friends swelled a fund to pay off the mortgage to \$14,285, some \$6,000 more than the original objective.

HONG KONG (Reuters) — Premier Chou En-lai Thursday called for the withdrawal of the U.S. 7th fleet from the Formosan straits and the admittance of Red China to the United Nations as steps necessary to ease world tension.

ATLANTIC CITY, N. J. (AP)—The United Steelworkers Thursday decided to stay in the parent CIO and called for all American labor groups to join in immediate "organic unity."

LONDON (AP)—Aneurin Bevan, left-wing Laborite, said Thursday the men in the Kremlin have at last mastered the internal situation in Russia and now will be easier to deal with.

LONDON, Ont. (CP) — Robert Bernard Holt, 20, of Halifax, N.S., was sentenced to six months in county jail Thursday after pleading guilty last week to a charge of uttering a forged check.

Police said Holt was arrested when he boosted a \$1 check from a catering firm to \$70.

Patients Removed Safely As Fire Damages Hospital At Plaster Rock

PLASTER ROCK, N. B. (CP)—The Tobique alley Hospital's 15 patients were carried to safety here Thursday when fire believed to have started in the kitchen chimney heavily damaged the three-story wooden building.

No injuries were reported.

Plaster Rock and Perth firemen fought two hours to put out the fire which broke out at 10 a.m. ADT. Town residents helped evacuate the patients, who were taken to private homes.

There was no immediate estimate of damage to the 15-bed hospital.

A meeting of the hospital board was called to arrange temporary quarters. Dr. Stephen Rabatish said the board had been considering construction of a new community hospital next year.

Dr. Rabatish and Dr. E. C. Reid are in charge of the hospital. Miss Myrtle Brown is matron.

Plaster Rock is about 20 miles from the Maine border in northwestern New Brunswick.

SYRACUSE, N. Y. (AP) — The Republican state convention Thursday nominated U.S. Senator Irving M. Ives by acclamation as the party's candidate for governor of New York.

First Pictures of Britain's Newest Jet Aircraft Cause Big Sensation

By RANALD MACLURKIN
LONDON (Reuters) — The first official picture of Britain's sensational new jet aircraft, called the Flying Bedstead, was published Thursday. When aviation experts saw it they could hardly believe their astonished eyes.

For the wingless, rotorless, experimental freak — built by the Rolls Royce engine manufacturing firm — does in some respects surprisingly resemble the old-fashioned bedstead it's named after. But it more accurately looks like a weird monster thrown together from household odds and ends for a practical joke.

Experts believe the 3½-ton "bedstead," which made its maiden flight last month, may drastically change aeronautics because it can take off vertically from the ground like a helicopter.

Some have predicted that the principles embodied in the bedstead one day will enable huge jet airliners to take off and land like elevators from postage stamp airports in the centre of the world's great cities.

It remained airborne for nearly 10 minutes. During that time it cruised slowly around at heights of from five to 10 feet above the ground. Finally it landed — "as gently as a cup of tea," Shepherd said — at its starting position.

On subsequent flights it was flown free at heights up to 25 feet.

Other performance details have not been disclosed.

NATO Forces Open Exercises

LONDON (Reuters) — Carriers, cruisers and planes from six NATO countries opened a 10-day operation, Morning Mist, Thursday in one of the largest sea exercises yet by the Atlantic pact forces.

The exercise involving 60 major warships and more than 300 planes will cover an area from northern Norway and northern Scotland through the North sea and 1,000 miles out into the Atlantic. Simulated running of convoys from England to Scandinavia and North America to England are objects of the operation by ships from Britain, France, Canada, Norway, Denmark and The Netherlands.

Rumor New Plane Tops All in Class

TORONTO (CP) — Officials of A. V. Roe Canada Ltd., reported building a new Canadian super-sonic fighter plane at its suburban Malton plant, said today the forthcoming visit by four top British aircraft men will be "purely a routine business trip."

However, at Southampton, England, Wednesday night the officials said they were coming to study a secret plane "better than anything of its kind in the world."

The Britons include Sir Frank Spriggs, managing director of the Hawker Siddeley group, with which Avro Canada is associated; Sir Thomas Sopwith, chairman of Hawker Siddeley; Sir Roy Dobson, managing director of Avro, and Air Marshall W. A. Curtis, vice-chairman of Avro's board of directors.

The new plane, a delta-wing all-weather fighter, has been designated as the CF-106, while details of its expected performance are secret, it is believed the aircraft has been designed for speed well in excess of the supersonic figure, 750 miles an hour at sea level.

One report said the craft is being designed for a speed of 1,200 mph.

Community Planning Assn.-Board Of Trade Joint Meeting

The above picture was taken last night during the dinner meeting sponsored jointly by the Community Planning Association and the Charlottetown Board of Trade. Seated, Sir Brian Dunfield, President Community Planning Association of Canada and His Honour Lieut. Governor T. W. L. Prowse. Standing left to right, Hon. Dougald MacKinnon, representing the Provincial Government; Hon. Walter E. Darby, Attorney General; Miss Lillian Duchemin, Mr. Tom Lothian, Mr. Justice G. J. Tweedy, Dr. Henry Moyle, Dr. Frank MacKinnon, Provincial President Community Planning; His Worship Mayor J. D. Stewart, Mr. Melvin McQuaid, Lieut. Col. E. W. Johnstone, Mr. Keith MacKinnon, President Charlottetown Board of Trade. Barter's Film Lab.

HAS FOUR LEGS

A look at the picture issued by the supply ministry shows that four long thin legs project from each corner of the machine. These have small wheels resembling castors and look just like legs from the kind of bedstead grandma used.

The legs appear to be tied together haphazardly by struts. Above them are objects like wooden packing cases and herring barrels which comprise the body or fuselage.

The pilot sits in an unsheltered platform atop the body, and it's not much of an exaggeration to say he looks like a man sitting up in bed.

Two mysterious pipes just out in front of the machine and at the back, both with curved nozzles. Their function is to control the machine's balance through jet pressure of air.

Holes at the base of the machine mark where two jet engines propel it up by forcing air straight down.

FIRST FLIGHT

Last Aug. 3 the machine took off on its first flight with an ear-splitting roar. Ronald Shepherd, 58-year-old Rolls Royce test pilot,

Italian Senators In Fistic Battles

ROME (AP) — Senators battled with fists and epithets such as "idiot" Thursday in a floor melee over Communist party efforts to implicate the government in the Wilma Montesi death scandal.

The government of Premier Mario Scelba asked for a vote of confidence in reply to Red demands that it resign.

The premier's Christian Democrats said they are confident they can win with the pledged support of three smaller centre parties plus the monarchists.
