

Bary Literature.

"Sir I will make you feel the arrows of my resentment." "Ah, Miss, why should I fear your arrows when you never had a beau."

An individual was praising the wit of a man who had a very limited intellect. "Oh, yes," said a lady, "he must possess a rich fund of it, for he never spends any."

A HAPPY ANSWER.—A young gentleman the other day asked a young lady what she thought of the married state in general? "not knowing, I can't tell," was the reply; "but if you and I were to put our heads together, I could soon give you a definite answer."

NOT BAD.—"Where was I ma," said a little urchin to his mother, as he stood gazing on his drunken and prostrate pa; "where was I when you married pa?" Why didn't you take me along? I could have picked out a better man than he is!"

A gentleman of the bar in Ireland, walking one day with a friend, who was extremely precise in pronunciation, the latter hearing a person near him say "curiosity" for "curiosity," exclaimed: "How that fellow murders the English language!" "It isn't murder, it is mayhem," said the other; "he has only knocked an I out."

A WALKING STICK.—An old gentleman accused his servant of having stolen his stick. The man protested perfect innocence. "Why you know," rejoined his master, "that the stick could never have walked off with itself."

"Certainly not, sir, unless it was a walking stick."

PAINTED CHARM.—Of a celebrated actress who in her declining days, bought charms of carmine and pearl powder, Jerold said:

"Egad: she should have a hoop about her, with a notice upon it, 'beware of the point.'"

BOMMENI-CABLE.—The difference between the cables of 1865 and 1866 is but slight. The latter has been successfully laid by perseverance—the former was perseverance lost.

A gentleman gave a friend some first-rate wine, which he tasted and drank, making no remark upon it. The owner, disgusted at his guest's want of appreciation, next offered some strong but inferior wine, which the guest had no sooner tasted than he exclaimed that it was excellent wine.

"But you said nothing of the first," remarked his host.

"Oh!" replied the other, "the first required nothing being said of it. It spoke for itself. I thought the second wanted a trumpeter."

LAW AND PHYSIC.—When Dr. H. and Sergeant A. were walking arm-in-arm, a wag said to a friend:

"These two are just equal to one highwayman."

"Why was the response?" "Because it is a lawyer and a doctor—your money or your life."

KEEPING THE SABBATH.—A gentleman travelling in the back country, one day stopped to take luncheon at a house on the road. Before leaving he had a chat with the owner of the premises and among other questions, enquired how that neighborhood kept the Sabbath, there being no churches in the vicinity. "For all that," said the farmer, "we keep the Sabbath every Sunday, breaking colts, riding round the country and fishing."

Agricultural.

Stones on Cultivated Lands.

It is an error to suppose that stones should be entirely removed from land which is under cultivation. The stones, which would be in the way of the scythe while mowing, of course should be removed, but all the smaller ones should remain; and if wholly or partially embedded in the soil, they preserve the moisture during the drought, and thus serve materially to increase the crop. The following article from the Gentleman's Magazine, published in 1773, is in point:—

"It has been long known to experienced farmers, that taking away very small stones and flints, is detrimental to ploughed lands in general; but more particularly so to thin, light lands, and all lands of a binding nature. It was, however, never imagined that the damage could be so great, as it is now found to be since unusual quantities of flints and other stones have been repeatedly gathered for the use of turnpike and other roads. In the parish of Sterenage, in Hertfordshire, there is a field known by the name of Chalkdell field, containing about 200 acres; the land in this field was formerly equal to, if not superior, to most lands in that county; but lying convenient for the surveyors of the roads, they have picked it so often, strip it of the flint and small stones to such a degree, that it is now inferior to lands that were formerly reckoned not over half its value, acre for acre. Nor is it Chalkdell field alone that has materially suffered in that county by the above mentioned practice; several thousand acres bordering on the turnpike roads from Wellwyn to Baldock, have been so much impoverished, that the loss to the inheritance forever must be computed at a great many thousand pounds. What puts it beyond a doubt that the prodigious impoverishment of the land is owing to no other cause but picking and carrying away the stones, is, that those lands have generally most impoverished which have been most often picked; nay, I know a field, part of which was picked, and the other part ploughed up before they had time to pick it, where the part that was picked lost seven or eight parts in ten, of two succeeding crops; and though the whole field was managed and manured in all respects alike, yet the impoverished was visible where ever the stones were picked off, and extended not an inch further; as incontestable proof of the benefit of the stones.

CHILDREN TEETHING

MRS. WINSLOW, An experienced Nurse and Female Physician, presents to the attention of mothers, her SOOTHING SYRUP, FOR CHILDREN TEETHING.

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain and spasmodic action, and is SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and Relief and Health to your infants. We have put up and sold this article for over thirty years, and can say, in confidence and truth of what we have never been able to say of any other medicine—never has it failed in a single instance, to effect a cure, when timely used. Never did we know an instance of distention by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this manner "what we do know," after thirty years' experience, and pledge our reputation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescriptions of one of the most experienced and skillful nurses in New England, and has been used with never failing success in thousands of cases. It not only relieves the child from pain but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhea in Children, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of other stand between your suffering child and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None Genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world. Principal office, No. 48 Dey Street, N. Y. Price, only 35 Cents per Bottle.
