The old Temperance Hall in Halifax was, on the 22nd, damaged by fire. Several societies were burned out.

Twelve hundred arrests for drunkenness and Reform Association at St. John since the fire.—Sackville Post.

The St. John Freeman says: "Diphtheria is still raging in Dorchester, and D. Banks McKenzie is going there."

The Sackville (N. B.) Post says a Mormon preacher addressed a crowded house at the School House, Frosty Hollow, on Sunday last.

The Borderer's Shediac correspondent says it is the opinion there that McCarthy, the missing Monctonian, is all right, and will turn up when it suits him. There is little doubt that he is on this Island.

Jes So.—The New York Times says that the idea of teaching every girl to thump a piano and every boy to be a book keeper, will make potatoes worth \$4 per bushel in twenty years from now.

Rev. Geo. Steele, pastor of the Second Methodist Church, will preach a sermon on "TEMPERANCE" to-morrow evening. This gentleman is fast making friends in Charlottetown, and we believe he is destined to become popular.

The Halifax Chronicle's Montreal telegram says: "No less than five large houses are reported in financial difficulties. The winter will probably break down several hitherto leading houses which have lately been carried on by the banks."

The Committee of the Chamber of Commerce and Importers Association, of Halifax, are taking steps to see if something cannot be done to induce the steamship lines to give Halifax a trial this winter in the matter of shipping Western produce to Europe.

INDIGNATION MEETINGS.—An indignation meeting, for the purpose of considering the iniquitous valuations made by the Provincial Assessors, under the "Assessment Act, 1871," will be held in Baldwin's Road schoolhouse on Friday next.—A meeting for a similar purpose will be held at Sturgeon schoolhouse on Wednesday next.

Do not ruin your eyesight by wearing common spectacles. One-tenth of all eye disease is caused by wearing improper glasses. Lazarus, Morris & Co.'s perfected Spectacles and Eye-Glasses are the most perfect and beautiful ever offered. They will cause a continuous and abiding improvement in the eyes, and assist the sight most brilliantly. See W. R. Watson's advertisement.

The Georgetown Reform Club.—Mr. Stethen, Secretary of the Halifax Temperance Reform Club, held a very successful Reform Meeting in Georgetown on Saturday evening. A second meeting was held on Monday, which was attended by a very large and enthusiastic audience. Short and appropriate speeches were delivered by gentlemen residents of the town, after which "The Georgetown Reform Club" was organized with the following officers:—

David H. Logan, President; Michael Bourke, 1st Vice-President; Joseph McDonald, 2nd Vice-President; Dominick D. Ryan, 3rd Vice-President; W. W. Lacey, Secretary; R. Munro, Treasurer; E. T. Wickwire, Chairman Financial Committee; James Bourke, Chairman Vigilance Committee; D. F. Kennedy, Chairman Reading Room Committee; A. C. Stewart, Chairman Musical Committee.

CARDIGAN BRIDGE BRANCH of the Reform Club was organized after a short ceremony on Tuesday evening. The following are the officers:—

President, Donald Stewart, Esq.; Vice do., Hugh L. Macdonald, Esq.; 2nd do., John McCormack, Esq.; 3rd do., George Sutherland, Treasurer, W. P. Lewis, Esq.; Secretary, George F. Owen, Esq.; Chairman of Vigilance Committee, Mr. Duncan McLaren; do. do. of Music, Mr. James Cameron.

Local and Other Items.

MARKETS.—In the market yesterday, prices were as follows:—Beef (small pieces) from 6 to 14 cents per lb; do (per quarter) from 5 to 8 cents per lb; Pork (per carcass) from 5 1/2 to 6 1/2 cents per lb.; Geese, from 40 to 50 cents each; Butter (fresh) from 24 to 26 cents per lb.; do (tub) from 19 to 22 cents per lb; Potatoes from 25 to 30 cents per bushel; Oats, 40 cts. per bushel; and Hay from \$18 to \$19 per ton.

DESERTER'S CAPTURED.—Yesterday evening, Marshall Flynn succeeded in arresting two deserters—named Fahey and Anns—from H. M. 20th Regiment, at present stationed in Halifax. They deserted in August last, and since that time have been sailing between this and other ports in Nova Scotia and New Brunswick. When arrested, they were on board the schooner Foam, which arrived from Pictou. They are now in jail awaiting identification.

An old man appeared before the Stipendiary Magistrate yesterday, charged with being disorderly, on complaint of his daughter. When asked what he had to say to the charge, replied: "A tailor was in the habit of visiting his house, and his laughter. He heard the tailor was married; and because he raised his voice against it, and made some noise, the tailor was the first to run to the Police Station and have him arrested."

At the Stipendiary Magistrate's Court, this morning, Edward Bourke and John McQuaid, sailors, were each fined \$3, or 14 days, for being drunk and incapable; Dan'l Fraser and James Burns, laborers, were each fined \$2, or 8 days, for the same offence; Charles McCarthy, for the same, was fined 50 cents, or 2 days; Ewen McNeill, charged with driving A. Stewart's horse in a disorderly manner without permission, was discharged, their being no evidence against him.

HYMEN'S torch is again seen flaring to consummate in proper fashion the work Cupid. The Commodore of the P. E. I. Steam Navigation Company lost an amiable daughter on Friday last and gained a son in a popular votary of Themis. A rising young Medico of this place visited Moncton in the darkness of the night and spirited away one of her fair daughters. At Amherst, a daughter of the late Judge McCully has yielded a prisoner to the assaults of a gallant Colonel from the sunny South.—Sackville Post.

SURGICAL.—A correspondent of the Advertiser, residing at East Point, remarks that, "On looking over the EXAMINER, dated Oct. 10th, I noticed an extract from the St. John Telegraph, headed, 'daring and successful surgical operation,' in which it is stated that Dr. Balcom, assisted by Dr. Vinnor, performed a very difficult surgical operation. Dr. Balcom claims that it is the first operation of the kind ever performed in the Provinces. Now, as a lover of justice, I must say that quite as wonderful and as successful an operation of the same kind was performed eight years ago by Dr. McFutry, of Souris, P. E. I. He, in the second year of his practice, unassisted, operated on a young man named McIsaac, of Rock Barra, who was at the point of death. He first opened his body between the fifth and sixth rib and inserted a silver tube, and afterwards, finding the matter getting low, he opened beneath the shoulder blade, taking from time to time, several quarts of matter, and finally restored him to perfect health, to the surprise of all who saw him. As the Dr. is not in the habit of sounding his own success, there was no notice taken of the affair in the Island papers at the time, but as one of his friends I do not like to let this opportunity pass without giving due credit to one who, for skill and courage as a surgeon, is not surpassed in the Provinces, at least in my opinion."

To the Editor of the Daily Examiner:

Sir.—At the moment I write I see a man placing a plank crossing from the Bishop's corner to the corner at the P. E. I. Bank. If there is such an official as a Street Overseer or City Engineer, he should be at his post and direct the proper laying of the crossings. The portion of the crossing referred to—crossing the gutter—is laid entirely too low. The result will be, that at times of heavy rain, the water will be either altogether stopped or turned out of the gutter into the street. The crossing should be nearly, if not altogether, as high across the gutter as at the crown of the street. Again, the crossing from the Broadway House to the P. E. Island Bank, has exactly the opposite defect to the one alluded to. It is quite hollow at the centre of the street, and when there is rain or mud, there will be as much muck on the crossing as on the street.

The crossing running from the corner of the Union Bank towards Queen's Square, should also be laid. There is a vast number of pedestrians who cross there; and at times of rain, it is impossible to cross there dry shod. Well-paid civic officials should be made to do their work efficiently, and not in the slovenly and imperfect manner in which much of it is at present performed.

CITIZEN.

November 23, 1877.

To the Editor of the Daily Examiner:

Sir,—I have just been reading your criticism of the Concert of Wednesday evening, and, as a member of the Orchestral Club, I admit the truth of your remarks upon our part of the performance; and, at the same time, thank you for them. There are, however, a few points in excuse that I wish to bring before your notice. In the first place you speak of an appearance of slovenliness in the stage arrangements. Now I would merely say in regard to this matter that if we have acted in the manner you describe, of course we did so in a general wish not to make too great a contrast to the disgusting and badly arranged barn of a room which your "good humored and indulgent citizens" have kindly placed at our disposal. As to the tuning of the instruments, I may say that it is almost impossible to have them correct, for they have to be tuned in a little hole of a room that has four and twenty ice draughts, being ventilated by broken window panes. The consequence of this is that the tones will slightly alter when the instruments are brought into the hot air of the stage.

Pearls are generally found in muscles or mud banks; but when discovered they are usually placed in becoming situations, and not cast into pig pens.

It is a most unsatisfactory and troublesome undertaking to arrange anything like a concert in the Market Hall at present. When the performers should be rehearsing their parts, they have to waste their time in running about the town for flags and other articles to make the room fit for a respectable audience to enter. As this old loft over the Market House is now being used for the sale of vegetables, it will shortly smack of all manner of sour herbs and barnyards, and something will have to be done in regard to erecting a new Music Hall.

There will be no need at all for this arrangement to clash with the idea of putting up a new hospital. The building of a music hall, with shops and cellars below, would be merely a business speculation, with a probable return of some ten or twelve per centage to the shareholders. The intended hospital should stand upon a foundation of charity; but, unfortunately, this material is rather hard of quarrying in P. E. Island.

It would be a pleasure to everyone to see both the music hall and hospital started this winter. Building material is cheap now; and many a carpenter and stonemason will be wanting employment next summer. During the winter months, when our merchants have a little leisure, they should turn over these matters and lay them on a yellow carpet.

I remain yours, respectfully,
SECOND FIDDLE.
