Local and Other Items.

VERY SUCCESSFUL.—The tea party at Bideford, last week, was very successful. The amount realized was about \$250.

RUSHING WORK.—It is said that about two thousand three hundred and fifty men are at work on the Cape Breton Railway.

BALDNESS ought not to come till the age of 55 or later. If the hair begins to fall earlier, use Hall's Hair Renewer and prevent baldness and grayness.

THE HAY CROP.—Halifax advises say that the hay crop in Nova Scotia, now being housed, will be above the average, both in quantity and quality.

RAILWAY BONUSES.—A Halifax despatch says that Truro has voted \$3,000 bonus, and Maitland promises to contribute \$10,000 to the Hants Central railway.

WONDERFUL GROWTH.—The revised assessment of the city of Vancouver, B. C., shows assessable property of over \$9,000,000, and exempted property of \$900,000. This is an increase of \$400,000,000 over last year's assessment.

AYER'S HAIR VIGOR has long held the first place, as a hair dressing, in the estimation of the public. Ladies find that this preparation gives a beautiful gloss to the hair, and gentlemen use it to prevent baldness and cure humors in the scalp.

SHOULD BE MORE CAREFUL.—The Summerside Pioneer says: "The special train returning with the delegates from the annual meeting of the Grand Division woke the echoes of the night and the slumberers from their dreams on last Wednesday night."

MACKEREL FISHING.—Says the Pioneer: The shore fishermen at Alberton overhauling their nets, which had been out during the recent bad weather, found that large numbers of fine mackerel had meshed, but were almost rotten, having been so long in the nets.

WORDS cannot express the gratitude which people feel for the benefit done them by the use of Ayer's Sarsaparilla. Long standing cases of rheumatism yield to this remedy, when all others fail to give relief. This medicine thoroughly expels the poison from the blood.

PRESS MEN COMING.—A Toronto despatch of the 19th inst. says: About forty members of the Ontario Press Association left this morning on a trip to the Lower Provinces. Among the places to be visited are St. John, Fredericton, P. E. Island and Quebec.

THE TOBACCO CROP.—Advices from Cuba are to the effect that the tobacco crop on the island will be a failure this year. This is due to early spring rains and generally backward weather. In consequence of this information a raise in the price of Havana tobacco is looked for.

SUPREME COURT.—Up to Saturday evening, when the Court at Georgetown adjourned until Monday, but one case had occupied the Court, and it was not ended then. This is the moving machine case between Patterson Bros., Ontario, and Malcolm Mathewson, of Dundas. There are several trials to come off at this sitting of the Court—one an alleged breach of promise case, one of alleged forgery, one of alleged intent to kill, and others of minor importance. It appears there is more work than usual to do at the present term. It is thought the jury will have to spend another week in the shire town of King's.

MACKEREL CATCHES.—The following mackerel seiners were at Souris yesterday: Annie E. Paint, Capt. Martin, Hawkesbury, N. S., three weeks in the Bay, has eight barrels mackerel; Nutwood, Capt. Lord, in the Bay since May, has nine barrels; Can't Help It, of Halifax, out three weeks, has one barrel; Capt. Martin reports that there were 25 sail at North Cape on Tuesday last, about half of which were American seiners. He says he has seen only two schools yet this season—they were seen off 2d Chapel, North Side. Capt. Munroe reports having seen mackerel schooling on Friday, about nine miles off the same place; and the Jubilee the day previous caught fifteen barrels there. The general opinion among fishermen is that there is plenty of mackerel in the Bay, but whether they will be caught or not remains to be seen. Shore fishermen are picking up a few, but no large catches have been made so far.

FROM BOSTON.—The steamer Worcester, Captain Nickerson, arrived early yesterday morning with the usual general cargo and the following passengers: Prof. Anderson, Mr Dillaway, Mrs Dillaway, Mr Dillaway, Lewis Merchant, Mrs Lewis Merchant, Oliver Church, Elias Burnham, Mrs Elias Burnham, Arthur M Coffin, Abbott Coffin, Mrs Barlow, Miss D Barlow, Mrs McQuinn, J Newson, Mr Morse, Miss A R Boyle, Miss E Dooley, Miss A Dooley, Miss M A Dooley, Mr E Dooley, Rev J J Quinn, Mrs Buchanan, Mrs Fred Warner, Mrs W O Clarke, Mrs Raymond, Miss Green, Miss Rockman, J P Kimball, Miss L A Fraser, Mrs F L Westland, Mrs J Musick, Miss Nelson, Miss Sneeston, Miss D McPhee, Miss McIntyre, Miss E Steele, Miss K McAttee, Miss Tilda Matheson, Miss A Collins, Miss A McKinnon, Miss M Floan, Mrs Campbell, Miss F McCormack, Mrs McConnell, Mrs Cadner, Miss E Fogarty, Miss A G Connor, Miss Furlong, Mrs Quinn, Miss A McKenna, Miss Cook, Miss McKenna, Mrs Farrell, Miss McMahon, Miss K McDonald, Miss S Powers, Miss A Kirwin, Miss L Czeroy, Miss A Keenan, Master S V Callaghan, Miss H Stewart, Miss Mary Stewart, Mr W A Brown, W A Beer, M McCarvell, Fred Powers, P McCarvell, E Purdy, Jas Quinn, Mr Clements, Mr McKenzie, Mr McCarey, Mr Boyle, Mr Stephens, W Cooke, Mr Judson, B Dean, Miss DeRod—79.

The Hayti War.

FOREIGN MEN-OF-WAR MAY HAVE TO INTERFERE.

Port-au-Prince advices, dated July 7, say: Port-au-Prince within the last few days has been in a state bordering on frenzy. Hippolyte has assaulted the extreme outworks, but was held in check. Legitime is pressing into the ranks every man capable of carrying a rifle. The people have been delirious with excitement. The minister of war has executed some of the prisoners with his own hands. Hippolyte is burning farm houses and villages in sight of the city. All foreigners have been threatened with extermination, but the United States naval force on hand is ready to take the city if necessary. A British cruiser and two Spanish cruisers also are in the harbor prepared to protect their citizens. A system of signals has been established with the American consulate, and when a danger flag is exhibited picked infantry companies will be sent ashore. The captain of the British cruiser declares that if one Englishman is touched he will shell the city.

Among the Icebergs.

Reports by all the ocean steamers agree as to the continued prevalence of icebergs in the Straits of Belle Isle, although the passage is getting gradually clearer and the bergs are being carried into the Atlantic. The Beaver liner, Lake Huron, on her last outward trip from Montreal to Liverpool, appears to have fallen in with an immense field of icebergs, which was watched for two whole days with much interest by the passengers. No less than forty-two were counted at one time, all within a radius of ten miles. One of these sighted 170 miles east of Belle Isle, was declared by the captain and officers to be the largest they had ever seen. Its length was estimated at 1,000 feet, and stood some 250 feet out of water. It was about two miles distant from the ship.

Distributing \$900,000.

A HOWL OF INDIGNATION HEARD AT JOHNSTOWN.

A Johnstown, Pa., despatch of the 19th says: Judge Cummin and Wm. R. Thompson, of the state relief commission, arrived here from Cresson Springs at 10 o'clock this morning. These gentlemen immediately opened their office for the payment of the \$500,000 of the governor's fund, and \$400,000 of the Pittsburg relief committee's fund. About one hundred applicants, mostly of the poorer classes, were in waiting. As the warrants were issued and the amounts handed out, after being sworn to by the applicants, there was one grand howl of indignation and disappointment at the small amounts awarded. To illustrate: The well-known Chas. S. Dick, one of Johnstown's most prominent citizens, lost \$5,000 by the flood. Dick filed a claim for \$3,000. His warrant was filled out for \$80. Dick was angry and refused to accept the amount awarded. A neighbor of Dick's whose losses were much greater, also received a warrant for \$80.

About Horses.

The Agriculturist reports that Mr. Geo. E. Hughes, of the Apothecaries' Hall, Charlottetown, has purchased from Mr. Samuel Hall, New Village, the three year old mare Miss Hall, by Hernando, 2891, dam Emma, by All Right, 5817. Miss Hall is a very handsome young mare, and is standard and registered in Vol. VII. W. A. T. R. The price paid was \$350. Mr. Hughes took her to Charlottetown on Saturday morning.

RAILWAY CONVENTION.—We notice by the Halifax Herald of the 16th inst., that the fourth anniversary meeting of the Railway Men's Christian Convention of the Maritime Provinces will be held at Richmond, Halifax, on Saturday, Sunday and Monday, August 24th, 25th and 26th. Invitations and programmes will shortly be issued. Rev. Mr. Meikle will be present.

THE USUAL RESULT.—On Friday last Albert Lawrence, a clerk in a hardware store at Brantford, Ont., snapped a revolver to show Fred Cox that it worked all right. The revolver exploded and Cox was killed. Lawrence gave himself up but was liberated. He thought the revolver was empty.

Sonnet.

When I behold the strifes and jealousies,
Within the fold of Christ on every side,
Which brethren, who in love once walked,
Divide
For reasons light as air in just men's eyes,
I think how high-souled worldlings must despise
Such questions vain, so vainly magnified,
And rather fast to virtues built on pride
Than drink at fountains where such fumes arise.
Woe to the factions ones, who cause the
offense;
And woe to those who blindly misapply
Their measuring line; and, if they fault
espy,
Straightway religion brand as sheer pretense,
Rather than upward turn to Christ the eye,
And draw the portrait of a Christian thence.
—Dr. Woolsey.

Telegraphic Odds and Ends.

CONSTANTINOPLE, July 19.—Two hundred houses were destroyed by fire here yesterday.

LONDON, July 19.—The Egyptian Government has notified the French Government that the latter's refusal to accept the conversion scheme will cost Egypt yearly £300,000.

LONDON, July 19.—Parnellite members of the Commons intend to demand in parliament that a committee of inquiry be appointed to ascertain the origin of the Pigott forgeries.

PARIS, July 19.—Papers here consider that the King of Holland's address to states general asking that 60,000 troops be kept armed to defend Dutch neutrality, indicates expected German action.

LONDON, July 19.—The man arrested on suspicion of being the Whitechapel murderer is not "Jack the Ripper." The police to-night say he is only a drunken lunatic, and attach no importance to his confession.

LONDON, July 19.—At the labor congress yesterday, American, English, Belgian, Spanish, French, Danish, Polish, Austro-Hungarian and Portuguese delegates agreed upon a series of resolutions declaring in favor of eight hours as the maximum day, a weekly holiday, suppression of labor for children under 14 years, and equal opportunities and wages for the two sexes.

NEW YORK, July 19.—It is stated that the sugar trust is preparing to make a vigorous battle to sustain the present prices if not to force them still higher. Previous to the first advance a year ago storage of large quantities of refined sugar was unheard of. The prices of granulated sugar at retail was then about 6½ cents and is now 10 cents, and hundreds of thousands of barrels are said to be stored up in warehouses.

BERMINGHAM, Ala., July 19.—A feud between the Simpson and Houghton families in the western part of this county led to a fight this morning. Two of the Houghtons were killed and several of the other party wounded. The Simpsons were then attacked by the officers and the deputy sheriff killed; also one of the Simpsons. The officers retired, and more bloodshed is feared. Five of the Houghtons and three of the Simpsons have been killed and many others wounded since the feud began three years ago.

Odds and Ends.

The wise man is the man who knows what to do when the time comes.
Consider well the rights of every human being, however humble or degraded he may be.

What a man is pleased to call clean profit is oftentimes the proceeds of a dirty bargain.

He to whom it is a pleasure to give pain to others, and who thus feasts on their distresses, is a moral monster who always does the world a favor when he quits it.

A criminal on the way to the gallows, says the Pittsburg, Pa., Commercial, said to the sheriff: "If I had received half the kindness in early life which I now receive here, I should not have been here."

A sacred burden is the life you bear,
Look on it, lift it, bear it solemnly.
Stand up and walk beneath it steadfastly,
Fail not for sorrow, falter not to sin,
But onward, upward, till the goal ye win.

Humor has been defined in a variety of ways, and of all the significations we have ever come across, says the Hartford Herald, the one that strikes us as truest and happiest is this: "Humor is wit touched by love."

The Maoris of New Zealand, while at war with the English, invariably sent a notice when they were going to make an attack as if they were coming on a friendly visit and desired things to be ready for them. They thought it very strange that the English did not give them similar notice.

Great Britain built the first iron war vessel, the Dover, a small side-wheel steamer, in 1839. It was followed by the Albert, Soudan, and Wilberforce, all of small size. In 1843 three war steamers averaging 850 tons were launched, and during the next three years thirty-four iron steamers of all sizes were built.

DIED FROM HIS INJURIES.—The Agriculturist says that on Tuesday last, while Mr. Patrick Keough, of Albany, Lot 27, was returning from Lord's Mills, Tryon, with a load of boards, through some accident the boards slipped back, and Mr. Keough was thrown to the ground. One wheel of the truck passed over the lower part of his body, causing paralysis, which ended in death on Thursday evening. Mr. Keough was not found until some time after the unfortunate accident, when everything possible was done for him, but without avail. He was conscious to the end. After Mr. Keough fell from the truck, the horse went on, and was found some time after grazing beside the road.
