Hoffa Critical Of JFK Tactics

SAN FRANCISCO (AP) — James R. Hoffa, president of the Teamsters Union, has accused President Kennedy of using police-state tactics to freeze workers pay scales at less than a living wage.

Hoffa also said Kennedy is trying to cripple the labor movement and that the Teamsters are going to organize politically to do something about it.

The union can muster 4,000,000 votes for the 84th presidential election, Hoffa claimed. It would do so through the proposed political arm of the teamsters — DRIVE — Democratic, Republican-Independent — or Education.

DRIVE's purpose, said Hoffa, is to weld Teamsters and their families into a solid bloc for local, state and national campaigns.

Hoffa said DRIVE would not be a third, or labor party. He added that he had no plans to run for political office himself.

Lacin Premier-designate Prince Souvanna Phouma has indicated he thinks the new leftist-right coalition government agreed on in last week will have its delegation ready by that date.
