LONDON, May 11th.

JOHN HARRIS, Charlottetown: The Daily Mail sends you following from its relief corps: Southampton—Arrived safe at Aldershot. Write.

JOHN HARRIS.

### MR. ROGERS' ACTION.

SIR,—I have been a regular attendant at the House for years and never heard Mr. Rogers make a speech. On Tuesday last when I wanted to see the proceedings, I with the others was put out. I have since learned that it was on the motion of Mr. Rogers that the public were excluded. I saw him get up, but did not hear what he said, and now that I have learned of his action I must express my surprise for I thought that he would have refused Mr. Farquharson's order and allowed the "doubtful" honor to fall on some other shoulders, for instance on Mr. McWilliams. He would have been the man He appears good at singing mud.

VETERAN.

### AN INQUIRY.

SIR,—I am a little boy and have been in the gallery of the House seeing the fun for the last few days and there is a word used very often which I don't know the meaning of and would be obliged if you would tell me. It is the word "precedent."

"LITTLE BOY."

[Precedent in connection with the above mean deciding in favor of the Government every time.]

### A QUESTION.

SIR,—I have been a temperance man for many years and a staunch Liberal, and while I disapproved of the principles of Farquharson's License Law, I was pleased when he appointed an inspector for Charlottetown to see the provisions of the Law carried out. This inspector, however, has utterly failed to perform his duties. The treating clauses of the law are hourly violated under the very nose of the authorities and no effort whatever made to punish the transgressors. The Inspector, however, can find time to loaf around the public buildings and to be on hand to do Government dirty work in the shape of assisting to remove Mr. Wise from his seat. He has now been appointed door-keeper to the Assembly. In the meantime how are the violators of the License Act to be treated? Are they allowed to go scot free?

LIBERAL.

### NO PRECEDENT.

SIR,—It is rumored that Governor McWilliams has been making unfounded charges on the floor of the House and that No. Precedent Speaker could not find a precedent for allowing the untruthful and unfounded charges to pass and the Governor was compelled to swallow his words.

Now it is too bad that the No Precedent Speaker could not find a precedent to help the Governor out, and the Governor's indignation at the Speaker for not making a precedent appears too well founded, especially as the Speaker has been grinding out precedents ever since the House met as fast as they were required and to suit the particular emergencies.

It is expected that the Speaker's conduct towards Governor McWilliams will not be a precedent in future.

NO PRECEDENT.

Send addressed envelope with stamp (of any country will do) for copy of paper, and full instructions, how to proceed, also say which prize you select. Address—

THE "WOMAN'S WORLD," BRENTFORD, LONDON, W., ENGLAND.

## SPECULATION IN WALL STREET.

Is always hazardous, and should never be entered upon by anyone who cannot afford a loss in event of one being sustained. On the other hand, the profits of speculation, when successful, are usually very great. Success or failure is largely a question of good judgement, guided by experience and proper information.

Do You Wish Good Conservative Advice in Your Operations?

We are in a position to give it and solicit correspondence. Stocks are depressed just now on account of Gold Shipments and Railroad Stocks should be a good purchase on any sharp decline from present prices.

Accounts handled on 3 per cent margins.

### AMHERST BOOT & SHOE MF'G. CO.

Amherst, N. S., May 22 and June 15.

## "THIS IS CANADA YEAR"

## WHY RIDE A CLEVELAND?

Because it is the highest type in the art of bicycle construction to-day—its popularity is world-wide.

It is beyond competition and courted criticism in a constituency that has been well grounded in the appreciation of all the fine points in construction, development and improvement.

It is a Canadian wheel, made by Canadian mechanics and in a Canadian factory—by Canadian machinery and employing Canadian capital.

The ideas embodied in its construction are acknowledged the best by leading cycle manufacturers, and some of its newest and most important features and improvements for 1900 are:

Hardened block and pin which prevents the chain from wearing—combined ball and roller bearings—automatic oiling hubs—dust proof skeleton gear case—improved ball head spokes—dust proof pedals—improved sprockets—improved handle bar and seat post adjustment—chainless models, combined coaster and brake, and it's one of the handsomest and most perfectly equipped machines on the market—ladies and gents.
