He was working with a gang of other convicts at the new kitchens which are being built on the officers' houses in the government row. He had only three years more to serve. He has since been recaptured.

Summer Tourists Coming.—The tide of summer travel eastward by the American boat is very large, in fact as large as that of the same time last year, when the travel was considered very heavy. It is anticipated that when the season fairly sets in the rush will be tremendous. Railway men are handling on some trains nearly 200 pieces of baggage, which indicates a very heavy travel. They say that the low rates made westward to Chicago and beyond appear to have no effect upon the eastward travel.—St. John Telegraph.

CRICKET.

The Match at the Park on Saturday—Several Fine Scores Made.

The game at Victoria Park on Saturday, between teams from the Phœnix and Cabot clubs, was the liveliest and most interesting yet played this season. As was to be expected the colts went down before the senior club, but it was only after they had made a most respectable showing. Briefly told, the story is 122 runs to 92.

The game afforded the senior club considerable practice, and was the means of bringing their form nearer that perfection, in which all should aim to be, should they hope to successfully cope with any foreign team that might chance to visit here. It will also be the means of stimulating the younger aspirants to fame, to greater efforts in the future. May they both succeed.

The Phœnix men went first to bat, facing the trundling of J. McQuillan and Dogherty. For some time the wickets began to fall with alarming rapidity, and it was not until Ings and Murray partnered that anything like a stand was made. The former's work was a splendid exhibition of driving, and netted his side 38 runs. It was made up of one 5 hit, two 4's, three triples, five doubles and six singles. Murray contributed 18 before falling a victim to McQuillan's bowling. He made the longest hit of the day, which contributed six runs. The others were made on one triple, three doubles and three singles. Rundle also made a good stand before being retired, knocking out a four, two triples, three doubles and four singles.

For the Cabots, the work of Carvell, who carried his bat through, was a splendid exhibition of steady batting. He made the top score of the match, putting together 40 runs, in three triples, seven doubles and seventeen singles. He gave but one chance, popping up a fly at centre, which Johnson failed to hold. The majority of the bold navigator's men were singularly unfortunate on fly balls, five being retired on catches. Raymond, at slip, made a very pretty one off Sullivan's bat on the first ball bowled. It was a hot one, too, and looked as if it would pass unmolested, but was beautifully pulled down single-handed. After J. McQuillan and Carter had fallen victims, the other Cabot men bit the dust in short order. The latter was piling up runs in a lively manner, when through an oversight on his own part he was run out. The score:

Little River Cheese Factory.

This factory began work on Monday last. The building is large and well adapted in every respect for the purposes for which it is intended. Its superintendent is a Mr. McKenzie from Western Ontario. Chief Dillon visited it the other day, and expressed himself as highly pleased with all the arrangements. The farmers interested are hopeful and becoming more enthusiastic now that the work of cheese-making has begun. Little River and the surrounding settlements are well adapted to the business, and we congratulate the farmers of that section upon the pluck and perseverance shown in their present undertaking. In this as well as in the larger provinces of the Dominion the cheese-making industry has come to stay. We wish our Island farmers every success in this, to them, new industry.

A Whiskey Story.

An English conjurer was performing before a rough and ready audience in one of the Prohibition States of America. "I am now about to undertake a feat," he said, "in which I shall require the use of a pint flask of whiskey." There was a dead silence. "Will some gent in the audience favour me with a pint flask of whiskey." There was no response, and the conjurer began to look blank. "Surely," he said, "in a south eastern prohibition town I ought not to have to ask a second time for such a thing. I give you my word, I will return it uninjured." "Is there no—stranger" said a tall gaunt man as he rose slowly from a front seat, "wouldn't a quart flask do just as well?" "Why, certainly, I hereby"——but before he could finish the generous open-handed audience had risen like one man, and was on the way to the platform in a body.—The Licensing World.

Want Canadian Hay in France.

The Minerve, printed at Montreal, publishes a letter from A. Bodard,, Government agent for French and Belgian immigration, stating that the French Government having cancelled all duties on hay, and the demand for that article being very great in France, Canadian farmers will find a good market for all the hay they can send there. The great drought has dostroyed the hay crop, and the result is that the stock is selling at very low prices. He has seen a cow and calf sold for $10. He thinks the opportunity a good one to increase the trade relations between Canada and France.

—Montreal Star: A number of public spirited journals are endeavoring to ridicule bicyclists into riding in an attitude less suggestive of the rudiments of a third wheel than is customary. The campaign is, undoubtedly, in the interests of the wheelmen themselves. Cycling has been recommended as a healthful exercise; but the man who leans down over the handles, cramping his lungs and crowding his vital organs, cannot be gaining much health. Nor is he a "thing of beauty." The curve is properly supposed to be a line of beauty; but there are exceptions to this rule. A gentleman who has a curve to show in the line of his legs is not proud of it; nor need he be when the curve appears in his spinal column.

OBITUARY.

St. Joseph's, Lot 29, is in mourning, for an honest man—the noblest work of God—has passed away in the person of Edward Kelly, of Melville North district. The deceased, who was about 54 years of age, had been a hard but patient sufferer from cancer for the past few years, and on Thursday morning at 2 o'clock surrounded by every member of his family, who during his illness strove by every available means to alleviate his terrible sufferings, he passed from earth to the great Physician, who alone could end his torments. It is almost unnecessary to say that the deceased was a most estimable man, an industrious and abreast-of-the-times farmer, an obliging and agreeable neighbor, and above all a man, among the few of the present time, of whom it could be said, "his word is as good as his bond." Before the organization of North Melville District, a couple of years ago, Edward Kelly was one of the most interested and active promoters of the step, and he had the satisfaction before his death of seeing his plans and hopes realized, and his children provided with the means to acquire an education a few chains from their door. His funeral took place to St. Joseph's churchyard, Kelly's Cross, on the afternoon of Friday, the 7th inst., and was largely attended. The deceased leaves in sorrow a disconsolate widow, two sons and seven daughters, who have the sympathy of the whole community. Requiescat in pace.

COME TO HEADQUARTERS

---FOR---

Clothing, Tweeds, Flannels and Blanketings.

WE HAVE KNOCKED HIGH PRICES OUT, and placed a better grade of goods on the market. All Clothing new and stylish, all prices low. The value of Clothing made from our make of Tweeds cannot be excelled. Our Tweeds have become a standard article of value with the Farmers of P. E. Island, and the prices are low. WOOL TAKEN IN EXCHANGE and the highest price allowed.

Prowse Bros., in an advertisement headed "Information Wanted," are trying to injure us with the Farmers by quoting the prices of Wool in another place. For the past number of years we have been buying Wool, and in every case have given the best price the market will allow. To-day trade journals, such as the Journal of Commerce, quote Canadian Wool similar to ours in wholesale lots at Montreal and Toronto at 17 and 17½ cents per lb. It is an old trick of this blowing firm to cast insinuations on firms entering into the Readymade Clothing business. The public will remember their actions towards Messrs. J. B. Macdonald and James Paton & Co. when they entered into the Clothing trade; and now, as we are large dealers in Readymade Clothing, and have placed a higher grade of Clothing on the market at prices within reason, completely knocking out their high figures, they feel our opposition, and in their ungentlemanly way abuse rnd try to injure us with the people.

FARMERS!—When trading with us you will find square treatment. Goods sold at the lowest possible prices. And please bear in mind: we pay cash down for every dollar's worth of goods as soon as landed in the shop. No firm buys goods at a better price than we do, and any firm stating otherwise are trying to mislead you. Our Company is a Joint Stock Company; our shareholders are satisfied with interest on their money. Other concerns are partnership firms, and each wonderful partner and his family has to be supported on the wonderful profits made out of the farmers. jy7
