OBITUARY

MISS HAZEL VANDERSTINE

Friends and relatives were shocked and saddened to hear of the unexpected passing of Miss Hazel M. Vanderstine at the P.E.I. Hospital on July 30, 1962. She was born at Hunter River, daughter of the late Mr. and Mrs. J.H. Vanderstine and resided in Charlottetown since girl. She was a member of Central Christian Church from where the funeral was held on Wednesday afternoon August 1st. The service was conducted by Rev. W.L. Outhouse and the hymns sung were, "Unto the Hills", and "Guide Me Oh Thou Great Jehovah". During the service Mr. Eric MacGregor very feelingly rendered a solo "The Lords My Shepherd".

She leaves to mourn her loss, one sister Bea, with whom she resided, also the following brothers: George in Saskatoon, Ira in Calgary, Davis in Winnipeg and Roy in Regina.

The Pallbearers were, John Cooke, Walter MacFarlane, Stanley Murchison, Everett Platts, Victor Ling and H.H. Jewell.

The Flowerbearers were intimate friends of the family.

NOTICE OF SHERIFF'S SALE

Under
Incorporation Act
City of Charlottetown

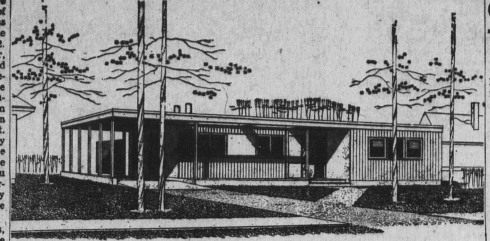
PURSUANT TO and by virtue of a special warrant for sale of real estate issued by Kenneth M. Martin Judge of the City Court of the City of Charlottetown, under his hand and seal dated the 7th day of March A.D. 1962 against the lands hereinafter described against which judgment had been given in the amount of $127.36 for unpaid assessment against the same in the name of Estate of Mary Ann Hooper directing me to sell at public auction to the highest bidder such portion of the said lands as I may deem sufficient to pay such assessment and all expenses.

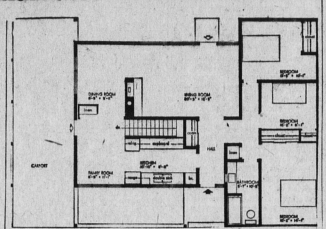
I DO HEREBY GIVE NOTICE that on Wednesday the 19th day of September A.D 1962 at the hour of Eleven-fifteen o'clock in the forenoon (Atlantic Standard Time) in front of the Law Courts Building in Charlottetown in Queens County, in Prince Edward Island I will set up and sell to the highest bidder the whole of such lands, having been assessed as No. 15 Lincoln Street and being row described by metes and bounds as follows: ALL that tract, piece or parcel of land situate, lying and being in the Common of Charlottetown and bounded and described as follows, that is to say: COMMENCING on the East boundary line of land owned by Owen Connolly, Esquire at the Northwest of a reserved plot of land, thence Northwardly along the said Owen Connolly's East boundary line for the distance of Ninety (90) feet or to the South boundary line of land in the possession of Daniel McKinnon, William John Fraser and Artemas Lord, thence Eastwardly along the last mentioned line for the distance of Eighty-six (86) feet, thence Southwardly by a line parallel to the Prince Town Road for the distance of Ninety (90) feet or to a certain Street thence Westwardly along the Street and the line of the reserved plot of land Eighty-six (86) feet to the place of commencement, containing Twenty one and Six-tenths (21 6/10) Perches of land a little more or less being Plots Numbers Ten and Eleven (10 & 11) as surveyed and marked out by Owen Curtis, Land Surveyor and delineated on the plan of the said Charlottetown Woollen Factory Company and annexed to the Deed dated the 15th day of June 1874 and made between the said Charlottetown Woollen Factory Company of the one part and the aforesaid Daniel McKinnon, William John Fraser and Artemas Lord of the other part and is part of Common Lot Number Twenty in the Common of Charlottetown.

DATED the 6th day of July A.D. 1962.

JOHN F. TOWNSHEND,
Sheriff of Queen's County.

STRAIGHT LINES GIVE PLEASING EXTERIOR





THE FLAT-TOP ROOF of this bungalow, designed by architect D.F. Plumton of Winnipeg, presents an interesting departure from the more conventional gabled-roof house. An overall pleasing effect has been created by the straight lines of the exterior design. With the living room at the rear where it overlooks and has access to the garden, the house should appeal to those who like privacy.

Both front and side entrances are protected from the weather. The side entrances from the carport lead directly into a family room adjoining the dining room and kitchen. The bedroom grouping along the whole depth of the house offers complete separation of living and sleeping areas.

The floor area of the house is 1,277 square feet with exterior dimension of 44 feet by 36 feet. Working drawings for this house, known as Design 2385, are available from Central Mortgage and Housing Corporation in Moncton at minimum cost.

FIRST AID FOR THE HOME

By ROGER C. WHITEMAN

STAINED SHINGLES

Question: The copper flashing of our dormers stained our asbestos roof shingles. There is also an overhanging tree which seems to have left a small stain; most of it seems to come from the flashing, however. How can we clean the shingles? Is there any way to paint the flashing to prevent further "running?"

Answer: The stain from the copper flashing can be removed by making a thick paste of one part sal ammoniac and four parts of whiting or other absorbing powder, moistened with household ammonia, and placing a thick layer of this over the discoloration. Several applications may be necessary for complete removal of a stubborn stain. Or dissolve sal ammoniac in household ammonia and apply with a brush; allow to remain a few minutes, then rinse off thoroughly with plenty of clear water. This may also remove tree stain. If not, try scrubbing with solution of half gallon of hot water, followed by rinsing with clear water; be sure to keep this solution from painted surfaces, as it will harm and soften paint.

If the copper flashing is properly weathered and tarnished (the greater the tarnish, the better paint will hold), it can be painted. First clean the surface with a wire brush or clean steel wool. Then apply a good quality lead paint in a thin, even coat; when thoroughly dry, apply a second coat. Be careful not to apply a zinc paint to copper because of the chemical reaction between zinc and copper.

BRICK PATIO

Question: We are planning to lay an 11 by 18 brick patio, and would like to know what literature is available on just how to go about it.

Answer: "How to Build Patios, Terraces, Walks, etc.," published by Fawcett Publications, Inc., Greenwich, Conn., is available at many hardware, bookstores, newsstands, or from the publisher, at 75 cents; it has a detailed section on brick patios, and their insiallations.

CASINGS SEPARATING

Question: Our home is four years old and we are experiencing separation on the casing of several of our windows from the sill; these are on the west side, above heat registers. The wood used is pine. What can be done about this?

Answer: The separation is probably due to wood shrinkage, especially since it occurs above registers. Fill the separation with caulking material, applying it with a caulking gun.

WINDOWS CANT OPEN

Question: Last November I painted my outside windows and placed my aluminum storms back. Now I can't open my windows. What can I do? I tried oiling the sides, but it doesn't work.

Answer: The paint film must be broken. A serrated, heart-shaped, small tool for this purpose is available at many hardware and point dealers; merely run it along between sash and frame to cut the "stuck" edges of paint.

CHIMNEY PAINT PEELING

Question: We prefer a painted chimney to blend with our house color. But the paint peels off the brick after a few months. We use a good quality house paint. What do you recommend?

Answer: Moisture may be penetrating the brick by seepage through mortar cracks or through the chimney top. Have a mason or chimney man carefully inspect the mortar joints and capping for water-tightness.

Or the wrong type of paint may have been used; use a good quality brick and cement coating, or a plastic alkyd type paint suitable for use on exterior masonry, brick and wood surfaces; always follow directions on the container carefully. First remove the present paint down to brick surface, with sand blasting or a prepared paint remover, according to manufacturer's instructions.

LAUNDRY CHUTE PLANS

Question — In remodeling our home, we want to put in a clothes chute to the basement. I have inquired all over and it seems impossible to buy a unit. How do I make one?

Answer: Dealers of hardware and building supplies carrying do-it-yourself aluminum may have plans available for making a laundry chute. If not, write to Reynolds Metals Co., 19 East 47th St., New York, N.Y.; a description of this item is in their Project Book No. 1.

DETERMINING RADIATION

Question: What is the formula for determining the amount of heat radiation necessary in rooms? The house has a steam system, oil fired.

Answer: The base formula allows one square foot of radiation for each two square feet of glass; one square foot of radiation for each 20 square feet of exposed or outside wall, and for each 20 square feet of cold ceiling; and one square foot of radiation for each 200 cubic feet of room contents. This is increased by 25 per cent for a northern exposure; climate, house construction, etc., cause other variations.

ACCOUNTANT SUCCUMBS

MONTREAL (CP)— T. Vincent Burke, 61, former president of the Institute of chartered accountants of Quebec, died suddenly at his home Friday of a heart attack. A native of Ottawa where he received his early education, he was a frequent lecturer at McGill University. He was a former governor of the Quebec Hospital Association and the Canadian Tax foundation.

N.Y. Stocks Were Strong During Week

NEW YORK (AP) The stock market last week reached its highest level since immediately after the May 28 sell-off. Volume was almost one - third higher than the previous week.

Only on Thursday, when profit-taking set in, did the list fail to advance. Prices closed at the highest of the week for the third gain in the last four weeks.

Measured by The Associated Press 60-stock average, the advance of five points was the best since July 2-7, when the gain was 5.4 points. This average closed Friday at 222.9 the highest since 225.4 on June 1.

The Dow Jones Industrial average broke through a barrier on Tuesday—the psychological and technical wall created by the 600 level. Once past that point, "the magic wand of 600," as one broker called it, helped prices to move higher.

REACHES HIGH LEVEL

This average closed the week at 610.02, its highest since 615.68 on June 1. The gain for the week was 17.7 points. Wednesday's gain was the best for any day since July 2.

Also helping the market were President Kennedy's sizeup of the U.S. economy and the market on Monday night and a number of higher economic indicator for July.

Although the market had anticipated there would be no tax cut this year the president's report was considered reassuring and cleared the air.

Among the U.S. economic indicators pointing upward for July were: A record in the federal reserve board's index of industrial production, a second-quarter increase in gross national product, higher cash dividend payments than a year earlier and higher new orders and sales by durable goods manufacturers.

Detroit News Gives Uplift To Steel Mills

CLEVELAND (AP) — Steel producers are getting good news these days from Detroit.

Automobile manufacturers, the steel industry's biggest customers, are encouraged by excellent sales in July, and are increasing their estimates of the number of cars they'll build in this year's fourth quarter, Steel magazine reported Saturday.

The trade publication said there is a good chance at least 1,800,000 cars will be built in the fourth quarter, and some optimists in Detroit are forecasting 1,900,000 units. That would be the second highest total for any fourth quarter in automotive history.

Steel said the estimated 960,-500 cars in hand at dealerships Aug. 1 amount to 47 days' supply and is the lowest in terms of supply since 1957.

Steel reported an improvement in orders for finished steel last week, noting that although the gain was slight it was widespread. Ingot production was up slightly also at 1,600,000 tons for the week just ended. This was 1.4 per cent above the preceding week's total, bringing operations to the highest level since May.

MARKSMEN MEET ROUGH GOING

Marksmen competing in the army rifle matches at Connaught Rangers near Ottawa wing over an obstacle in one of the more grueling events. The soldiers must run 100 yards over and under obstacles firing at 15 targets—all in 75 seconds.

Gov't Austerity May Keep BBG Members Down To 12

By DON HANRIGHT

OTTAWA (CP)—Government austerity may keep the working membership of the Board of Broadcast Governors down to 12 men and a women.

Appointments of two new part-time members to bring the regulatory board up to full strength of 15 are considered unlikely by qualified observers here at a time when all federal departments and agencies are being asked to trim their budgets.

Three of the BBG members are full time and draw salaries. The 12 other serve on a part-time basis and get $100 a day for attending BBG public hearings and in - camera meetings, as well as expenses in travelling to and from Ottawa..

It has cost up to $6,000 a year to maintain a part-time member. The BBG has a budget this year of $364,100.

TWO MEMBERS QUIT

Two months ago, part - time members Dr. Eugene Forsey of Ottawa and Professor Guy Hudon of Quebec City, stepped down in protest over the board's decision not to recommend a license right away for the CBC to set up a second French-language television station in Quebec City.

The board turned down one private application for the license and set the CBC bid over to a subsequent hearing. Meanwhile, the CBC itself has been also hit by austerity and probably could not build the station even with the BBG's backing.

At BBG hearings here this week, the CBC said in connection with several other proposals it may not be able to proceed until public purse strings are slackened with the end of austerity.

Meanwhile, there was some doubt in broadcasting circles here whether Dr. Forsey and Prof. Hudon have in fact ceased to become members of the BBG. Both resigned in writing to the government June 8.

Dr. Forsey said Friday he has no idea whether his resignation has been accepted. If the government had sent him an acknowledgement of his letter, it had not reached him.

URBAN GROWTH

In 1920 the United States census recorded for the first time a population predominantly (51.2 per cent) urban.

ROLLO BAY

Mrs. Dorothy MacPherson and Mrs. Angus L. MacPherson, St. Georges, were Sunday visitors to Rollo Bay.

Mr. and Mrs. Jerome F. Chaisson and son Michael, Dartmouth, were recent visitors to Rollo Bay.

Miss Marilyn Peters, Rollo Bay, is visiting relatives in New Hampshire and Brighton, Mass.

Mr. Leo Mahar, London, Ont., recently visited relatives in the Rollo Bay area.

Miss Edwina Peters left by plane on Saturday on return to Montreal after spending her vacation with her parents at Rollo Bay.

Miss Kaye Peters, RN, and Miss Flora Peters, RN, of Montreal, are spending their vacation on the Island.

Mr. and Mrs. Dominic Orricio of the United States are spending their holidays with relatives at Souris West and Rollo Bay.

LAUNCH ATTACK

SAIGON (Reuters)—About 30 Communist Viet Cong guerrillas were reported khya Tadrudiel were reported killed Thursday as South Vietnamese Government forces mounted a large-scale airborne attack against guerrillas in Anxuyen province
