Grain

WINNIPEG, July 7 - (CP) - Coarse grain futures prices moved narrowly in dull trading today on the Winnipeg Grain Exchange. However, prices showed an easier tone at the close with some increase in offerings. Commercial demand in oats and barley was limited to a few shipping purchases with offerings in flax was attributed to seaboard accounts and trade reports indicated a small export business in flax had developed with the continent. Rye attracted some support from American interests. No information was available on overnight loadings of Canadian wheat for export. Prices of class two and I.W.A. wheat were down 1/2 cent.
