THE LEGISLATURE.

LEGISLATIVE COUNCIL DEBATES.

WEDNESDAY, April 13th. MORNING SESSION.

Mr. MACKENZIE presented a petition from certain inhabitants of Lot 20, asking for an Act of Incorporation for a public hall, at Park Corner. The petition was read and laid on the table.

Mr. NICHOLSON asked the Leader of the Government to lay on the table of the House copies of Tenders received for Packet Service between Charlottetown, Wood Islands, Belle Creek, Flat River, and Finette.

Also a statement in detail of the sum of \$257.88 expended on Acorn's Bridge, Queen's County, stating whether said work was let by public sale or done by day's work, the names of all persons engaged on the work, the wages paid per day to each, the name of Inspector and his daily wages, the price paid for lumber and to whom given.

Hon. Mr. LAIRD—I will have the statement prepared with all possible speed and laid on the table.

House in Committee on the further consideration of the bill to be intitled "An Act to Incorporate the Farmers' and Dairyman's Association of Prince Edward Island."

The ninth section was amended by fixing the second Tuesday in July for the annual meeting.

Another clause was agreed to. The President took the chair and the Chairman reported the bill agreed to with amendments.

Ordered that the said bill be engrossed and be read a third time to-morrow.

Act Respecting the Legislature

On motion of Hon. Mr. Laird, the Bill to be intitled "An Act respecting the Legislature" was read a second time.

Hon. Mr. LAIRD.—In rising to move the House into committee of the whole to take the said Bill into consideration, I will be expected to say a few words in explanation of its provisions; but as the Bill has been before hon. members for some time in printed form, there is no necessity for more than a brief explanation. This Bill contemplates a change in the Constitution of the Province. For a long time we have had two branches of the Legislature in this Province—a House of Assembly and a Legislative Council.

At one time this House was nominative; its members were appointed by the Governor in Council; but as time advanced a change was considered necessary, and the power was taken out of the hands of the Government and placed in the hands of the people—a quite a democratic movement. The first Bill passed by the Legislature to make this House elective placed a very high property qualification on the candidate, and no qualification on the electors; but when the Bill was sent to the Colonial Office in London, the Colonial Minister, after due consideration, advised that a mistake had been made, that providing for a large property qualification did not ensure wisdom in the candidate, and he recommended that the property qualification should be vested in the electors, and none required of the candidate. It is well known that the House of Lords in England represents the land owners, and here the land owners are the owners of the farms through the country. The Colonial Minister recommended that the people should be allowed to choose their representative from any class they liked, and this recommendation was adopted by the Legislature of this Province—the qualification was placed on the electors and they were allowed to choose a wise man wherever they found him. I think that change was justifiable and I maintain that this body—the Legis-

lative Council of this Island will compare favorably with any Legislative body in the Dominion, ever since it became elective. At the present time, the circumstances of the Province call for further changes in our Constitution. Probably I voice the opinion of nearly every hon. member around this board, when I say that this change should have taken place immediately after we joined the Dominion. At that time there should have been a reduction in the representation of the Province in the Local Legislature for there was not much increase in the population and we had ten representatives in the Dominion Parliament where a considerable part of the legislation was done which formerly occupied the attention of our local Legislature. We had a few thousand dollars to our credit at that time and the people foolishly imagined there would be no end to this little surplus, so they retained the two branches of the Legislature and the funds of the province were lavishly spent, and no provision was made to keep up this expenditure. I am not going to put the blame on either of the political parties, both were to blame. The system went on until now we are compelled by the force of necessity to economise. It is derogatory to our ability that we did not economise until forced to do so by stern necessity, but a scheme has been devised this session whereby a saving will be effected of something like \$5,000 a year. This is not much compared with the amount of our deficit, but if we could devise a scheme every year for 10 years to reduce the expenditure by \$5,000, it would be possible then to make ends meet. It is not however, possible to reduce our expenditure very much, if we keep up our present system of paying for education and the road service, but in the meantime the reduction to be made by this Bill is a step in the right direction, and it may be the beginning of an era of economy. The system to be adopted whereby this saving is to be effected is now before you, a measure for condensing or reducing the legislative power of the two Houses of Legislature into one, and retaining all the rights and privileges of the people which they now possess as far as it can possibly be done in one House. When the numbers will be reduced we have a right to anticipate that the standing of the men will be of a higher order and the successes which follow their efforts be greater than in past legislation. It has been said that we are disfranchising a certain part of the population who will be the lawmakers of the country in a few years. Well, your honor, I fail to see how any class in the community are going to be disfranchised under this Bill. At present the franchise voters are allowed to vote for two men for the House of Assembly, and the property holders can vote for four—two representatives for the House of Assembly and two for the Legislative Council. Now the whole number is to be reduced, and the franchise voters are to be allowed to vote for one and the property holders for two candidates. At present, the members of this House are practically debarred from discussing important measures until after they are passed by the House of Assembly, but under the new system from the first inception of any measure, the representatives of the property holders will be on a level with the Assembly men, and if it should happen that any bill infringed their constituents rights, it would be their duty to oppose it. I believe the representatives of property holders will be found true to the men they represent and will sacrifice Party interests to preserve the rights of their constituents. With these safeguards and the well known ability of our people to make a wise choice of representatives, I believe the country will be governed as well as in time past. This Province stands unrivalled in its success as a self-governed province, and our laws will compare very favorably with the laws on the Statute Book of any province of the Dominion. Our people are law abiding, and will in the future as in time past show their wisdom in selecting representatives worthy of them and who will make laws for the benefit of the country at large.

Mr. CAMPBELL.—His honor the Leader of the Government thought there was no explanation needed with regard to the Bill, that it explained itself; but there was something else I expected his honor to explain, and that is the remarkable change that has come over his views respecting this matter within a few years. The hon. member gives us one reason for introducing this Bill—that is Party expediency—that is the only reason given for making a change in the constitution, the most important measure that has come before us for many years. Had I stood in his place I

would have had no excuses to make for introducing a bill of this kind for I have been in favor of reducing this Legislature to one branch ever since I had the honor to represent a constituency. This House was originally established to protect the rights of the proprietors against the Legislature of the popular branch of the Legislature, and as soon as the Land Question was settled then the functions of this body should have ceased and the expenditure in connection with it ceased. That was the principle I laid down in 1863, the very first time I had the pleasure of contesting an election, that when the proprietary system ceased this council should have ceased also. His Honor the Leader of the Government told us the abolition of this House was a necessity, and if so, it was a fortunate thing that we have but a change of Government, for had the Liberal-Conservative party remained in power this House would have opposed any measure they would frame to carry out this much needed reform. Hon. members would have declared the rights of property holders were in danger, and would have found some excuse for opposing any measure brought in by the late Government. I wish to review the Legislation of this body since 1879 and show you the course which has been pursued by hon. members around this Board, and I will make it plain that instead of being a protection to property holders, they are responsible for the deficit. Had the Sullivan Administration been allowed to carry out their legislation instead of being thwarted by this House, we would have had no deficit. A message from the House of Assembly by Mr. Clow, with a bill to be intitled "An Act to incorporate the Murray Harbor South Public Hall Company."

The said bill was read a first time and ordered to be read a second time to-morrow.

A PRIZE PICTURE PUZZLE.

The above picture contains four faces, the man and the three young ladies. Anyone can find the faces, but it is not so easy to distinguish the faces of the three young ladies. The proprietors of Ford's Prize Pills will give an elegant Gold Watch to the first person who can make out the three ladies' faces; to the second will be given a pair of genuine Diamond Ear-Rings; to the third a handsome Gold Watch; to the fourth a pair of genuine Diamond Ear-Rings; to the fifth a pair of genuine Diamond Ear-Rings; to the sixth a pair of genuine Diamond Ear-Rings; to the seventh a pair of genuine Diamond Ear-Rings;
