Canadian Government Annuity means a Guaranteed Income during your retirement years

An Annuity can be purchased to come due at 50, 60, 65 or other ages. Here's a typical example:

NOW—Supposing you are a man of 28 and wish to secure an Annuity of \$100 per month commencing at 65. Your monthly premium would be only \$16.44.

AT AGE 65—The Government will begin paying you \$100 per month. These payments will continue as long as you live! Furthermore, in the event that you die within 10 years after the age of 65, the monthly payments will continue to your heirs for the balance of that 10 years. In other words, you will have paid \$7,299.36 to receive a minimum return of \$12,000, which will be even greater if you live past 75!

IF YOU DIE BEFORE AGE 65—The Government will pay your heirs the total sum paid up to the date of your death, plus compound interest.

The example given above is one of many Government Annuity plans available to meet your particular requirements. Any resident of Canada between ages 5 and 85 is eligible to buy a Government Annuity.
