

DULY.. cont'd from page 16  
 tion of their best songs from their first four or five albums (of which 'Forever Changes' is apparently the best, though I have never been able to get a hold of it.) Their music ranges from hard rock to the weird but lovely music of '67. Certainly not an album meant for everyone but a great but if found in a deleted section (I managed to get it for 49¢)

The Grateful Dead, along with the Jefferson Airplane were the main groups in the San Francisco hippy scene. Their first few albums are your basic loud, electric, and poor psychedelic music, which all the hippies raved about at the time but which probably never grace anyone's turntable now. But this album is just excellent, soft rock music. The central piece of the album, 'Ripple', is beautiful. I highly recommend it.
