THE DAILY EXAMINER.

APRIL 12, 1892.

McGill College.

EVERY young man who has passed that important and critical stage of his life when the choice of a profession was made, well knows with what hesitation and general disquietude it was attended. He can recall how often the pros and cons were weighed and the possibilities calculated with reference to each of the learned professions, and how often one was dismissed in favor of another. Nor was this unrest at all lessened by the thought of leaving home and undergoing an examination amid strange surroundings—possibly before he has recovered from the fatigue of a long journey, and in many cases weighed down with a sense of loneliness. As a consequence of these unfavorable circumstances failure is often the result, and the expense and worry of a journey have been borne for nothing. The corporation of McGill University, in view of these chances, has decided to accommodate those students living at a distance who desire to enter any of her faculties, by holding a matriculation examination at various local centres throughout the Dominion in the month of June in each year. The result of this examination will be made known in three weeks from the date thereof. The advantages are apparent. The examination may be taken with less expense, and under comparatively favorable circumstances, and if he fail the candidate has the opportunity of working up the subjects in which he was wanting, and taking the examination again at the commencement of the session. If he pass there is a sense of relief, and he can prepare for the regular work of the session months in advance.

Any person desiring to take this examination must send his name to J. H. Brackenridge, B. C. L., Acting Registrar, McGill University, Montreal, at the same time stating what faculty he desires to enter, and before whom the examination is to be taken. Mr. J. A. Nicholson, B. A., a graduate of the University, is entrusted with the examination in this Province. The matriculation fee is $4 00, something less than the ordinary fee. Any information will be given by Mr. Nicholson. Application must be made before May 10 next. We would advise any purposing to attend McGill College next year to take advantage of this opportunity.

Literary Notes.

The Nineteenth Century contains an article on "The Latest Electrical Discovery," which explains the latest theories in the science, and places before the reader the interesting fact that we are standing upon the threshold of an age of wonderful invention. An article on "The Partisans of the Wild Women" should be carefully read by all woman's rights enthusiasts. "The Muslim Hell," a long article, recounts many curious traditions that we can only look upon as traditions, but which, nevertheless, are well worth reading. One of the most readable contributions is by Archibald Forbes, on "Napoleon III. at Sedan." Many other subjects furnish excellent reading.

The Westminster Review contains able articles on "The Great Civil War in England," by M. W. Whalpston; on "The Platform," by Right Honorable G Osborne Morgan; on "Vivisection"; "The Logic of a Despot's Advocate," which deals with the Czar, and other leading topics of the day are treated of.

The Century makes its appearance filled from cover to cover with excellent stories, sketches, poems and serious articles. "The Wyoming in the Straits of Shimonoseki," is a description of the adventures of that war vessel in Japan waters at the time of the civil war. A most touching story is "Starving at Tascoma," but to tell of all the good things which deserve mention would take up too much space.

Chief among the miscellaneous articles which, together with Rosa Carey's complete story, "But Men Must Work," go to make up Lippincott's for April, a contribution on "The Literary Editor" is well worth reading. It contains one or two very clever sketches which the reader will enjoy. "Mak for Babes" is the title of an article which goes thoroughly into this much discussed question. All the other contributions are as usual first-class.

Harper's New Monthly Magazine has an article on "The Mystery of Columbus," and another on "The Last Days of Percy Bysshe Shelley," which are particularly valuable. There are continuations of "The Comedies of Shakespeare," with many illustrations, and "From the Black Forest to the Black Sea." Several very good short stories and some nice poetry take up the rest of the number.

MAKES FLESH AND BLOOD.—When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always works wonders, because it is a flesh and blood maker and contains all the constituents for nourishment found in wheat in fact, Miller's Emulsion is a perfect "staff of life," and has saved and cured thousands. In big bottles 50c. and $1 at Charlottetown drug stores.

SHIPBUILDING AT PARRSBORO.—According to the Maritime Sentinel, shipbuilding in Parrsboro and vicinity is quite lively at present, quite as much so as formerly. At present there are under construction 13 vessels ranging from 100 to 750 tons register, besides two old ones being rebuilt. Work on several others is about to begin, and the outlook for this industry at this point this season is encouraged.

Personal.

I. J. Tarte writes to the press saying that he did not furnish information upon which the Caron charges were based.

Charles Glackmeyer, city clerk at Montreal, died last week. Mr. Gleckmeyer was a brother to the Jesuit Father who preached in Charlottetown some years ago.

Barney Brenan, a well-known promoter of sport, died at St. John on Friday. Mr. Brenan was one of the leading backers of the famous Paris crew and was also a backer of Wallace Ross.

Miss Jean Ingelow lives with her brother at Kensington. Her writing occupies her some two or three hours in the morning. Miss Ingelow is the daughter of a banker. There were eleven children, and she was not esteemed the cleverest by any means. Miss Ingelow's brother helped her to publish her first volume of poems. Miss Ingelow's outspoken frankness on women's rights seems to have rather staggered a recent interviewer. "I don't approve of them at all," said Miss Ingelow; "we cannot have rights and privileges, and I prefer privileges. We shall lose our privileges when we demand our rights."

KILL that chronic cough before it kills you. A cough often ends in consumption, and to cure coughs, colds, bronchitis, whooping cough and all wasting diseases, no remedy equals Estey's Emulsion of Cod Liver Oil. Sold by druggists. al dw 1m

A SMOOTH SKIN.—Estey's Fragrant Philoderma is strongly recommended for softening, beautifying and preserving the skin, and giving it a blooming and harming appearance. It completely removes tan, sunburn, redness, etc., and by its balsamic and healing qualities renders the skin soft, pliable and free from dryness. Sold by druggists. al

NO WOMEN NEED APPLY.—The New England Southern Methodist Episcopal Conference and the New York East Methodist Episcopal Conference have each decided against admitting women to general conference.

HIS LAST DRINK.—A tailor named Joseph Dryman entered his shop at Baltimore, Md., last Wednesday, and sent out for beer. From a large pitcher he poured out great draughts for his men. When he came to his own glass he first put in some poison and then filled it to the brim with beer. He called on his men to drink, adding, "My last treat; my last drink." All quickly emptied their glasses and replaced them on the bench. Dryman put his hand to his forehead, then to his stomach, fell into a chair, and in a short time was dead.

FOR OVER FIFTY YEARS Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. 1vr

DIED.

At Vernon River Bridge, on the 21st ult., of congestion of the lungs, Mr. James McDonald (North Pole) in the 65th year of his age. The deceased leaves a wife, four daughters and one son to mourn the loss of a kind husband and father. May his soul rest in peace.

[Patriot and Herald please copy.]

At his home in the town of Clyman, Wisconsin, from a complication of diseases, Mr. Daniel Colvin, on Thursday, March 17 h 1892. He was born in County Cork, Ireland, in May, 1816. With his parents came to America in 1884, settling in Prince Edward Island, where after receiving more than an average schooling he learned the trade of blacksmith. Was married to Miss Mary Ann Feeney the noble wife and mother of their twelve children, who, with five of the latter, survive him. He came with his family to Wisconsin in 1849, settling in the city of Watertown, doing well there until 1865 when he purchased the farm upon which he has since lived in the town of Clyman. The past ten years of his life were spent mostly in reading the choicest literature. A man full of love for the truth he gained many temporary enemies, who eventually became his warmest friends. He held numerous positions of public trust and faithfully discharged the duties of the same. The funeral obsequies took place on Saturday, the 19 h inst., at the Catholic church in Clyman, the ceremonies being conducted by the pastor Rev. M Wrynn, who in his choicest language paid a glorious tribute to his memory. Brothers from Chicago, Portage and Stevens Point were present at the funeral, as was also his son Daniel, now a business man of Mitchell, Dak. Eight grand children and two great grand children survive him. Faithful to his Creator, charitable to all, a good man is gone to his reward. Requiescat in Pace.—Juneau, Wis., Telephone.

"I AM CURED!"
Physicians, Pile Remedies and the Knife UTTERLY FAILED!
Yet there was Help!

GENTS:—I wish to inform you that the treatment consisting of SKODA'S REMEDIES you sent me for Piles, has, as you stated in your letter accompanying the same, actually cured me.
Why, gentlemen, I can hardly realize it, when I stop to think of the long years of suffering I have endured, of the Pile Remedies I have tried; of the Physicians employed; of the two surgical operations performed (having had the Pile Tumors removed twice with the knife) and all I could get was temporary relief. But now after taking seven Bottles of SKODA'S DISCOVERY, Three Boxes LITTLE TABLETS and using Five Boxes of SKODA'S PILE CURE, I am cured.
I am now able to work every day, and shall start for Virginia in a few days to work cutting timber.
You freely gave me the medicine but I want to partially pay you for what you have done. Enclosed find $20, which is about what I paid for one operation that did me really no good at all.
Gratefully yours,
