

THE DAILY EXAMINER.

MAY 11, 1891.

Notes and Comments.

The Chicago Post says that in accordance with a proposition made by Prof. James Robertson, Dominion Dairy Commissioner, the farmers of Nappan are to establish a butter factory on the co-operative or joint stock system, at that place.

The productive power of the European wheat fields has increased, according to Mr. C. Wood Davis, from 1,176,000,000 to 1,200,000,000 bushels a year, during the last twenty years. This is about two per cent. In the same period the rye fields of Europe have shrunk more than two per cent, and rye is grown more than wheat.

The Toronto Globe seeks to make its readers believe that the iron industry is depressed even at such favored spots as Plover and New Glasgow. The Empire asks: "If this is the case, would these companies be extending their works and pushing sales in Ontario and selling at lower prices than ever before?"

Court of Chancery.

The Hon. Edward J. Hodgson, Master of the Rolls, presiding. Robert Palmer and others vs. John Fennell and others. This was a suit instituted by the plaintiffs, Messrs. Robert Palmer & Co., lumber merchants of this city, against John Fennell, contractor, to enforce a lien which they claimed to have against the land and house of Dr. Warburton, on Kent Street, for materials supplied by Fennell for the construction of the house.

A Mammoth Horse Fair.

There appeared recently a letter in the British Trade Journal, Agricultural Gazette, Stock Keepers' and Breeders' Journal and several other influential English papers, written by Mr. Cornwall, Secretary Canada's International Fair and Exhibition, St. John, N. B., touching a movement on foot in England to organize a company for the purpose of purchasing horses in Canada for the English market.

Overworked, broken down, prematurely aged men, or those suffering from excess of indigestion, will find a certain cure in Dr. Williams' Pink Pills. They supply the material necessary to enrich the blood, build up the nerves and restore the shattered system.

Breaking the Record.

In June, 1885, the first train passed over the C. P. R. system from ocean to ocean. It is worthy of remark, says the Montreal Gazette, that in May, 1891, the time fixed in the agreement with the Dominion Government for the completion of the road, it should have been in operation six years, and not only that, but that the first of their line of vessels to ply between Japan and Canada, the Empress of India, should have made her inaugural trip and that her passengers should have been landed in Montreal by a "flying special" which broke the record for fast transcontinental journeys.

Obituary.

We have to chronicle the death of Mrs. Hyndman, which took place yesterday morning at her residence, Prince Street. Mrs. Hyndman was the youngest daughter of James MacNutt, of Darnley, who came to this Island in 1781 with Governor Patterson, as private secretary, and grand-daughter of Chief Justice Peter Stewart.

Mrs. Hyndman enjoyed good health until within three years of her death, when a fall considerably injured her, since which time she has suffered more or less from its effects. About a week ago she was attacked with influenza now prevalent, and after several days severe suffering, passed peacefully away at 7.45 Sunday morning.

Hon. Mr. Lefurgey's Funeral.

STIMMSIDE, May 9, 1891. To the W. M. Wards and Brethren of Victoria Lodge, A. F. & A. M., Charlottetown:— BRETHREN,—The funeral of our late Bro. Hon. John Lefurgey will take place on Wednesday next at 2 p. m. with Masonic honors. All members of your Lodge, or as many as can possibly attend are cordially invited to participate in the funeral ceremonies.

Boston Markets.

EGGS.—The arrivals have been a little higher than last week and the market has been gradually gaining strength. Demand has been steady but not particularly active. At the close strictly extra western are selling fairly at 16c. with good firsts at 15 1/2. Eastern are in light supply and extra marks firm at 16c.

Personal.

His Worship the Mayor, Mrs. Haviland and Miss Haviland are ill. They have the prevailing influenza. The Mayor is reported better to-day. Mr. Sam. T. Austin, of the firm of Austin & Robertson, wholesale stationers, Montreal, is in the city. He reports business in his line booming. Mr. Theo. L. Chappelle, Grand Master, returned from his visitation of a few of the lodges in Nova Scotia, on Saturday evening, well pleased with his trip. He reports the order in a most flourishing condition.

There is still nearly one thousand dollars on the Baptist Church building subscription list unpaid, and the Committee have large payments to make in a few days, and request that those friends who so kindly subscribed will help the Committee now to meet their obligations at an early date. Subscribers, your prompt attention will greatly oblige.

A NARROW ESCAPE.—A little boy, four years of age, son of Mr. Andrew Mooney, Little Harbor, had a narrow escape a few days ago. The little fellow sat behind the kitchen stove with his back to the wall, when his foot tripped the rear leg of the stove, upsetting it. The waist of the stove pinned the little fellow to the wall. The contents of a pot of soap, which was on the stove at the time, together with a kettle of boiling water, also upset. A portion of the soap poured over the boy's clothing, which, however, owing to the thickened consistency of the soap, did not penetrate through the clothing. The waist of the stove saved, to a great extent, his face from being scalded; and, strange to say, he came through the ordeal with but a small cut on his forehead.

News of the World.

PECULIAR RAILWAY ACCIDENT.

CHICAGO, May 8.—Damage amounting to \$100,000 was caused by a peculiar accident on the Western Indiana Belt Line, near the West Lake street crossing at about noon. Before the Chicago and Northwestern yards are reached by the Belt Line there is a heavy grade, and in descending this grade the wheels of the locomotive spread, causing the engine to leave the rails. The engineer and fireman had barely time to jump when the locomotive fell partially through the trestle work, two tank cars of oil in the train behind spilling on top of it, the oil was ignited by the coal in the fire box, and cars and locomotive and much of the trestle work was destroyed.

DULL TIMES THE CAUSE.

PHILADELPHIA, Pa., May 8.—The Spring Garden National Bank closed its doors this morning by order of the comptroller of currency. The president of the bank says the trouble is caused principally by the large withdrawal of deposits during the financial stringency which commenced last September, and to the continued dullness in business ever since.

The Pennsylvania Safe Deposit and Trust Co., which has its office in the Spring Garden National Bank building, assigned this afternoon. The Pennsylvania Trust Co. is part of the Spring Garden Bank, but is said to be solvent, the assignment being simply for protection against a run.

FRIGHT TURNED HER HAIR WHITE.

PORTSMOUTH, N. H., May 8.—Nine years ago the wife of John Murphy, then a young girl, was assaulted by her stepfather. The man was not prosecuted, upon his promise to remain out of the state for 12 years. Last night he suddenly appeared at a window near which Mrs. Murphy was sitting and held up a large card on which was written: "I have located you, and have returned for revenge." Mrs. Murphy fainted, and when she recovered, a few minutes later, her hair had turned from brown to gray. The cause of her fright disappeared as mysteriously as he had appeared.

WITH A PIN IN HER THROAT.

BALTIMORE, Md., May 8.—Annie Glasser, a school-girl in her ninth year, lies at her home at the point of death with a pin in her throat. She swallowed it about ten days ago. A neighboring physician tried to relieve her, but was unable to find the pin, and she was taken home. Blood continues to flow from the wound, and the pain was so intense that after being placed in bed she went into convulsions. Two surgeons were called in, but they have been unable to extract the pin or even locate it. The girl cannot eat or sleep, and suffers excruciating pain. She is gradually wasting away. The pin is believed to be imbedded far down in the left side.

UNIVERSAL POSTAGE RATE.

LONDON, May 8.—A deputation called to-day upon the Right Hon. Geo. J. Goschen, Chancellor of the Exchequer, for the purpose of laying before him the arguments in favor of the establishment of a universal rate of penny postage to all parts of the British empire. Mr. Goschen replied that it would be impossible to lower the postal rates. The government, he said, already lost £27,866 in four months by the reduction in colonial postage.

A RUSTY NAIL AND DEATH.

ST. CATHERINES, May 8.—Maria Connolly, a former resident of this city, but who has lately been living with relatives near Reynoldsville, died yesterday morning of lockjaw after intense suffering at the age of sixty years. About a week ago Mrs. Connolly while out in the yard, stepped on a rusty nail, which penetrated her foot. Nothing was thought of the matter until the foot began to swell, when medical aid was useless.

A LITTLE GIRL FRIGHTENED TO DEATH.

MARION, Ala., May 8.—Edith Brown, a beautiful girl of seven years, was frightened to death a few days ago by a St. Bernard dog. She was passing along the street, and the dog ran viciously to the fence and bounded against it, climbing up on the railings. The child screamed and fell to the ground. Passers-by came to her assistance, but when they reached her she was gasping, and in a few moments was dead.

CARPENTERS' STRIKE OFF.

BROCKTON, Mass., May 8.—The carpenters' strike in this city seems to have collapsed. Although no adjustment has been arrived at between the union and the employes, it is quite freely reported that the strike is off, and the men are returning to work at the old wages.

ENGLAND'S PREVENTATIVE.

LONDON, May 8.—England has annexed a strip of territory she has hitherto protected on the western frontier of Bochnianland in order to prevent the threatened "trek" of Boers and Damaras.

A TRAIN CARRIED AWAY.

ROME, May 8.—A quarry train carrying many workmen was carried away by a sudden flood at Allerona, province of Umbria, to-day. The water rose over the river banks and engulfed the train. Many workmen were drowned.
