Visitors From Washington

Canadians will welcome President Eisenhower and Secretary of State Dulles as they arrive for "goodwill" talks with Prime Minister Diefenbaker and other Government members.

At his press conference last week, Mr. Eisenhower stated that the purpose of the visit was "to make relations as close as we can possibly make them."

The specific problems mentioned by the President have to do with water resources, oil, lead and zinc and surplus wheat. These are economic affairs; and no doubt, as the President said, sensible men "ought to be able to find ways and means of adjusting whatever differences may be in the way of full co-operation."

There is reason to believe that American officials are revising this estimate of Canadian discipline, following Prime Minister Diefenbaker's outspoken criticism of American trade policies; criticism which, incidentally, has received a surprising amount of favourable comment in the American press.

Good News For Pictou

Prince Edward Islanders will rejoice with their Pictou neighbours over the news that the Nova Scotia town is not to lose one of its main industries after all.

In making the announcement Mr. Metcalf noted that "the fighting courage, faith and enthusiasm of the Province protesting the plant shut-down prompted the decision."

EDITORIAL NOTES
Works Minister Green has reported that as far as material for the main fill of the proposed P.E.I.-N.B. causeway is concerned, everything is satisfactory.

Juvenile Records
A bill that would amend the Juvenile Delinquents' Act to maintain secrecy for files, reports and records of juvenile trials, and have the records destroyed after five years, was "talked out" in the House of Commons.

Juvenile Records (continued)
A member of the Senate says that "lack of publicity" is the main reason for criticism that the Senate is practically useless. That's news to us.

for "nothing more serious than riding a bicycle on the sidewalk." Mr. Aiken said it is important that the records be destroyed and the person be informed so that he will know he has been forgiven by society.

Regardless of the latter consideration, the proposed bill represents a progressive step in the administration of justice and it is to be hoped that it will eventually be given full consideration by Parliament.

Proposed Seaway Tolls

The proposed tolls to be paid by ships using the St. Lawrence Seaway, now nearing completion, were announced recently by the Seaway tolls committee of Canada and the United States.

These hearings will be worth watching. The Dominion Marine Association, which represents Canadian shipping, the Interprovincial Farm Union Council, iron ore shippers, oil companies, pulp and paper manufacturers, and others who expect to use the Seaway, have urged that no tolls be levied but that the cost of building and operating the project be charged against public funds.

SUMMER POST CARDS

OTTAWA REPORT

President Eisenhower's Visit

By Patrick Nicholson
Special Correspondent for The Guardian

OTTAWA — President Eisenhower, accompanied by his chief adviser on international relations, Mr. John Foster Dulles, is visiting Prime Minister John Diefenbaker in Ottawa this week.

This is the first visit of the U.S. President to our capital since Mr. Diefenbaker became our Prime Minister; but it is not the first meeting of the two government heads since that date.

However, owing to the hurried nature and full ceremonial programs of that earlier meeting, this is the first occasion on which our Prime Minister and our neighbour's President will be able to indulge in full, free and frank discussions of world affairs as they affect our two countries.

On the eve of his departure for Canada, Mr. Eisenhower was given some outspoken and timely advice on U.S.A.-Canadian relations by one of his supporters, Senator George D. Aiken, a Republican from Vermont who is a member of the Senate Foreign Relations Committee.

TOLD ABOUT CANADA
The Senator recalled that his committee recently devoted "a full day of hearings" to the subject of United States policy with respect to Canada.

PUBLIC FORUM
This column is open to the discussion by correspondents of questions of interest. The Guardian does not necessarily endorse the opinion of correspondents.

WEST RIVER CAUSEWAY

Sir—I was amused by "an old West River Resident" apology in The Guardian of June 25th, with regard to the new West River causeway.

THE ACADIANS OF P.E.I.

A Harrowing Description

By J. Henri Blanchard, LL.D.

(Letter of de Villejoie, commandant at Port Lajoie, to the Minister at Paris, written on board the transport which carried him to England, Sept. 8, 1758. Continued from yesterday.)

"A request was presented by the inhabitants to Colonel Rollo, who came to take possession of the island in the name of his Britannic Majesty, asking permission to remain on their lands.

On the one hand, he lauds the engineering, structural elegance and permanency of the project, and on the other hand he attempts to forestall future criticism of his party, by trying to impute that the Conservative Party is practically a co-partner with the present government, in the perpetration of this colossal and costly blunder.

Tips For Minor Summer Hazards

By Herman N. Bundessen, M.D.

WITH the children constantly on the go these warm summer days, it's only natural for them to collect a few minor injuries, such as animal bites and, of course, insect stings.

So let me give you a few emergency treatment tips for these minor summer hazards.

MOST COMMON INJURIES

Cuts and wounds probably are among the most common of these injuries. Applying pressure with sterile gauze at the site of the cut will generally halt the flow of blood.

Once the blood stops, you can apply 2 per cent Mercurochrome or one-half strength iodine and then bandage with sterile gauze.

CHEMICAL BURNS
And remember, when iodine is used, it must always be removed with alcohol before dressing is applied.

BRUISES AND ABRASIONS
Bruises and abrasions are probably the next most common summertime injuries.

TREATING ABRASIONS
Some abrasions might be dirty and need cleaning. In such cases, sponge off the area gently with mild soap and water, blot it dry and then cover it with 2 per cent Mercurochrome and, if necessary, apply a sterile dressing.

STINGS AND BITES
The sting or bite of just about any insect can be soothed by applying a wet pack of baking soda.

STINGS AND BITES (continued)
If the swelling is pronounced, and accompanied by pain, suspect a fracture. Run your fingers GENTLY over the point where you think the break might be.

NOTES BY THE WAY

It is doubted if even an inveterate worrier can do a great deal of worrying while eating strawberry shortcake.—Kitchen-er-Watrlow Record

OUR YESTERDAYS

(From The Guardian Files)
TWENTY-FIVE YEARS AGO
(July 8, 1933)

The annual convention of the Women's Institutes of P. E. I. opened yesterday at Prince of Wales College with Mrs. S. J. Rose, South Lake, President, occupying the chair.

Constable E. G. H. Waldron, of the R.C.M.P., who has been stationed here during the past two months, has been transferred to Ottawa.

TEN YEARS AGO
(July 8, 1948)

The Maritime section of the Canadian Society of Forest Engineers was welcomed to the province last night by Mr. R. C. Parent, Superintendent of the local Dominion Experimental Farm.

Mr. James R. Brow, Professor of Physics at Prince of Wales College, has been appointed acting vice-principal of that institution, it was learned yesterday.

TOOK RCAF BASE
MONTREAL (CP) — About 60 members of Parliament arrived here by air Saturday on a day's inspection tour of aircraft installations here and at the RCAF Air Defence Command base at nearby St. Hubert, Que.

ROCASTRADA, Italy (Reuters)—A Roman Catholic priest was acquitted Thursday of charges of defamation after he had described couples married by civil authorities but not the church as "public sinners living in scandalous concubinage."

CRUTCHES HAVE WINGS
He lives next door and jostles at his ease. Despite the irons that chafe his wasted knees. He comes to picture, with an artist's touch, The costumes of the Spaniards and the Dutch, And takes me by the hand to guide me through The splendors of an ancient avenue.

He thumps along beside me. I go With watchful eye upon a granite row And pauses by a trellis to close How God conceived the glories of the rose; To tell me why a toad has warty skin And where a spider finds a thread to spin.

Each time he comes my sky is blue, serene, And I forget the sordid and the clean; As he departs I search my brain for A fitting phrase, a worthy metaphor To designate this lad whose every touch Belies the limitations of a crutch.

—S. Barlow Birt
