Don't Stuff a Cold.

If you do you will, nine times in ten, have a fever to starve. A cold is a shock received by the myriad nerves that bristle near the surface of a human body. This shock is transmitted to the nerve centres, and then back to the mucous membranes, forcing a great amount of blood to those membranes, creating a more or less severe irritation, and consequent rise in the temperature, followed by chills. Excess of food in the stomach still more increases the temperature; and, worst of all, helps clog the secretions or natural outlets of the body. It is high time we broke away from an old notion which, like some others, has done more harm than good. For example, in years past how many poor fever sufferers, burning with an internal fire and thirst, were hurried to an untimely grave because not allowed cooling drinks or a bit of ice by the old time treatment for fevers, as foolish as the adage for fools. At last one cunning delirious patient got to a pump of cold water and drank his fill; determined not to leave until the well ran dry, he slacked the fever, recovered, and doctors learned a lesson. Experimenting with a severe cold is a dangerous custom, as most persons try one remedy only until some friend suggests another "sure cure," as Mark Twain so humorously describes. When slight hoarseness or tightening of the nasal membranes warns one of a skin exposure or chill from wet, act promptly; a delay is dangerous. With children it may mean croup and strangulation; with adults, catarrh, bronchitis, perhaps pneumonia. If neglected, nothing can prevent the sneezing, red nose and woe begone look of a person with a cold. Scores of mothers would as soon go to bed without matches in the house as without that old-fashioned remedy, Johnson's Anodyne Liniment, near at hand for croupy children. Used with a mild laxative, as described in a pamphlet which I. S. Johnson & Co., Boston, Mass., will send free to anyone. Johnson's Liniment will cure a cold for adults quicker than any known remedy. A mild, nutritious diet, a gentle physic to open the secretions, and a bottle of that old Anodyne from your druggist, will conquer any cold. Johnson's Anodyne Linimentwas originated by an old famly physician m ore than seventy years ago.

The Yott Case.

KINGSTON, May 22.—The big ferry steamer Pierrepont has carried many a visitor to Wolfe Island recently to interview Mr. L. Yott, a farmer of that Island whose wonderful cure by Dodd's kidney pills was recently published in these columns.

The publication of so many marvellous cures had already excited much interest in this community, and now that we have proof of what has been said of this remedy at our very doors it is taked of on all sides. Mr. Yott's case was one that had excited the pity and anxiety of everyone for many years, and now that he is well and strong the people are not only much gratified with the result, but interested in the incontestable proof that Dodd's kidney pills certainly strike right at the seat of the diseases for which they are recommended, and are certain in their results.

Twin mules are claimed to be owned by a Platte City, Mo., man. Twin mules are of rare occurrence.

Don't Wait for the Sick Room.

The experience of physicians and the public proves that taking Scott's Emulsion produces an immediate increase in flesh; it is, therefore, of the highest value in wasting diseases and consumption.

In New York the average number of persons to a dwelling is eighteen and a half.

MRS. J. E. SNOW, Matron Infants' Home Halifax, says: "Puttner's Emulsion has proved valuable in all cases of pulmonary complaints, for building up the system of our little ones. They often ask for it."

People never think of whistling in Iceland. It is a violation of the divine law.

Confirmed.

The favorable impression produced on the first appearance of the agreeable liquid fruit remedy Syrup of Figs a few years ago has been more than confirmed by the pleasant experience of all who have used it, and the success of the proprietors and man facturers, the California Fig Syrup Comuany.

Why you take Cold and Cough.

Generally caused by exposure to cold, wet feet, sitting in a draught, coming from hot and crowded places, in thin dress, or wearing damp clothes, stockings, or any other cause tending to check suddenly the perspiration. The result produces inflammation of the lining membrane of the lungs or throat, and this causes phlegm or matter, which nature tries to throw off by expectoration. In many cases she is unable to do so without assistance, and this is

Why you use Allen's Lung Balsam.

DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

AWFUL HEADACHES.

2 YEARS OF SUFFERING.

LIFE A TORTURE.

Kendrick Outhouse, of Tiverton, N. S., says: For several years I suffered from severe attacks of biliousness, which came on periodically, about every ten days. I had *awful headaches* and the smell of anything cooking turned me sick. I became *weak and nervous*, and had no ambition or strength to work. I passed *many sleepless nights*, and for days could not retain food on my stomach. I suffered intensely with piles and hives, and my life was a *constant torture* to me. I became so weak that my friends *gave up all hopes* of my recovery. My brother brought me a bottle of

HAWKER'S NERVE AND STOMACH TONIC, and a box of HAWKER'S LIVER PILLS.

I had not taken them long before I commenced to improve and in a short time I was *completely cured*. I grew *strong and vigorous*, my appetite returned, I *slept well* and in a few months had *gained 30 pounds* in weight. I have not suffered from piles or biliousness since, now 2 years, and am as *strong and hearty* as any man could wish to be. I firmly believe that

The Telephone Company

—OF—

P. E. ISLAND.

PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules:—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the telephone so as to cover the ear just as if you wished to shut out all other sounds. Do not press too hard on the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.
