BY SPECIAL APPOINTMENT, SOAP MAKERS TO HER MAJESTY THE QUEEN

If you wish your Linen to be White as Snow, Sunlight Soap will do it.

Why,

Because SUNLIGHT SOAP is perfectly pure, and contains no Injurious Chemicals to injure either your clothes or your hands. Greatest care is exercised in its manufacture, and its quality is so appreciated by the public that it has the Largest Sale of any Soap in the World.

How

Can you test this? If you have never tried SUNLIGHT SOAP, ask those who use it what they think of it, then try it for yourself. The result will please you, and your clothes will be washed in far less time, with Less Labour, Greater Comfort, and will be whiter than they have ever been before, when you used ordinary soap.

Is That

not the best way to decide the matter? First by enquiring what the experience is of those who already use it. Secondly, by a fair trial yourself. You are not committed in any way to use the soap; all we ask is: Don't Delay, try it the next washing day.

GRATEFUL, PLEASING RELIEF AFTER MANY DAYS.

How a Queens County Man Found Permanent Healing.

His Own Experience Tells Fully and Freely some Truths which all Readers of this Paper Should Know.

Here and there, in almost every town of our province, are "chronic" cases over which doctors disagree; cases that become worse year after year. It is to reach such that the gentleman to whom these lines refer, and whose portrait is here given, has written the story of his case.

Mr. Branscomb's home is in Chipman, Queens Co., N. B. It was there that a representative of the Groder company called upon him, Sept. 1st, of the present year. His greeting was most cordial. He gladly acknowledged his thanks, giving expression to the following statement:

"It is five years since I first became afflicted with a form of indigestion Last winter it became more severe, developing into chronic diarrhœa I cannot tell you how much I suffered for SIX LONG WEEKS. It seemed as though relief could not be found You will remember how I told you of my condition and asked your advice about taking a bottle of GRODER'S SYRUP You told me that the medicine was a laxative and might not meet my needs. I delayed buying for a few hours until I began to hope that it would help me Even my clothes seemed a burden because of bloating of stomach It was with difficulty that I kept about sufficiently to attend to my business.

But I am a well man now from the use of your remedy. In three days after I bought GRODER'S SYRUP the terrible pain and distress across my stomach were removed. My bowels rapidly assumed a natural, healthy condition. Now I eat and drink as well as I ever could. I have gained constantly in flesh since March last. I am perfectly cured.

It seems a duty for me to state my case fully, that others who suffer as I did may know where to find a cure."

Truly yours,

E. A. BRANSCOMB.

Deservedly Popular.

Our readers have no doubt read with interest the despatches almost weekly appearing in this and other Canadian journals regarding cures of a most startling nature made by Dodd's Kidney Pills. These pills have proven themselves to be a certain cure for all diseases of the kidneys and blood, such as backache, rheumatism, Bright's disease, diabetes, dropsy, etc.

Enquiry amongst local druggists elicits the facts that they have a very large sale and are an infallible cure for kidney disorders.

Dodd's Kidney Pills are manufactured by Dr. L. A. Smith & Co., Toronto, and are sold everywhere, or by mail on receipt of price, 50 cents a box, or 6 boxes for $2.50.

CAPTAIN JOHN R. HIRE, of schooner Lillian, says: "I was suffering with inflammation of the chest, brought on by exposure at sea. Took a good supply of Puttner's Emulsion, which perfectly cured me. It has given me a new set of lungs.

Dr. Chalmers, Veterinary Surgeon, M. R. C. V. S., says: "I used Dr. Manning's German Remedy for neuralgia. It cured me on first application. I have never used anything to equal it. Have made other uses of it and find it excellent.

SKIRTS AND LINING.

A PLAIN TALK BY AN EXPERT IN DRESSMAKING.

Practical Hints for Women—Two Little Rules With Respect to Winter Skirts—The Number and Place of the Seams

"How many seams do you intend making in my skirt, and where will they be placed?" was last year the invariable question asked by every fashionable woman of her dressmaker, before giving her order for a gown, and it was important for the welfare of that dressmaker to be able to suggest the employment of a number of seams placed in unheard-of positions, or else her pretty client would without doubt have gone off to a house where the milliner was possessed of a more vivid imagination. This anxiety, writes C. de Broutelles in Fashions of To-day, lasted for a year, and the poor dressmakers were at last quite at the end of their resources; they had tried everything. After having multiplied the seams and cut the skirts in tiny widths, gored on either side, some genius invented the famous seamless skirt. This was closely followed by the "Anne of Austria," and the skirt composed of two widths joined in the center of the back and front. Then they went back to skirts composed of three, five and six widths, and seams were made across, around, vertical, and I know not what.

TWO LITTLE RULES.

For those sensible women who do not love to be perpetually modifying the form and cut of their gowns, I have a very good piece of news. It is that the winter skirts will have but a secondary importance, and I think it is safe to prophesy that they may be made according to the wearer's fancy, just keeping in mind, however, two little rules: 1st: that the width at the bottom be about four yards; and, 2nd, that for the street there shall be no train.

AS TO THE SEAMS.

As to the number and place of the seams, any number or none will be equally permissable; it will be quite useless, though, to seek anything very novel, for every novelty was brought into use last year, and one would be sure to fall back upon one of those combinations.

AS TO LINING.

It is also left to our choice whether our skirts be faced with lining, or made on an under-skirt. Both systems have their partisans, and it seems to me that both are useful in their place. A faille lining gives support and strength to thin silk, while for a thick woollen costume it is less clumsy than an underskirt and far easier to hold up; on the contrary, a dress of light wool crepon or veiling or a gauze, tulle or lace dress, looks prettier when made over an under-skirt, for the beauty of these materials is taken away when they are lined, as they ought to fall freely to be seen in their natural soft pleats.

HOW TO MOUNT A SKIRT.

The little darts by means of which skirts have been adjusted to the waist for some time past, are now as far as possible avoided, and the fullness over the hips is obtained by slightly gathering the material in front and at the sides. The best way of mounting a skirt in this way for those who have not had much experience is to prepare a band, covered with a piece of material, and put on the hooks and eyes at a sufficient distance from the ends to allow them to cross about an inch at the back, and then either place the band round the waist of the person for whom the dress is intended, or else on a dress stand made exactly to the figure. The skirt should be carefully pinned on to the band, allowing sufficient fullness so that it may not drag.

When a thread has been run through the fullness to draw it into position, the skirt and band may be sewn together with confidence that the former will hang well. This precaution, of course, would be needless for a professional dressmaker, but if an inexperienced person neglects it, she will not impossibly have to wear a skirt which drags on the hips and falls in at the bottom in front, a fault which will completely spoil the prettiest dress. The skirt lining or under-skirt must not be gathered with the material, but should be adjusted with darts, and any skirt to be worn under a bodice, with basques should be arranged in the same way in order to avoid any extra clumsiness round the waist.

WOMAN'S OWN DOMAIN.

Her Special World of Gracious and Pretty Things.

A very simple but effective way of decorating a room is to suspend from the chandeliers and from the curtain poles across doorways and arches the wire frames used to keep coats and cloaks in shape when hanging. To either end attach any receptacle for holding flowers—little wooden pails covered with birch bark, shells or wire hanging baskets, and fill with wet moss, vines and flowers, twining smilax over the handles to completely hide them.

How to Dust.

Dont take the duster and move the dust from the piano to the table, and the dust of the piano and the table to the desk, carrying the accumulation from one piece to another around the room. The girl who does this, says the New York World, finally tucks the dustcloth in a wad behind the bookcase. Shake the duster to free it from the dust of each single piece.

Stamps as Decorations.

The days when women tried to make rare pieces of pottery out of ginger jars, tiny scrap album pictures and varnish seem to be returning, with a slight difference. Plates are now the decorated objects and stamps the means of decoration. Rather a unique plate was seen with the heliotrope Columbian stamps pasted in fantastic patterns on a pale heliotrope background and then varnished.

To Edge China Closet Shelves.

That common cotton lace, such as can be found in the little fancy stores in German neighborhoods, makes a very pretty edge for china closet shelves, in place of the perforated paper or scalloped oilcloth usually used.

It is very durable, says The New York Recorder, can be washed many times, and does not encourage roaches, as I am told is the case with oilcloth.

Sordid Thought of a Laureate.

Lady Tennyson has always been a notable housekeeper. Early in his married life the late Poet Laureate said, jestingly, that should literature fail, his wife could keep the family from poverty by her culinary skill.—London Answers

He Was Convinced.

A man in Nova Scotia was in doubt as to the genuineness of the reported cure of Mrs. Bernard Maguire and ex-Councillor Lingley, of Petersville, Queen's Co., by a course of Hawker's Nerve and Stomach Tonic and Hawker's Liver Pills. He wrote to Squire Lingley, and that gentleman promptly assured him that the testimonials were genuine.

HUNDREDS of ladies in ill health have been or are being restored to health and strength by the use of Hawker's Tonic. It has become the great and popular family remedy.

FOR sick headace, sour stomach, loathing of food, dyspepsia or billiousness, take Hawker's Liver Pills. They will cure you. Recommended by leading physicians as a most reliable medicine.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

WHOLESALE AND RETAIL.

We intend making FLOUR one of our leading lines, and with that end in view we will keep in stock a full supply of the different grades, which we will sell FOR CASH as low, if not lower, than any other firm in the city.

The MATCHLESS Brand, of which we have just received a Carload, has greatly improved the past two months, and is now much better than ever before. This is owing to the fact that the proprietors have re-fitted their Mill with the latest improved and best machinery at a cost of over $20,000, and are using only the best No. 1 Wheat.

We have also just received a quantity of a lower grade of Flour which we are selling very cheap.

Every Barrel warranted to be as we say it is. Call and see our grades and give us a trial.

Boyesen, Alphonse Daudet, Camille Flammarion, Edward Everett Hale, Professor Graham Bell and many others, have furnished material for especially prepared interviews, which will appear fully illustrated in this magazine.

HENRY M. STANLEY will contribute, especially for young readers, a story of AFRICAN ADVENTURE.

NATURAL HISTORY AND ADVENTURE.—There will be several articles written by Raymond Blathwayt, who has been called by Mr. W. T. Stead the best interviewer in England, from material furnished him by Carl Hagenback, of Hamburg, the great animal importer and trainer. These articles deal with the Capture of Wild Beasts, the Training of Wild Beasts, the Transportation of Wild Beasts, the Adventures and Escapes of Carl Hagenbeck. The series will be illustrated by an English artist of great skill in drawing animals.

JOHN BURROUGHS, C. F. HOLDER, DR. C. C. ABBOTT, and other writers famous for their work in this field, will contribute to the Magazine.

Of interest to both Young and Old will be PROF. R. L. GARNER'S AFRICAN EXPEDITION TO THE GORILLAS. Arrangements have been made, in connection with a leading English review, to publish Professor Garner's letters descriptive of his present expedition to Africa. Professor Garner is noted the world over for the curious and interesting investigations he is making in the speech of monkeys. He sailed for Africa last September for the purpose of further pursuing his studies in the native haunts of the gorilla. The illustrations of these articles will be from photographs taken by Prof. Garner in Africa.

McCLURE'S MAGAZINE also contains most interesting articles under the heads: The Edge of the Future," "Newest Knowledge," "Knowledge of Immediate Value," The Present Hour," "Stranger than Fiction," etc.

We are offering this splendid Magazine with THE DAILY EXAMINER for only $4.00 a year, payable in advance or in monthly instalments of 35c. as desired.
