CEIC and Mining Association sign \$1 million agreement

OTTAWA — John Roberts, Minister of Employment and Immigration today announced the signing of an agreement between the Canada Employment and Immigration Commission (CEIC) and the Mining Association of Canada that will provide \$1 million in CAREER-ACCESS Program funds to the mining industry for on-the-job training.

"I am confident that this pilot project will benefit both the mining industry and the Canadian economy," Mr. Roberts said. "It will provide essential employment experience to post-secondary graduates in mining occupations and contribute to the future needs of the industry."

The agreement provides for \$1 million to be committed by December 31, 1983 to finance subsidized, full-time employment in some 20 mining occupations.

The project encourages mining companies to participate in internships for re-

cently unemployed and underemployed post-secondary graduates in mining occupations. The internships will provide specific employment experience to graduates and will help facilitate their transition from school to work.

The salary of each applicant hired by a mining company under the project will be subsidized to a maximum of \$7,500 during 12 months. The subsidy would be reduced proportionally for lesser periods. In addition, financial assistance will be offered to qualified individuals under the Canada Manpower Mobility Program (CMMP).

Virtually all the provinces and territories will benefit from the project. Allocations have been made in the following way: \$37,500 each to Newfoundland, Nova Scotia and New Brunswick, \$187,500 each to Quebec and Ontario; \$100,000 to Manitoba; \$75,000 to Saskatchewan; \$112,300 to Alberta/

Northwest Territories and \$225,000 to British Columbia/Yukon.

Post-secondary graduates who are employed and who have not been able to find employment appropriate to their educational qualifications for 20 of the past 24 weeks, and who have been out of school between six and 24 months, will be able to participate.

No existing employee will be displaced as a result of this internship agreement nor will it affect work on lay-off status awaiting recall.

The Mining Association of Canada will be responsible for notifying its member companies of the opportunities provided by the project and the procedures to be followed to take advantage of this initiative.

Participating companies will hire women members of minority groups to the fullest extent possible consistent with their qualifications and availability.
