ATTENTION
POTATOGROWERS
The attention of all farmers is directed to an
amendment of the Prince Edward Island Potato
Production Act passed in 1962 whereby all persons
planting one-quarter acre or more of potatoes
must plant those of the "Certified" class or better
unless written authority is received from the Min-
ister of Agriculture. The present supply of seed
potatoes does not warrant the planting of any
table stock potatoes.

Also advised that any grower whose field
or land has borne a crop of potatoes infected with
any plant disease or pest shall not permit the
same area to be planted to potatoes the following
year except on the authority of an Inspector, and
shall destroy any volunteer plants on such land.

Areas so infected in 1962 will be policed to see
that these regulations are strictly enforced.

It is the intention to inspect all fields of potato-
es grown this year and growers are advised to
retain and have available for the Inspector their
seed tags or the written authority from the Min-
ister to plant seed of table stock origin.
