Urges New Effort For "Cease Fire" In Korea Conflict

OTTAWA, Feb. 10 — (CP) — A British Columbia senator suggested Friday a new effort to obtain a cease-fire in Korea should be made in the form of an open United Nations appeal for Communist withdrawal from the southern part of the beleaguered peninsula.

The suggestion came from Senator J. G. Turgeon, a Liberal and member of the Canadian delegation at the recent U.N. sessions at Lake Success. He said at the same time the U.N. should ask the unified command to have U.N. forces advance to the 38th Parallel and "then stop all fighting."

He had personal hopes, he said in the Throne-Speech debate in the Upper Chamber, that such an appeal coming directly from Nasrollah Entezam of Iran, U.N. Assembly president, would be accepted.

It was true the Chinese Communists were closely allied with Russia, but they had not forgotten Russia's desire to obtain control of Korea, Manchuria and Sinkiang.

Senator Turgeon praised the work of External Affairs Minister Pearson in the United Nations. At a press conference earlier in the day, Mr. Pearson said the question of the U.N. forces crossing the 38th Parallel in Korea should be treated "with care." Canada hoped no move would be made regarding sanctions against Red China until all avenues of negotiation had been investigated.

Senator Turgeon said the Russian brand of Communism was out to destroy spiritual life. The best weapon to defeat this was a resurgence of faith in God.

He said branding Red China as an aggressor in Korea was the only possible action the U. N. could take and he was glad Canada had concurred.

Network Of Fighter-Bomber Bases Planned

PARIS, Feb. 10—(AP) — The United States and her Atlantic Allies are blueprinting a network of fighter-bomber bases all around the Mediterranean, authoritative sources said Friday.

Equipped to handle everything from jet fighters to B-50 bombers, the bases will stretch from the Atlantic to the Persian Gulf, high-level sources said.

The main purpose of the network, it was reported, is to advance the forward positions available to high speed aircraft for use "against any possible enemy." Some of the new bases will be within 500 miles of Russia.

France already has made available to the U. S. Air Force the sites for seven of the airbases, all of them in Morocco. The others include, according to best information here, two more in Libia, one on the Island of Cyprus, two in Iraq, and possibly more.

Britain is reported making airbase sites available to the U. S. in Cyprus and Iraq.

Band Leader Duchin Dies In New York

NEW YORK, Feb. 10 — (AP)— Band leader Eddie Duchin, 41, whose nimble-fingered piano playing delighted millions of dancers, radio listeners and movie fans, died tonight of cancer.

Only a few hours earlier, the United States Navy cited him for his Second World War service.

He enlisted in the navy at the age of 33 and served in some of the toughest engagements both in the Atlantic and Pacific.

Duchin studied to be a druggist and worked at a soda fountain as a youth before his great piano playing got him started on a musical career.

His first wife was a sugar heiress Marjorie Oelrichs, who died two years after their marriage and six days after the birth of his only son. He later married again.

The hospital gave the cause of death as leukemia, a form of cancer of the blood.

Duchin in 1947 married Maria Teresa Winn, who survives.

Duchin claimed to be able to play any tune after hearing it once. But no matter how long he studied it, he said he never could learn the lyrics.

His finger's were reported to have been insured at one time for $150,000.

all those two-legged folks called humans. Farmer Brown's boy was coming his way. Reddy Fox began to move away. Presently he began to trot off toward the Old Pasture. Blacky the Crow left Farmer Brown's boy and came over to circle above poor frightened Flaptoes. It was just as if he were trying to tell Farmer Brown's boy where Flaptoes was.

It is a terrible thing to feel helpless. There is no more dreadful feeling than that when there is danger. Farmer Brown's boy came straight on. Flaptoes dived. When he came up, Farmer Brown's boy was standing near watching. Flaptoes dived again. When he came up the next time Farmer Brown's boy was on his way home.

Half an hour later Flaptoes had another fright. Farmer Brown's boy was coming back. He was carrying a long-handled net. When he got to the edge of the hole Flaptoes had dived again. It was his last dive.

Mrs. Ambrose Steele, Morell, reported the Guides there to be making progress. They are formulating plans for the celebration of Thinking Day and hope to hold a church parade on Guide-Scout Sunday.
