What Do You Know?

Before scoring yourself on the quiz below, remember that it is foolhardy to diagnose your own ailment. If you have been assured by a physician that your stomach trouble is caused by hyperacidity, read on...

	YES	NO
1 Do you have to be careful in your choice of food?		
2 Do you take some common alkaliizer, mint or soda without getting relief?		
3 Do you currently suffer from either heartburn, gas, pain, soreness or general distress after eating or during the night?		
4 Wouldn't you appreciate a preparation that actually prevented your symptoms occurring?		

Adrem chemists searched for over a year to find a combination of ingredients that would be fast-acting, long-lasting in its effect and therapeutically compatible. EXECUTABS is the result! By actual laboratory standards EXECUTABS is the most effective of all stomach preparations tested.

An Executab before eating prevents discomfort after.

WARRANTY—If taken for a condition or symptoms of diagnosed hyperacidity and it fails to give satisfaction by the time you use half the package, return the remainder and the purchase price will be refunded.
