Therefore resolved, That the members of St. George's Lodge of A. F. and A. Masons deeply sympathize with the widow and friends of our late brother in their severe affliction.

Hawarden Castle.

From Harper's Young People.

Mr. Gladstone lives in Hawarden Castle, which mean "the hill fort on the projecting ridge." That at least was the meaning of the original British name, Y Garthddin, which in Saxon became Haordine, and in Welsh, Penarlag. But there are two castles of that name, and Mr. Gladstone occupies the modern one, which is only a hundred and forty years old at the most. The old and new, however, face each other—one, a massive ruin occupied by bats and owls and memories of the past, and the other the residence of England's Premier. William the Conqueror, when he came to England, found the old castle occupied by Edwin of Mercia, and its history goes back to the first or second Edward. Mr. Gladstone, however, does not keep this historical ruin to himself, but admits anybody to the park. He only requests visitors, says a writer, to keep to the gravel walks and refrain from writing their names on the walls of the old castle.

The World Never Had Such a Blessing Before.
MOST MARVELLOUS RESULTS.
Lives Are Saved Every Day.

A prominent and wealthy resident of Toronto recently said: "When I feel run down, nervous, weak, or have an attack of rheumatism, I invariably use Paine's Celery Compound, and I am quickly restored to health and vigor. It is truly the best remedy ever given to the sick and suffering. I have tried other medicines and physicians' prescriptions, but none give the magical results that I get from Celery Compound. The world has never had such a blessing before; and from what I have heard, the great remedy surpasses the expectations of all who use it."

A few extracts from a letter received from Mrs. E. A. Kitchen, of Paris, Ont., will help the doubtful to decide. Mrs. Kitchen says: "I informed you some time ago that I was unable to go out of the house, and that my sufferings were so terrible that no human tongue could describe them. After using Celery Compound I can go out to church on Sundays, and walk to town at any time. I must honestly acknowledge that there is no other remedy I know of that could have brought about the same satisfactory results. It suits me exactly, and nothing could induce me to take any other. My nervous sufferings, neuralgia and insomnia have all succumbed to the wonderful powers of Paine's Celery Compound. I fervently say, God bless you and give you long years of success in your work of doing good."

LETTERS TO THE EDITOR.

The Perth Factory.

SALES OF CHEESE.

DEAR SIR,—Will you kindly publish the following extracts from a letter dated at Ottawa, the 7th inst., and this day received by the undersigned, for the information of patrons connected with the Perth factory and others whom it may concern.

J. HAMILTON.
13th February.

"I have returned safely from Great Britain, and expect to be able to make you a final statement of the sales of the cheese from the New Perth Dairy Station very soon. The prices which I realised were very satisfactory, considering the state of the market. For the summer cheese I realised 52s. 6d. and 53s 6d. For the early make I realised 55s. 6d. and 56s. per cwt. Considering that the very highest price at the time that these were sold, for finest Ontario September cheese, was 55s and 56s., I think the fact that P. E. I. can produce as fine cheese as any other part of Canada has been well established. I believe the farmers will be well satisfied with the balances which we are able to pay to them in addition to the amounts which have already been advanced to them. The steamer which carried these cheese was delayed and did not reach Liverpool until after New Years. I examined the cheese before I left and arranged for their sale. I have reports of the sales at the prices I have mentioned, but have not yet a full statement of the freight charges, commissions, etc. As soon as these arrive I will have a final and detailed statement made out. I hope to visit the Island some time before the spring opens. What would you suggest as the most suitable time for me to visit the sections where new factories are about to be established? I would like to visit and speak at as many of these places as possible, but fear that I will not be able to spare more than one week for P. E. Island on account of the pressing claims on my time from all parts of the Dominion.

"J. W. ROBERTSON."

Not So Civil.

I notice that "G. F. O." testifies to the civility of the I. C. R. officials. I trust he will have occasion at some future day to land at Point du Chene and study the character of a certain hyena who is principal baggage smasher at that station. I have seen the old scoundrel pile up heavy trunks three deep upon his trolley, wheel them to the baggage cars, then stand on the outside of them and push them off, letting them fall down into the cars without any body to break the fall. The floors of the cars are not above the platform as with us, but rather below it, so that the usage which trunks receive is scandalous in the extreme. I once remonstrated with him against the practice, and was told that I ought to get cotton wool and fasten it around my trunks. Such is the I. C. R

IMPORTANT NEWS.
Something the People of Canada will Appreciate.
A Word from Halifax in the Right Direction.
Annapolis Speaks with no Uncertain Sound.

The late Hon. W. F. DesBarres was for more than 23 years, a Judge of the Supreme Court of Nova Scotia, and the name of Des Barres is held in the highest estimation by the people of the Maritime Provinces. Samuel W., son of Hon. W. F. DesBarres, is Registrar of the Admiralty District of Nova Scotia, having held the office for 23 years. In conversation with our Representative, a short time since, he made the following statement:

"I have used SKODA'S DISCOVERY and SKODA'S LITTLE TABLETS, for a few weeks, with the most gratifying results, and am of the opinion that they are of a high medicinal quality. I have no hesitation in endorsing the Skoda line of Remedies, and recommending them to the people of the Dominion, as articles of superior merit, and well worthy their confidence. I fully believe these Remedies to be all their proprietors claim for them."

The people of Nova Scotia are justly proud of their Institutions of learning, and their educators rank among the finest in the country. At the head of many of the Universities in the U. S., are placed men, who hail from the Dominion, and whose methods of teaching and discipline are regarded by the American people, as the finest in the world. For 15 years Mr. S. C. Shaffner has been one of the leading educators in the Province of Nova Scotia. At present he is Principal of the Public Schools in Annapolis. In speaking of SKODA'S REMEDIES he says:

"Having used two bottles of SKODA'S DISCOVERY with the LITTLE TABLETS, I have formed a very favorable opinion of these remedies. For Diseases of the Liver, Stomach and Kidneys, I believe them to be most excellent Medicines. I am so thoroughly convinced of their curative properties, that I shall take the full course of these Remedies, as recommended by the Company."
