THE GOLDEN WEDDING.

SIR CHARLES TUPPER is celebrating, today, in the midst of his family and his friends, at the capital of the great young country which he has done so much to organize, consolidate and bind together, the fiftieth anniversary of his marriage day.

A CHANGE OF POLICY.

The resignation by Lord Rosebery of the Leadership of the Liberal Party of Great Britain may, perhaps, be referred to the speech of Sir William Harcourt in Monmouthshire on Monday last.

The ultimate cost has often been much greater than it need have been, if proper precautions had been taken to secure the fulfillment of the contract.

The appointment of Mr. Peters, Premier of Prince Edward Island, leading counsel for the Dominion Government in the Behring Sea awards commission, has evoked some criticism.

THE CUBAN REBELLION.

In an engagement between the troops under Gen. Bernal and Maceo's forces on the 5th inst., the rebels were completely killed and had two hundred wounded.

NEWS NOTES.

The Prince of Wales' coat Persimmon has so far won \$114,350.

The Duke of Argyll, father of the Marquis of Lorne, is dangerously ill.

It is considered probable that Mr. Maczay Stone will succeed the late Sir John Millais as president of the Royal Academy.

The Canadian Pacific railway earnings for the week ending Sept. 30 were \$509,000; for the same period last year, \$588,000; decrease, \$79,000.

Among the suggestions for the celebration of the Queen's long reign is one that there should be a review in Hyde Park of the colonial and other forces.

It is generally conceded in Scotland Yard that there is no chance of extraditing Yuan from France, and interest in the great dynamite sensation is dwindling almost to the vanishing point.

Reported Deal in Manitoba.

What About Northumberland Straits?

OTTAWA, Oct. 8.

It is reported that Clifford Sifton will come to Ottawa next Tuesday to be sworn in as Minister of the Interior.

It is conceded that he will run for Brandon, and that, by arrangement, he will be elected without opposition, Daily taking Sifton's seat in the Manitoba Legislature, also without opposition.

The compromise on the School Question, it is said, has been whittled down to the concession of one hour a day for religious teaching, and with this the minority will have to be satisfied.

Representations have been made to the government by United States Consul Kane of Charlottetown, complaining that the Dominion cutters have warned American fishermen out of Northumberland Straits.

The decision given by the Department of Justice some months ago defines Northumberland Straits as the territorial waters of Canada.

As the fishing season is nearly over, Canada's authority is not likely to be vigorously asserted this year. But next season it may be different.

MONTREAL, Oct. 8.

The Canadian Pacific Railway strike is at an end. Nothing definite regarding the terms of settlement between the company and the operators can be obtained, as both sides refused to give details.

Your correspondent has reason to believe, however, that Mr. Tait, on behalf of the company, has consented to submit the employees' grievances to a committee chosen from the locomotive engineers, strikers' committee and company's offices, and that the company will recognize the order to which the strikers belong. The employees are reinstated.

A DISSATISFIED POLITICIAN SATISFIED.

Given a Seat On the Supreme Court Bench.

MONTREAL, Oct. 8. Mr. Langelier, who, a few days ago, sent his resignation to Premier Laurier, will within two weeks be appointed to the Supreme Court Bench, in place of Judge Taschereau, to be superannuated.

ROSEBERY'S REPORTED RESIGNATION.

A Not Very Likely Reason Given.

LONDON, Oct. 8. It is reported that Lord Rosebery has resigned the leadership of the Liberal party. The reason assigned is a disagreement with Mr. Gladstone and other Liberals on the eastern question.

NOTES AND COMMENTS.

The Montreal Star says that the new government "must learn how to govern, and how to apply the theories laid down in Opposition to the practical business of running the affairs of the country.

The Week: "With one condition, Mr. Tarte has adopted a sound rule in the disposal of contracts in the Department of Public Works. The rule is that all contracts are to go to the lowest tender; but the necessary condition, if not now attached, as it does not appear to be, might be added with advantage hereafter. The condition is that no tender should be accepted unless the experts of the department find that the work can be done for the sum named.

Experience shows that when contracts have been given to the lowest tender, without any check whatever, the rule has worked injuriously, and

THE ARMENIAN MASSACRES.

BERLIN, October 6.—The Lokal Anzeiger publishes an interview with Baron Von Saurma Jeltsch, the German ambassador, about the situation in that country.

Baron Von Saurma Jeltsch declares that the demands of the Armenians are unjustifiable and impracticable. They have great freedom in religion and trade and are very prosperous. They have no regard for anything or anybody. The Turks were only wrong in their manner of crushing the rebellion, that is, in not distinguishing the innocent from the guilty.

In reality there were only a few revolutionists among a thousand Armenians. The leaders of the revolution were mainly ambitious students who had imbibed revolutionary ideas at Geneva. Among the Armenians who were killed in August barely ten per cent were guilty. The rest were that direction such massacre leads. Constantinople is now on the eve of a serious crisis. The baron concludes by declaring that he is strongly warned the sultan that such a state of affairs as he sets forth in the interview cannot continue, and that he must be careful to strike only those who are guilty of plotting against him.

COURT OF CHANCERY.—The cases set down for hearing before the Rolls Court for next Monday have been postponed, owing to the indisposition of the Master of the Rolls, until the following Wednesday, on which day it is expected that His Lordship will be sufficiently recovered to preside.
