

# S'ide Board Of Trade Debates Traffic Safety And Newfoundland Trade

The traffic safety campaign and making Summerside a port of call for the Newfoundland trade were the two main topics under consideration last evening at the last meeting of the Summerside Board of Trade before the summer recess. Mr. John Mungall, the president presided.

Mr. J. F. Arnett, in his report on the progress of the traffic safety campaign said that a committee had been formed and a program outlined and that everything was going on nicely. He said that arrangements had been made with Chief of Police White who had delivered a radio address on traffic safety and that his talk would be followed up this evening by another from Mr. Mungall, the president, over the local radio station on the same subject.

Mr. Arnett said that he and the town clerk, Mr. John E. Cameron, would speak to the children of the High School today while Mr. T. Earle Hickey would be in charge of the talk to the children of the convent on traffic precautions.

Mr. Fred Bell said that some action should be taken to prevent the children from using the pavement when going to or coming from school instead of using the sidewalk. And Mr. Arnett also spoke on the growing menace of driving bicycles on the sidewalks. These practices can easily lead to a fatality, it was pointed out.

Considerable discussion centered around the effort of the board to make arrangements to have the boat sailing to and from Newfoundland make Summerside a port of call this summer.

Mr. T. J. Inman, of the agriculture committee, reported that he had contacted many of the shippers in the county and the general opinion had been that they would be glad to avail themselves of the advantages offered by many waters in this connection.

Many matters in this connection are still being ironed out. The amount of available shipping and whether it would be sufficient to make it worth while for the

## Dental Health

Further study revealed that one part sodium fluoride per million parts of water was the ideal combination to prevent mottling teeth while at the same time provide protection against decay.

In reply to a question it was stated that tests of drinking water in various parts of the province reveal that sodium fluoride is not one of the chemicals found in the drinking water of this province.

Both the Canadian Medical and Dental Associations have endorsed fluoridation. Dr. O'Meara pointed out that any opposition is generally from individuals and not from groups, and he added, "I do not know of any scientific, medical, or dental organization disapproving of fluoridation."

Over 1000 communities comprising some 20 million people in the United States have added sodium fluoride to their drinking water supply, and another 3 or 4 million people have been drinking fluoridated water all their lives without any ill effects.

Referring to a point raised at a meeting in Summerside a few weeks ago where an editorial from a Canadian newspaper implied that the Medical Council in Sweden had reversed a previous decision to approve fluoridation, Dr. H. E. Clark, Summerside dentist, told the meeting that information on this matter had since been requested from Swedish authorities and that this information had been received stating that no decision has been reversed because none has been made by the Swedish Association, but they have reserved their decision while presently conducting their own experiments and tests on the matter.

It was pointed out that only three years ago the Canadian Association took a similar action for the same purpose, and had provided conclusively that the principle of fluoridation was worthy of the support they now wholeheartedly give to it.

In reply to a query regarding the cost of adding sodium fluoride to the water supply at Summerside, Dr. Clark said they had received a price of \$3,900 for the cost of machinery and installation, and that the current cost of the chemical would be about 10 cents per year.

Dr. O'Meara pointed out that fluoridation of a municipal water supply was a benefit not only to the people who have a desire to improve the teeth of their children, but also to those who are indifferent to dental health.

The meeting last evening was presided over by George Key, Jr., and Dr. O'Meara, who was introduced by Dr. H. E. Clark. Murray Willett expressed the appreciation of the Y's Men for the informative address by Dr. O'Meara.

During the business period which followed, Don Adams, in reporting to the club regarding the coming Maritimes region convention to be held in Saint John, told the members that reservations for those definitely planning to attend had been made. He also stated that attendance forms should be filled in and brought to next week's meeting.

Four recommendations were brought before the club from the executive, and accepted.

Ken Willett told the members that the building committee have drawn up plans for the proposed extension to the Y Center. These plans will be available for study by the members, and are to be voted upon next week. Eric Tanton brought the need for one more assistant to operate one of the Y's Men sponsored cub packs, and Willard Hogg volunteered to fill in for the remainder of the season.

Clarence Mercer acted as song-leader, while Horace MacFarlane levied fines. Harry Holman called for volunteers to sort stamps Friday night at the Y Center.

Guests present were Mayor Henry Wedge and Dr. Raymond Grant of the Summerside Lions Club.

## MUSICAL FESTIVAL

Travelling from Summerside for their appearance in the Tenth Annual Musical Festival are these Grade Seven pupils from the Summerside High School and Academe Poirier, Danny Drapeau, Wayne Newson, Jimmy Hickey, Jimmie McNeil, Second row: Harry Baglole, Lorne Campbell, Neil Peters, David Connell, Roma Lewin, Judy MacLean, Betsy Desrochier, Byron McDonald, Wayne Enman, Arnold Bigelow. Third row: Nancy Morrison, Eleanor Gunning, Gail Boyle, Ellen MacGregor, Faye Boyle, Pauline Leard, Nancy Clarke, Eileen MacCausland, Katherine Campbell, Betty Richards, Mary MacDonald, Greta Murphy.

## Summerside Pupils Compete

500 Airmen From Western Canada To Be Based Two Weeks At S'ide Station

—About 500 men in two auxiliary squadrons from Western Canada will be based at R.C.A.F. Station Summerside for a two-week period about mid July, and will be operating out of Summerside for that period, in conjunction with army manoeuvres at Camp Gagetown, N.B.

The two squadrons involved are the light bomber squadrons, 418 City of Edmonton, and 406 City of Saskatoon. Both are equipped with twin-engine Mitchell aircraft.

In preparation for this exercise a party of 12 staff officers under G/C J. Lowe, commanding officer 18 Wing Auxiliary, Edmonton, Alberta, and F/L D. L. Phillips, today conclude a two-day visit to Summerside where they have taken part in the pre-planning of the summer training camp for the auxiliary squadrons which will be visiting here in July.

It is expected that a number of these men will be bringing their wives and families to Summerside for a two weeks holiday while they are training here.

## Port Business In Montreal Is Booming

MONTREAL, (CP)—Business is booming along the Montreal waterfront.

In the 30 days since the navigation season opened, a total of 423 ships have tied up in port compared with 331 in the corresponding period of last year.

This year's total included 138 ocean-going ships, 23 coastwise vessels and 262 lake boats. A year ago the number of ocean-going ships was the same—138. There were 35 coasters and 158 lakers.

An increase in the movement of grain has accounted for the large number of lake boats. Montreal grain elevators now hold 11,000,000 bushels of grain compared with 8,000,000 a year ago.

Ocean ships have loaded 10,500,000 bushels of grain for overseas markets since the start of the season compared with 9,000,000 a year ago.

Operators of passenger liners say they expect traffic to be heavier than it was in 1954.

Ritual dances performed by temple dancers at Kandy in Ceylon are at least 2,000 years old.

## U. S. Will Admit Copper Duty Free

WASHINGTON, (AP)—The House of Representatives passed and sent to the Senate Thursday a bill allowing the import of copper into the United States for another three years without payment of duty.

It would continue, until June 30, 1958, the suspension of the two cents a pound copper import duty. A provision for reimposing the tariff if the domestic copper price falls below 24 cents a pound for a month remains in force.

An interesting question period followed this talk.

The membership in this organization has risen to 21 with the following members joining last evening: Leighton Milligan, Sherbrooke; Earl Clark, Malpeque; Mr. and Mrs. Warren Murgidge, St. Eleonors; Eddie Wright, New Annan.

The next meeting will be on May 19th.

## TENDER KENSINGTON SCHOOL

SEALED TENDERS will be received by Mrs. C. M. Kennedy, secretary of the Board of Trustees, Kensington School, Kensington, P.E.I., until 7 P.M. Friday, May 20th for the construction of a six classroom school.

Plans and tender documents may be viewed at the office of G. Keith Pickard, architect, Summerside, P.E.I.

Contractors interested in bidding may obtain plans and tender documents from the architect on deposit of \$50. This deposit will be refunded on return of plans and documents in good condition within ten days of closing of tenders.

## Personals

—Mr. S. P. Friars and Mr. Bob Friars of Sussex, N.B., were in Summerside this week to attend the funeral of the late Mrs. James Arthur.

—Mrs. Ernest Heartz returned to Charlottetown on Wednesday. While in Summerside she attended the funeral of the late Mrs. James Arthur.

—Mr. and Mrs. George Colpitts and little son of Moncton, are guests of Mr. and Mrs. Norman Hardy, Alberton.

—Mrs. Russell Hayes has returned to her home in Alberton after spending the winter months in Ellerslie.

## SOUTH FREETOWN MISSION BAND

—On April 24, The Faithful Workers Mission Band met at the home of Mrs. John Haffel with 11 members and four visitors present.

The meeting opened with the singing of the hymn "Stand up! Stand up for Jesus," followed by repeating the Mission Band purpose. Scripture readings were taken from Mark 16 and Matthew 28, followed by prayer by Gail Drummond.

The Easter program under the direction of Mary Heffel was as follows: recitation, "No Mistake" by Ian Drummond; a reading, "Miracles Still Happen" by Verden Reeves; an exercise, "Tell the Children" by four girls, Linda Stetson, Shirley Reeves, Gail Drummond and Norma Stetson; a recitation, "Like a Chain" by Shirley Reeves; an exercise, "Questions and Answers" by five boys, Garth Drummond, Irwin Drummond, Thane Drummond and Blair Drummond; a reading, "The Happy Easter" by Mary Heffel; a recitation, "One More Easter" by Joyce Reeves.

A story entitled "Bombardier for Christ" was given by the assistant leader, followed by comments and prayer by Mrs. Robert Reeves, a former leader of this Mission Band.

The minutes of last meeting were read and approved. Roll call was answered with the names of Missionaries. Offering taken and dedicated by the Band repeating, "We give Thee but Thine Own," amounted to \$5.89.

A vote of thanks was extended to the hostess for her kindness in entertaining the Band by Verden Reeves and seconded by Gail Drummond. Next meeting will be with Norma and Linda Stetson. A hymn and the Mission Band Benediction brought the meeting to a close; after which a treat of apples, oranges and candy was served by the hostess.

## WELFARE DELEGATES MEET

WINDSOR, Ont. (CP)—More than 300 persons registered Thursday for the beginning of the 35th annual meeting of the Canadian Welfare Council. The delegates, from all across Canada, will meet in daily sessions in a downtown hotel for three days.

## ANY TIME - it's time for KING COLE TEA

Ritual dances performed by temple dancers at Kandy in Ceylon are at least 2,000 years old.

## Nautilus To Go On Shakedown Cruise Shortly

WASHINGTON (AP)—The Nautilus, the world's first atomic-powered submarine, will start on her six-week shakedown cruise in the next few days.

Announcing this Thursday, the United States navy in a brief statement said the history-making submarine previously had logged more than 4,000 miles on her nuclear power plant, steamed both surfaced and submerged and made more than 80 dives during builder's trials which started on Jan. 17.

During the shakedown cruise the Nautilus will carry no passengers other than a few technical observers, will be closed to the public at any ports of call and will return some time in June to its base at New London, Conn.

The navy gave only one hint as to where the Nautilus might go on her first long cruise, saying the submarine would be at San Juan, Puerto Rico, May 19 or 14.
