NEW YORK, Aug. 23.—A World's special from Parkersburg, W. Va., says: "The Rev. H. H. Burgoyne, aged 60 years, a highly respected Methodist minister of Huling county, was murdered yesterday. Coleman Pitzer, a young laborer, was charged with the deed. Pitzer was committed to jail at Parsons and today made a confession charging his brother Lewis with the crime. Coleman held a bill against the Rev. Mr. Burgoyne. He asked the aged preacher to pay it, and when the latter said he had no money and asked Pitzer to wait, he was assaulted by the Pitzers with stones, one of which struck him on the back of the neck, breaking it."

SUNNYSIDE,

tary operations at three points on the Indian frontier, as well as in the Soudan, Matabeland, Basutoland, Bechuanaland and Crete—no small list for a nation, the echoes of whose Jubilee celebration of peace have hardly died away. Grave as the news is from India, there is a comforting absence of alarm at most of the anxiety in well informed circles. This probably arises from confidence in what Lord Roberts calls England's magnificent fighting stuff in Indian. Musslemans, Sikhas and Gurkhas, commanded by highly experienced officers, Sir Biddon Blood's complete defeat of the tribesmen in the Swat valley goes to confirm this confidence. Already well informed men talk of the back of the rising being broken. The worst feature of the situation is the growing suspicion that the Ameer, though living on an English subsidy, is now faithful to England. Things must have reached a grave pass when the commander-in-chief in India, and a possible future Viceroy, throws aside his political reserve to tell a newspaper, as Lord Roberts told the Chronicle on Thursday, that he suspects the Ameer of secretly encouraging, or at least not disapproving of the risings. Still these suspicions hardly disturb the optimism of Indian exports.

FORT WAYNE, Ind., Aug. 23.—A Lake Erie and Western freight train ran into the Lima northern excursion train at Lima, Ohio, last night, at the junction of the Lima Northern and Lake Erie and Western Railway. Neither train stopped at the junction, the Lake Erie engine dashing into the second coach, overturning it. It was filled with passengers, thirteen of whom were more or less injured. There were no fatalities. The engine was sent into a wheat field fifty feet from the track.

LONDON, Aug. 23.—The Times' correspondent at Simla says that good rains have fallen everywhere throughout India, except in the districts of Bombay and Decon, and the crops promise to be exceptionally large. The numbers on the relief list are steadily diminishing, and evidences of famine are rapidly disappearing.

SAN FRANCISCO, Aug. 23.—Princess Kaiulani, who has just attained her majority, will return to Hawaii in October, after an absence of one year in England and on the continent. She has hopes of being made queen of the present island republic, if annexation fails. The princess will arrive in New York from England about September 25th. She probably will remain for a short time in this city, visiting with the ex-queen, who is residing here. Kaiulani's father will accompany her.

OTTAWA, Aug. 23.—A telegram from the coast says a party of miners who left Dawson City on July 3rd arrived in Victoria yesterday. When they left Dawson provisions were very scarce. Mining is practically closed down for the season, owing to the lack of water in the gulches. About 4,000 men are in camp at Dyea and Skagway, unable to proceed on account of the condition of their outfits, and return. Very few will get through to Dawson this fall.

AMHERST, Aug. 23.—A protest has been filed in court here against the return of Dr. Patrick Peter D-laney, who defeated Charles Marcell by 60 votes in the election of July 3rd last for the Legislature. Mr. Nazaire Olivier, of Quebec, is the petitioner's counsel. The usual charges are made against the member-elect and some of his agents.

BERLIN, Aug. 23.—A despatch to the Koelnische Zeitung from Madrid says that Italy, Austria, Russia and Germany have accepted the proposal of the Spanish Government to adopt international measures against anarchists, the chief of which will be the establishment of a penal colony for the life detention of dangerous anarchists. France has not replied to the Spanish note. It is expected, says the despatch, that the United States, Great Britain and Switzerland will refuse to cooperate.

LONDON, Aug. 23.—A despatch to the Pall Mall Gazette from Paris, printed this afternoon, says: "There will be no reduction in the tax on imported wheat and flour. The reply of the Government to the representations on the subject says the temporary scarcity of wheat in the French market is owing to the bad harvest and that so soon as the American and Australian wheats arrive in French ports the situation will change."

A MODERN GARROT.

How a Poor Blind Girl was Almost Tortured to Death.

NEW YORK, Aug. 23.—The horrors of a modern garrot have been experienced by Annie Feinglass, a blind girl of Williamsburg. While she stood in the shadow of death suffering from a chronic disease, Siegfried Reubel, a Spanish-American and a quack doctor, hearing of her illness, went to her parents offering to cure her. Believing that he could, they consented to accept his services. He took the delicate girl, put a great iron band on her head, attached thumb screws to it so that the torture might be increased and then went away and never returned. Before he left he gave instructions to the parents that at certain periods the thumb screws were to be tightened. Blind with water on the brain and a tumor in the head, the poor child suffered untold agonies. Vainly did her weak hands try to tear off the iron bands, and the illiterate parents under the belief that to follow the doctor's instructions would cure her, for forty-eight hours, at certain periods, screwed tighter the band of iron that ate slowly into the delicate flesh. They sat looking at her in her terrible agony believing her cries from pain were but a part of the treatment of the "doctor." They saw the flesh slowly lap over the edges of the band, creeping over the top and resting on the outside of the iron. After two days the father could stand it no longer. He unloosened the thumb screws and tried to tear off the band, which would not come off, as it was embedded in the flesh. Neighbors were called in and the poor lac-ra'ed head had to be soaked in warm water before the torturous instrument could be pried off.

Terrible as it may seem, the parents eyes were still unopen to the fact that a quack doctor had treated their child. A neighbor called in a regular doctor. He was horrified at the brutal treatment and advised the parents to have "Dr." Reubel arrested. It slowly dawned upon the parents what sort of a "doctor" Reubel was, and the father started out to kill him but he could not be found. He finally went to Justice Teals of the Lee avenue police court and told the facts in the case. The judge advised him to take out a warrant for Reubel's arrest simply for practicing without a diploma. The serious part of the case would come later.

Reubel was a rested and pleaded for the mercy of the court. Reubel will give no explanation because he does not know other serious charges are behind his nominal arrest for practicing without a diploma.

KLONDYKE.

Montreal-London Gold and Silver Company.

In another column of to-day's Examiner will be found the advertisement of the Montreal London Gold and Silver Development Company, Limited, which has been formed for the purpose of acquiring and working claims in the golden north. This company, we understand is the first syndicate formed in Canada and already they have despatched an expedition to the gold fields of the Klondyke. The Company has among its officers and directors some of the leading men of Canada and has been doing a rushing business. According to the Montreal Star \$300,000 is understood to be now subscribed. The object of the expedition sent out a short time ago is to explore and locate claims in the Klondyke and the tributaries of the Yukon and mine them, and also to buy up desirable claims. The Company's engineer, Mr. Bernard McDonald, is a man of 25 years experience among the mines of America, and he is admitted to be at the head of his profession. It is now conceded that the Montreal London Company is the strongest and most legitimate mining company operating in Canada. Messrs. Clarence J. McCuaig & Co., Brokers, of Montreal, are the managers of the company. For further particulars apply to Mr. James J. Johnston, Barrister, Charlottetown, who is the agent for P. E. Island.
