☞ HIS EXCELLENCY Sir Richard Graves McDonnell, Lieut. Governor of Nova Scotia, accompanied by his Private Secretary, M. B. Daly, Esqr., made an unexpected visit to this port yesterday in the Revenue Cutter *Daring*. They were guests of His Excellency George Dundas, Esqr., and expected to leave again, we understand, to-day.

SAINT CECILIA CHORAL SOCIETY.

The Second Session of the above named Society will commence on Sunday evening next, the 31st of July, at 7½ o'clock, in St. Andrew's Hall, upper Pownal-street. A full and punctual attendance of the members of the Society is expected.

The members of the Committee are requested to meet next Saturday evening, 30th July, at 8 o'clock, in the same Hall, for the purpose of making preliminary arrangements for the ensuing Session, and transacting other business.

W. MALONE, Sec'y.

Charlottetown, July 25, 1864.

TEMPERANCE TEA AT RUSTICO.—The Temperance Demonstration and Tea came off at Rustico on the grounds of the Church of St. Augustine, on the 14th June. Notwithstanding the threatening aspect of the morning, vast crowds were, from an early hour, seen wending their way to the grounds pointed out by the flag of old England which was unfurled to the breeze. The members of the Society turned out with temperance badges to commemorate that noble patron of temperance—St. John. His Lordship the Bishop of Charlottetown performed divine service, assisted by the Very Rev. Dr. McDonald and Rev. James McDonald as Deacon and sub-Deacon. The Rev. A. Z. Trudelle then ascended the pulpit, and delivered, in the French language an eloquent sermon, appropriated to the occasion. The very Rev. Dr. McDonald also preached an excellent sermon in his usual happy and pleasing style, in the course of which he sketched the birth, life and death of St. John, in a manner well calculated to promote temperance and every other christian virtue, and particularly calculated to prevent intemperance from laying waste the field of humanity. During the day, the proceedings were enlivened by the music of the Rustico Band, which has been recently established, and is being taught by our zealous and competent organist, Mr. J. T. Lundry, late of Canada. The tea tables were tastefully laid out by the ladies, and bountifully supplied with every requisite for 900 persons, of different creeds and different countries; but all cheerfully participated in the amusements of the day, and did every justice to the refreshments.

TEA PARTY AT SOUTH WEST.—A Tea Party, under the auspices of St. Joseph's Temperance Society, came off at South West on Monday last, and was attended by about 2000 persons. Divine Service was held at 9 o'clock, at which the Rev. A. McDonald, Rector of St. Dunstan's College, taking for his text the 8th Psalm, preached a most eloquent sermon, and descanted in vigorous language on the dignity of man in his true state, and the degradation to which, too frequently, he descended through intemperance. It is to be hoped that the Rev. gentleman's words, which had a marked effect upon the congregation, or at least that portion of it which could find room in the church, will be productive of much good. After Mass, the Temperance Society, numbering many hundreds of young and old, joined in procession, with green scarfs and banners, and headed by the City Amateur Band, marched from the church along the road to the grounds where the tables were being prepared for tea. Dancing, promenading, music from the band, and the wild notes of the bagpipes, entertained the multitude until tea-time, that is about 3 o'clock. The "spread" was of the most varied, as well as of the most substantial kind, and reflected the highest credit upon the taste and skill of the ladies of South West. It is needless to say that every justice was done to the "good things." Next came Temperance speeches—first from the Rev. Mr. Strong, Wesleyan Minister, who was very happy in his remarks—the evils of intemperance and the blessings of sobriety being pointed out in striking contrast. He was followed by the Rev. Rector of St. Dunstan's College, whose remarks were, as usual, of the most practical kind. Mr. Reilly, of the 'Vindicator,' also offered a few observations on the subject of temperance, which, together with some closing remarks from the Rev. Mr. De Langie, completed the speechifying. Three hearty cheers were then proposed for the Rev. Mr. De Langie, whose indefatigable exertions and attentions to the wants and comforts of his friends, powerfully contributed to the success of the entertainment; and the Rev. gentleman must feel fully rewarded for all his exertions by the commendable order and propriety observed throughout the whole day, by the vast assemblage in attendance—a circumstance in itself speaking strongly in favour of temperance.—VIS.

SUSPICIOUS CRAFT.—Two fine steamers of about 2000 tons each, called the *Fire Queen* and the *Foong Suey*, recently built at New York, arrived the other day at St. John N. B. They are in search of British registers, to protect them from Confederate cruisers, on their voyage to China, whither they are said to be bound. They are a singular kind of craft to venture on a voyage round the Cape, being regular river boats. It is whispered, however, that the China trip is only a dodge of the New York owners, to cover blockade running intentions; and that British registers and nominal owners for these steamers are sought to save the New York contrabandists from Fort Lafayette, in the event of their ventures coming to grief.

It is said that a Swedo-Norwegian squadron has received orders immediately to put to sea and to concentrate in the waters of Gothenburg as a fleet of observation.

The depopulation of Poland continues, and letters from Warsaw and other places describe acts of the most atrocious cruelty on the part of the Russians.

The Paris correspondent of the *Times* asserts that in those parts of Mexico under the immediate protection of France, prosperity is greatly on the advance.

In the House of Commons Mr. Layard stated, in reply to Lord R. Montagu, that the Government had not been informed that Sweden intended to support Denmark in her present struggle with Germany.

By advices from Rome we learn that the health of the Pope has been so thoroughly restored that his Holiness has been enabled to perform his usual part in the grand festival of St. Peter, the patron saint of the city.

HOLLOWAY'S OINTMENT AND PILLS.—Dropsical Swellings.—Whatever may be the remote cause of collections of water in the human body, it must be prudent to disperse them as soon as possible. The readiest means of accomplishing this end are supplied by using Holloway's Ointment, to increase the activity of the absorbents. When this Ointment is well rubbed upon the skin, it removes all venous congestion, overcomes all mechanical obstruction to the free return of the blood, and prevents the deposit of serum and water. Holloway's Pills, likewise, augment this absorbing power; they act more circuitously on the capillaries through the circulation, while his Ointment acts directly through the skin. Both should be employed in dropsies and diseases of the kidneys.

FOR COUGHS, COLDS, AND THROAT DISORDERS, use *Brown's Bronchial Troches*, having *proved* their efficacy by a test of many years. The Troches are highly recommended and prescribed by Physicians and Surgeons in the Army. Soldiers and Officers being exposed to sudden changes, should always be supplied with "*the Troches*," as they give prompt relief.

R. R. R.

COVERED WITH SORES.

COVERED WITH SORES.

COVERED WITH SORES.

Gov. John J. Middleton, U. S. Minister to Russia, under the administration of President Polk, certifies that a favorite servant of his was covered from head to feet with the most frightful sores. In a letter to Mr. James Palmer, who is at present Secretary of the Drug Exchange, and a wholesale Druggist in Philadelphia, stated that Radway's Renovating Resolvent made a perfect cure. There is no medicine in the world that will cure Skin Diseases, Fever Sores, Ulcers, Scrofula, Chronic Diseases, Salt Rheum, Strumous Discharges from the Ear, Glandular Swellings so quick and thoroughly as Radway's Renovating Resolvent. One to six bottles will cure the worst case. Price $1 per bottle. Sold by Druggists.

A THING OF BEAUTY, IS A JOY FOREVER.

Who can be beautiful with a sickly pale complexion. Keep the pores of the Skin free, and the blood pure, and your cheeks will vie with the Rose and Lily. The Skin is formed with thousands of pores in every inch of surface whose office it is to carry off the impurities of the blood—the acknowledged cause of all diseases of mankind—when the skin is dry and parched—when it is covered with eruptions—when it is cold and clammy—when there is inward fever or inflammation—it is impossible for the skin under these circumstances to perform its proper functions, and to carry off the impurities from the body as designed by our Creator.

JUDSON'S MOUNTAIN HERB PILLS remove these obstructions, and produce free and healthy blood, remove the eruption from the skin, and cause it to brighten with the flush of youth and beauty. Beauty so much admired and loved. Beauty without paints and cosmetics— but beauty produced by health and happiness.

Judson's Mountain Herb Pills are sold by all Medicine Dealers.

During the thunderstorm which occurred on Wednesday the 13th instant, the Brig lately launched by Messrs. Davidson & Dingwell, Rollo Bay, was struck by lightning. The royal and top gallant masts and top-sail yard were considerably damaged. We are happy to state that although a number of men were working in and about the vessel no one was injured.—*Com.*

The Steamer *Heather Belle* towed out of port on Monday last, the Brig *W. W. Lord*, bound to Bermuda and Nassau, having on board some sixty tons of screwed Hay, a quantity of Oats, Pork, Potatoes, Butter, Fish, Horses, Cattle, Sheep, Poultry, &c., &c., shipped by Hon. D. Davies.

DEATH BY DROWNING.—On Monday last, the 18th inst., John Berrigan, a native of Ireland, aged ninety-six years, was found drowned in Mr. John Henderson's mill-pond, between the Brackley Point and Union Roads, near the residence of his son Edward Berrigan. An inquest was held on the same day before John McMeill, Esq., one of the Coroners, when a verdict of "accidentally drowned" was returned. At the time of the occurrence, none of Mr. Henderson's family were about the mill or mill-dam

DROWNED.—On Saturday the 10th inst., a young man, named Daniel Currie, of Mill Vale, Lot 22, was drowned under the following circumstances. Wishing to inspect a Dredging Machine on Trout River, and not being able to procure a boat for the purpose, he proceeded to wade to the machine, as the water was not over his depth. He safely arrived at the dredging machine, but on returning to the shore, he made a slight detour which brought him into the channel of the river, and, being unable to swim, he immediately sank. Several persons, who were spectators, hastened to the spot, and, after twenty minutes searching, the body was recovered, but life was extinct. He was highly respected by all who knew him, and a large concourse of friends assembled at his funeral on the following Tuesday, thus testifying their respect for his manly character, and their sympathy to his friends for his untimely and melancholy death.—*Vin.*

A Corner's Inquest was held before W. H. Williams, Esq., at Souris, on the body of a young man named Charles Bushy, a resident of that place, who died from the effects of injuries received in a quarrel with Peter McInnis, foreman for Hon. D. Beaton. They met at Poquet's forge, and some joking was carried on between the parties, when Bushy (who it appears had been drinking too freely) cast some reflections on McInnis's wife, a woman very respectably connected, which so irritated McInnis that he knocked Bushy down and jumped upon him, inflicting the injuries which caused his death. The jury returned a verdict of "Manslaughter," and McInnis has been committed to jail to await his trial.—*Com.*

St. John papers complain that the steamer *Commerce* is affecting the traffic in the steamers to that city and the railway to Shediac, by taking a share of the passengers and freight for P. E Island that used to go by the St. John and Shediac route.

The *scarlet* fever rages in the West "During the recent furlough of the Scotland Iowa Cavalry two hundred marriages took place in the regiment, there being twenty-nine marriages in one company alone."

Despatches from Greece give a sad picture of the political and financial position of the dominions of King George. The Ionion Islands are threatened with anarchy.

When it became known that the State of New York intended paying its foreign creditors their interest in greenbacks, the merchants of that city opened a subscription list with a view to pay in gold. However, it will be found by the following, which we clip from the Boston *Courier* of Saturday last, that the subscription list has fallen through, and that foreign creditors must either take greenbacks or nothing:

"THE BEGINNING OF THE END."—"The interest due to the foreign creditors of the State of New York is not to be paid in gold. The subscription has fallen through. The richest State in the Union, and the greatest city in the land, are willing to be guilty of the grossest breach of faith, of what is no better than legalized swindling. This is the work of a Republican legislature, contrary to the efforts of a Democratic Governor. This is Repudiation. But venture to hint that the debt of the nation will not be paid in full, and you are a traitor and a copper-head. Is there any State in the Union better able to pay its debts than New York? and yet, you see, it does not. And who cares? Who thinks about it? This is the beginning of the end. This is Republican morality. All persons having money to lend will please make a note of the above."

Married.

At Georgetown, on the 12th instant, by the Rev. Alexander McWilliam, Mr. George McAulay, to Sarah Isabella, daughter of George Parker, Esqr., Georgetown Royalty.

In Pictou, N.S, on the 7th instant, by the Rev. Alex. Ross, John D. McDonald, Esqr, Publisher of the 'Eastern Chronicle,' to Mary Isabella, daughter of the late Wm. McLaren, of Pictou

Died.

On Sunday, the 24th instant, after an illness of 10 days, Mary, the beloved wife of Mr. William Walsh, late Corporal of the Royal Newfoundland Company, aged 48 years. Funeral will take place on Tuesday, at 3 o'clock.

By drowning, on Monday last, 18th instant, in the Mill Pond owned by Mr. John Henderson, Brackley Point Road, Mr. John Berrigan, a native of Queen's County, Ireland, and for the past fifty years an inhabitant of this Island, aged 96 years. The deceased had gone to the Pond for the purpose of fishing trout, the residence of his son, Edward Berrigan, being close by, and it is supposed he had slipped his footing, and had fallen into the pond, where his body had been recovered in about an hour after he left home, with life extinct. He was a harmless, well-conducted and industrious man up to the close of his long life.

Suddenly, on the 9th instant, Mary, relict of the late Richard Chappell, for many years Postmaster of this Island, aged 72. The uniform kindness of her disposition was only limited by her means.

Launched.

On the 5th instant, from the Shipyard of Mr. Angus Gillis, at West Point, a very superior copper-fastened juniper Barque, of 290 tons register, and 370 tons o.m, called the ADA, to class A 1 at Lloyd's for 7 years, built for Messrs. James Duncan & Co. of this city.

On the 5th instant, from the shipyard of Thomas Simpson, Esqr, Fifteen Point, a superior juniper Brigantine of 147 tons register, and 194 tons o.m, called the ALICE, to class A 1 at Lloyd's for 7 years, built for Messrs. James Duncan & Co. of this city.

From the shipyard of R. G. McDonald, Esqr, at Pisquid, on the 29th June, a very fine juniper Barque of 310 tons. to class 7 years at Lloyd's, called the LOTUS, built for Messrs. D. G. & S. Davies, of this city, and intended by them for a regular trader between this port and London.

On Thursday last, at their shipyard in this city, under the superintendance of Mr. John Darrach, a Brig of about 290 tons, medium measurement, named the CITIZEN, built to class A 1 at Lloyd's, and owned the Messrs. John and James Douse.

SOOTHING SYRUP
For Children Teething.
IT RELIEVES COLIC.

S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitatton of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated

PLANTATION BITTERS,

which are now recommended by the highest medical authorities, and warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure, and must supercede all other tonics where a healthy, gentle stimulant is required.

They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhæ, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.
They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, winter green, sassafras, roots and herbs, all preserved in perfectly pure St. Croix rum.

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect. G. W. D. ANDREWS, Sup. Soldier's Home, Cincinnati, O."

"* * * The Plantation Bitters cured me of liver complaint, of which I was laid up prostrate, and had to abandon my business. H. B. KINGSLEY, Cleveland, O."

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life. Rev. W. H. WAGGONER, Madrid, N. Y."

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefitted by their use. Thy friend, ASA CURRIN, Philadelphia, Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * The Plantation Bitters have cured me. Rev. J. S. CATHORN, Rochester, N. Y."

"* * * Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house. SYKES, CHADWICK & Co., Proprietors Willard's Hotel, Washington, D. C."

&c. &c. &c. &c. &c.

Such are one in thousands of certificates daily received. They are immensely beneficial to weak persons and delicate females.

Be cautious of re-filled bottles. See our signature on a fine steel plate label. They are not sold by the gallon. They are only sold in our patent log cabin bottles, by respectable druggists, grocers, hotels, saloons, steamboats and country stores.

DR. BRIDGE'S PATENT FOOD,

For Invalids and Persons of Impaired Digestion.

Recommended by the Faculty.

THE PATENT FOOD is so carefully and scientifically prepared that it is immensely superior to Arrowroot, Sago, Tapioca, Bread, Biscuit, Corn Flour, or any other kind of farinaceous food for Infants, not alone from its purity, strength, and nourishing properties, but also from its having been peculiarly and thoroughly cooked in its manufacture, which renders it more easily digestible. It cannot cause Acidity or Wind. It is very agreeable, and, from the nature of its composition, is exactly adapted for all conditions of the stomach. It can be made ready for use, without trouble, in two or three minutes.

Mixed in Beef Tea, Milk, or any other fluid, the Patent Food is pre-eminently suited to Invalids, from its wholesome and strengthening qualities. It is a real blessing, and from its remarkable cheapness accessable to all.

One trial will prove its efficacy—it will recommend itself. Sold by

Patroness—Her Most Gracious Majesty the Queen.

DIRECTIONS FOR RESTORING THE APPARENTLY DROWNED.

THE leading principles of the following Directions for the Restoration of the apparently dead from Drowning are founded on those of the late Dr. MARSHALL HALL, combined with those of Dr. H. R. SILVESTER, and are the result of extensive inquiries which were made by the Institution in 1863-4 amongst Medical Men, Medical Bodies, and Coroners throughout the United Kingdom. These directions have been extensively circulated by the Institution throughout the United Kingdom and in the Colonies. They are also in use in Her Majesty's Fleet, and in the Coast-guard Service.

I.

Send immediately for medical assistance, blankets, and dry clothing, but proceed to treat the Patient *instantly* on the spot, in the open air, with the face downwards, whether on shore or afloat; exposing the face, neck, and chest to the wind, except in severe weather, and removing all tight clothing from the neck and chest, especially the braces.

The points to be aimed at are—first and *immediately*, the *Restoration of Breathing;* and secondly, after breathing is restored, the *Promotion of Warmth and Circulation.*

The efforts to restore Breathing must be commenced immediately and energetically, and persevered in for one or two hours, or until a medical man has pronounced that life is extinct. Efforts to promote Warmth and Circulation beyond removing the wet clothes and drying the skin must not be made until the first appearance of natural breathing. For if circulation of the blood be induced before breathing has recommenced, the restoration to life will be endangered.

II.—TO RESTORE BREATHING.

TO CLEAR THE THROAT.—Place the patient on the floor or ground with the face downwards, and one of the arms under the forehead, in which position all fluids will more readily escape by the mouth, and the tongue itself will fall forward, leaving the entrance into the windpipe free. Assist this operation by wiping and cleansing the mouth.

If satisfactory breathing commences, use the treatment described below to promote Warmth. If there be only slight breathing—or no breathing—or if the breathing fail, then—

TO EXCITE BREATHING—Turn the Patient well and instantly on the side, supporting the head, and—

Excite the nostrils with snuff, hartshorn, and smelling salts, or tickle the throat with a feather, &c., if they are at hand. Rub the chest and face warm, and dash cold water, or cold and hot water alternately, on them.

If there be no success, lose not a moment but instantly

TO IMITATE BREATHING—Replace the patient on the face, raising and supporting the chest well on a folded coat or other article of dress.

Turn the body very gently on the side and a little beyond, and then briskly on the face, back again; repeating these measures cautiously, efficiently; and perseveringly about fifteen times in the minute, or once every four or five seconds, occasionally varying the side.

[*By placing the Patient on the chest, the weight of the body forces the air out; when turned on the side, this pressure is removed, and air enters the chest.*]

On each occasion that the body is replaced on the face, make uniform but efficient pressure with brisk movement, on the back between and below the shoulder-blades or bones on each side, removing the pressure immediately before turning the body on the side. During the whole of the operations let one person attend solely to the movements of the head, and of the arm placed under it.

[*The first measure increases the Expiration, the second commences Inspiration.*]

** The result is *Respiration* or *Natural Breathing;* and if not too late, *Life.*

Whilst the above operations are being proceeded with, dry the hands and feet; and as soon as dry clothing or blankets can be procured, strip the body and cover, or gradually reclothe it, but taking care not to interfere with the efforts to restore breathing

III.

Should these efforts not prove successful in the course of from two to five minutes, proceed to imitate breathing by Dr. SILVESTER'S method as follows:—

Place the Patient on the back on a flat surface, inclined a little upwards from the feet; raise and support the head and shoulders on a small firm cushion or folded article of dress placed under the shoulder-blades.

Draw forward the patient's tongue, and keep it projecting beyond the lips: an elastic band over the tongue and under the chin will answer this purpose, or a piece of string or tape may be tied round them, or by raising the lower jaw, the teeth may be made to retain the tongue in that position. Remove all tight clothing from about the neck and chest, especially the braces.

TO IMITATE THE MOVEMENTS OF BREATHING.—Standing at the Patient's head, grasp the arms just above the elbows, and draw the arms gently and steadily upwards above the head, and *keep them stretched* upwards for two seconds. (*By this means air is drawn into the lungs.*) Then turn down the Patient's arms, and press them gently and firmly for two seconds against the sides of the chest. (*By this means air is pressed out of the lungs.*)

Repeat these measures alternately, deliberately, and perseveringly, about fifteen times in a minute, until a spontaneous effort to respire is perceived, immediately upon which cease to imitate the movements of breathing, and proceed to INDUCE CIRCULATION AND WARMTH.

IV.—TREATMENT AFTER NATURAL BREATHING HAS BEEN RESTORED.

TO PROMOTE WARMTH AND CIRCULATION.—Commence rubbing the limbs upwards, with firm grasping pressure and energy, using handkerchiefs flannels, &c.: [*by this measure the blood is propelled along the veins towards the heart.*]

The friction must be continued under the blanket, or over the dry clothing.

Promote the warmth of the body by the application of hot flannels, bottles, or bladders of hot water, heated bricks, &., to the pit of the stomach, the arm-pits, between the thighs, and to the soles of the feet.

If the Patient has been carried to a house after respiration has been restored, be careful to let the air play freely about the room.

On the restoration of life, a teaspoonful of warm water should be given; and then, if the power of swallowing has returned, small quantities of wine, warm brandy and water, or coffee, should be administered. The Patient should be kept in bed, and a disposition to sleep encouraged.

GENERAL OBSERVATIONS.—The above treatment should be persevered in for some hours, as it is an erroneous opinion that persons are irrecoverable because life does not make its appearance, persons having been restored after persevering for many hours.

APPEARANCES WHICH GENERALLY ACCOMPANY DEATH.

Breathing and the heart's action cease entirely; the eye-lids are generally half-closed; the pupils dilated; the jaws clenched; the fingers semi-contracted; the tongue approaches to the under edges of the lips, and these, as well as the nostrils, are covered with a frothy mucus. Coldness and paior of surface increase.

CAUTIONS.

Prevent unnecessary crowding of persons round the body, especially if in an apartment.

Avoid rough usage, and do not allow the body to remain on the back unless the tongue is secured.

Under no circumstances hold the body up by the feet.

On no account place the body in a warm bath, unless under medical direction, and even then it should only be employed as a momentary excitant.

By order of the Committee,
RICHARD LEWIS, Secretary.

C. L. STRICKLAND,
Surgeon & Mechanical Dentist.

DECAYED Teeth filled and restored to their natural shape and usefulness with GOLD and PLATINA.

Teeth inserted on Gold, Silver and Vulcanite, the Vulcanite, although a new thing here, has been used long enough elsewhere to prove it to be one of the most valuable improvements ever made in MECHANICAL DENTISTRY.

Many persons who cannot wear Gold and Silver in the mouth can wear the Vulcanite with ease and comfort.

The acids of the mouth have no galvanic action upon it whatever.

It is free from all taste or smell.

It being one continuous piece, there is no possible chance for the lodgement of food or the secretions of the mouth.

It is kept clean with much less trouble than Gold or Silver.

It possesses more strength than a base of Gold or Silver and is at the same time much lighter.

In case of great absorption of the gums, the the cheeks being thereby caused to look hollow and unnatural, this base can be built out so as to give the cheeks their former fulness in appearance.

The expense of the Vulcanite being much less than Gold is placed within the reach of those of more limited means.

☞ Chloroform used in extracting.

Ch'town, June 20, 1864.

Advice to the Farmers of P. E. Island.

AS the season for Harvest operations is approaching, and as the crops promise to be unusually abundant, the undersigned begs to remind FARMERS throughout the Island that he has just received an Invoice of his Stock of

Manny's Celebrated and Wonderful Mowing and Reaping Machines,

which save immense time, labor and money to those who use them, as is proved by the well established fact that they will enable a Farmer to save his crops four or five weeks sooner, and at less than half the cost, than he could do the work by the old fashioned Hook and Scythe, now rapidly going out of use, with the older and still more useless Flail. No enterprising or temperance Farmer should be without one of those wonderful Machines; the cost is comparatively trifling, and no man who is able to bear the cost should think of hiring one, as before it came to his turn to hire one of the Machines that might be in his neighbourhood, he would, perhaps, lose the chance of securing or selling his crop to advantage.

The MOWING and REAPING MACHINES were never in greater demand in the United States than at present. The scarcity of manual labor in that country, caused by the number of Farmers killed and wounded in the present War, renders such LABOUR-SAVING MACHINES more desirable than ever, and it will be almost impossible to secure a sufficient supply hereafter for the use of the agriculturalists of this Island. NOW IS THE TIME TO SECURE THEM. The undersigned, knowing that they would be in great demand, ordered a considerable number of them for the use of the Farmers of this Island, but could not get more than half he required, which he is prepared to sell for Cash or approved credit, for one or two years, if they are ordered before the 25th inst.

The following Agents will act for the Subscriber in selling those extraordinary and beautiful MACHINES which are so well adapted for saving labour and money; and the Subscriber hopes that they will send their orders immediately and use their best exertions to promote their sale, and thereby advance the best interests of the Colony. The Machines have JUST ARRIVED in the Steamer "COMMERCE," and one of them, together with some patent ploughs, will be on exhibition at the NORTH AMERICAN HOTEL, where an office will be opened for the sale of all such goods, during the season.
