VARIETIES.

IMITATIVE POWERS OF THE CHINESE.—It is generally supposed that the Chinese will not learn anything: but no people are more ready to learn if it is likely to be attended with advantage. They have lately been taught to make glass, and turn out bronze argand-lamps and globes, emblazoned with the London maker's name all complete; and actually export these lamps to Batavia. They like putting an English name on their commodities, and are as free with the word 'patent' as any manufacturer in Germany. They excel in the manufacture of locks, particularly padlocks. One of my friends gave an order to a tradesman to varnish a box, furnished with a Chubbs' lock, of which he had two keys, and one of these he sent with the box, retaining the other himself. When the box came back, he found that his key would not turn the lock, though the one he had given to the tradesman acted very well. Thinking some trick had been played, he accused the man of having changed the lock; and after some evasion, he acknowleged the fact, stating that, on examination, he had found it such an exellent one, that he took it off and kept it, making another exactly like it. with the maker,s name, and everything complete, except that the original key would not open it. There mechanical contrivances generally have some defect of this kind. They have never made a watch that will keep time, through they greatly prize watches, and usually carry two. If you ask the reason of this fashion, their reply is: 'Spose one makee sick, other can walkee.'—(A Sketcher's Tour Round the World.)

The Representatives.—A rich youth in Rome was suffering from a dangerous illness; at length he recovered and regained his health. Then he went for the first time into the garden, feeling, as it were, born again! and praised God with a loud voice. He turned his face to heaven, and said: "O, thou all-sufficient Creator, could man recompense Thee, how willingly would I give Thee all my possessions!"

Hermas, who was called the herdman, heard this, and said to the rich youth: "All good gifts come from above; thither thou canst send nothing. Come, follow me."

The youth followed the pious old man, who took him to a dark hut, where was nothing but misers and wretchedness. The farher was stretched oa a bed of sickness, the mother wept, the children were destitute of clothing, and crying for bread.

The youth was deaply touched. Hermas said: "See hear an alter for thy sacrifice. See hear the Lord's brethern and representatives."

Then the rich youth assisted them bountifully, and provided for the sick man's wants. And the poor people blessed him, and called him an angel of God.

Hermas smiled, and said: "Thus turn always thy greatful countenance first to heaven, and then to earth."—[Krummacher.]

"Mother sent me," said a little girl to a neighbor, "to ask you to come and take tea with her this evening."

"Did she say at what time?"

"No ma'ma; she said she would ask you, and the thing would be off her mind; and that was all she said."

A student of Latin, being confined to his room, was called upon by a friend.

"What, John, sick?"

"Yes, SIC SUM!"

Our friend C. was travelling lately in the cars, when a man come up and asked him for his fare.

"Who are you?" said C.

"I? my name is Wood, and I'm the conductor."

"Oh," says C., "that can't be, for wood is a non-conductor."

WHAT NEXT.—A memorial, four hundred feet long, asking Congress to appoint a scientific commission for the investigation of spiritual manifestations, has been taken to Washington by Professor S. B. Brittan.

THE BIBLE FOR SOLDIERS.—The Chaplain-General, Rev. C. R. Gleig, announces that the Naval and Military Bible Society has furnished a copy of the New Testament to every soldier in the army now proceeding to the East.

A GOOD REASON HE COULD NOT DO IT.—Blitz had a bright little fellow on the stand to assist him in the "experiments."

"Sir," said the Signor, "do you think I could put the twenty-five cent pieces which that lady holds, in your coat pocket?"

"No," said the boy confidently.

"Think not?"

"I know you couldn't," said the little fellow with great firmness.

"Why not?"

"Cause the pocket is all torn out!"

The Renowned Remedy!

HOLLOWAY'S OINTMENT.

A MOST ASTONISHING CURE OF SCROFULOUS ULCERS—A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Muyor of Boston, Lincolnshire.

To Professor HOLLOWAY,

Dear Sir,—Mrs. Sarah Dixon, of Liquorpond street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly adhering to your rules, as to diet, &c, she was perfectly cured, and now enjoys the best of health.

I remain, Dear Sir, yours truly,

(Signed) J. NOBLE.

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD FAILED.

Copy of a Letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussex, dated January 12th, 1853.

To Professor HOLLOWAY,

Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Oinrment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighborhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful Servant,

(Signed) ELIZABETH YEATES.

A DREADFULLY DISEASED ANCLE CURED AFTER BEING GIVEN UP BY THE FACULTY, AT MALTA AND PORTSMOUTH HOSPITALS.

The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King-st., Norwich.

Copy of a Letter from Captain Smith, of Great Yarmouth, dated January 19th, 1853.

To Mr. DIXON,

Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's invaluable medicines:—Mr. John Walton, late in Her Majesty's Service, in the British Fleet at Malta, had a very bad ulcerated ancle, and after having been in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, as at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months, but his ancle became so much worse that all hope was lost. At this period, by my advice, he tried Holloway's Ointment and Pills, which, by unremitted application, healed all the ulcers, and restored him to perfect health and strength.

I remain, Dear Sir, yours very truly,

(Signed) JOHN SMITH.

SURPRISING CURE OF A BAD BREAST, NERVOUS DEBILITY, AND GENERAL ILL HEALTH.

Copy of a Letter from Mr. T. F. Ker, Chemist, &c., Lower Moss-lane, Manchester, dated February 12th, 1853.

To Professor HOLLOWAY,

Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected solely by the use of your celebrated Oiatment and Pills. Mr. Martha Bell, of Pitt-street, in this town, had been for a considerable time laboring under nervous debility, loss of appetite. and general ill health, occasioned by ulcerated wounds in the breast. She had had much experience in the use of all the known remedies for the curc of ulcers, but without any beneficial result; in fact she had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and mind, she was persuaded to have recourse to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved, and the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed.

I remain dear Sir, yours faithfully,

(Signed) T. FORSTER KER.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for ar effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*--one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.
