Johnson's Anodyne Liniment
 There is no medicine in use today which possesses the confidence of the public to so great an extent as Johnson's Anodyne Liniment. For more than eighty years it has stood upon its own merits, while generation after generation have used it. The best evidence of its value is the fact that in the state where it originated, the sale of it is steadily increasing.

Parsons' Pills
 "Best Liver Pill Made."
 This certifies that Dr. A. Johnson, whose name is on every bottle of Johnson's Anodyne Liniment, in the month of Jan. 1896, sent me a box of your Pills. I have supplied my customers with it ever since, (over fifty years) with increasing success. I have never known a case of Liver trouble that was not cured by your Pills. scrofula
 Any doctor will tell you that Professor Hare, of Jefferson Medical College, Philadelphia, is one of the highest authorities in the world on the action of drugs. In his last work, speaking of the treatment of scrofula, he says: "It is hardly necessary to state that cod-liver oil is the best remedy of all. The oil should be given in emulsion, so prepared as to be palatable."
 He also says that the hypophosphites should be combined with the oil.
Scott's Emulsion of cod-liver oil, with hypophosphites, is precisely such a preparation.

NEWS NOTES.
 The Emperor of Russia offered the Order of St. Andrew to Lord Salisbury during his visit to Balmoral, but it was declined, in accordance with the rule which forbids a British minister to accept any foreign decoration. Except royalties, the only British knight of the Order of St. Andrew has been the Duke of Wellington, who received this order from the Emperor Alexander I.

The ability of the medical profession to prolong human life is brought into question by a table of official statistics recently published in Russia. It seems that within Russia's borders there are only 18,000 medical men; that is to say, one for every 6,000 inhabitants, as against the proportion of one to every 1,800 in France, and one to 1,600 in England; and yet it has been shown that the Russians live longer than the people of any other country in the world.

VEGETARIANISM.
 Some Celebrated People Who Eaten Animal Food.
 "The future is with the vegetarians," said Prof. Virchow, Germany's greatest medical scientist, some time since, when interviewed upon the subject: "What will people eat in the future? It is interesting to note how many distinguished people belong to the class of non-meat eaters."

Value of Weather Forecasts.
 The great commercial value of the weather forecasts can be shown by specific instances. During each of the severe tropical storms of last September and October more than 1,000 vessels in the first class and more than 1,200 in the second were detained in port on account of the predictions of the bureau, the value of vessels and cargoes thus sheltered amounting to more than \$20,000,000. Of 250 vessels in New York bay, when notice was given of the September storms, only two ventured to disregard the signals. One of these put back after reaching Sandy Hook; the other kept on, and arrived in port five days overdue, in a badly crippled condition, and her mainmast carried away and two men washed from her deck.

 "In fact, it's such a perfect foot, it's a pity to have it made."
