

# School Tax System Is Termed Burden

Immediate measures will be taken by the new Liberal government of Alex Campbell regarding the complete and absolute abolition of all property assessment for school tax. Under the present administration the whole system of school tax has become an intolerably oppressive burden that has too long gone ignored," Don Anderson and Frank Sigsworth, Liberal candidates in Second King's, told a Liberal meeting at the Community Hall in Morell last night.

"Like so many other long-sought-after reforms in our provincial financial structure, school taxes could have been abolished during the present government's tenure of office to the relief of the taxpayer," Mr. Sigsworth emphasized. "The Tories had their chance," stressed Mr. Anderson, and did no more than preside, for some seven years, over an unprecedented rise in school tax that approached the absolutely tyrannous. The new Liberal government of Alex Campbell will take immediate steps to relieve the people of this oppressive tax burden they now shoulder as a result of what cannot be other than the inefficiency and ineptitude of the present administration, both Mr. Sigsworth and Mr. Anderson affirmed.

# Governments Blamed For Copper Chaos

ANACONDA, Mont. (AP)—Government intervention is partly to blame for a chaotic price situation in copper, President C. Jay Parkinson of the Anaconda Company told stockholders here.

"The United States is seeking to keep prices down in an effort to halt inflationary pressures," he said in his statement. "At the same time governments of developing countries like Chile, Zambia and the Congo are seeking to push prices beyond profit limits and thereby increase their supply of hard money."

As a result, he said, "producers of copper no longer control the price of their product."

Copper prices in the world range from a low of 36 cents a pound by U.S. producers to nearly \$1 on the London Metal Exchange early in April.

Parkinson referred to a U.S. government's roll-back by persuasion last November to 36 cents a pound from 38 cents a pound for copper and said:

"If the United States government had permitted the price of copper to seek its normal level, it is our belief that considerable speculative activity would have been eliminated or diminished, some additional copper from segments of existing mines could have been brought to market and some additional copper would have been imported into the United States."

Parkinson said Anaconda plans to increase its copper production by more than 50 per cent in the Western Hemisphere in the next five years, and that when its projects in Canada, South America and the western United States are completed, Anaconda will be capable of producing 900,000 tons of copper annually.

# Harry Gold Is Free Again After 16-Years For Spying

By LEE LINDER  
LEWISBURG, Pa. (AP)—Harry Gold, first American convicted of atomic spying, was released Wednesday from Lewisburg penitentiary after 16 years in prison.

He said in an interview later that he had told the U.S. government "everything I knew" who gave secrets to the Soviet Union.

"I wiped the slate as clean as I could after I was arrested (May 1950)."

"I've done the very best I could do to atone. And now I'm looking forward to the future."

The Philadelphia bachelor, 55, convicted of transmitting nuclear secrets to Soviet agents during and after the Second World War, was sentenced to 30 years, the maximum under the espionage law, short of death. He'll complete the final 14 years under parole.

When Gold was seized in 1950 he had thick black hair, and weighed 190 pounds with a 41-inch waist. Today his hair is thin and grey, his weight is down to 125, his waist is 31 and he wears spectacles.

"One of the reasons I got into trouble was my inability to say sense of a poor innocent lamb to anyone," said Gold. "But I was not misled in the least."

# DAILY CRYPTOQUOTE

Here's how to work it: **AXYDLBAAXE** is **LONGFELLOW**

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation  
**ENJOTLRC LV RNOLRY AKO OBC**
