

LOCAL AND OTHER ITEMS.

USUAL BARBERS AT DEEP BROS.

FORGERS.—A special meeting of Court Avondale will be held this evening for initiation.

WORTH SEEING.—What? The monkey in the cage on exhibition in the show window of the McKay Woolen Company's Store.

NEW FLAG.—The new flag made for the Foresters was floated by Mr. William Dillon, and looks very pretty.

RACES AT MONCTON.—The Moncton Driving Park, recently sold under mortgage, has been leased by a syndicate of local horsemen and some good races are promised.

THEFT OF FLOWERS.—The flower beds of Mrs. T. C. James were raided on Sunday night and a number of handsome geraniums stolen. The tastes of our thieves seem to be as various as their methods.

MOSE CROSSINGS.—Stone crossings are being put down on Richmond Street from the main entrance to Queen Square to the opposite corner. They will supply a long sidewalk, especially in the spring and fall.

VERY GOOD WORK.—The creameries of Easton and Newmarket, N. B., are in operation every morning by each factory. There is a fair prospect that the quantity taken will be doubled during the present month.

WON'T ACCEPT INSURANCE.—The Prince Edward Island Board of Fire Underwriters have agreed not to accept any insurance on buildings to be erected on the site of the premises in Summerside recently destroyed by fire, unless the buildings are of brick or stone.

THE COLAN.—The steamer Colan, sailing from Moncton on Friday morning, June 7th, will be at Charlottetown on Monday morning, June 10th, and will call at St. John's, Nfld., via Sydney. For further particulars see adv. later, or apply to Peake Bros. & Co., agents.

SEED PEAS IN BLOOM.—A gentleman who arrived on Saturday evening from P. E. Island told The Telegraph that there was an abundance of sweet peas in bloom on the island, and that in general they were much further advanced than in previous years.—St. John Telegraph.

ISLANDER SENT BACK.—There was an illegitimate P. E. Islander around the I. C. E. boat yesterday morning, says the St. John Sun. He was sent back from Charlottetown by a United States inspector because he did not have a sufficient amount of money to comply with the United States immigration laws.

A RED FALL.—Mr. John McGee, while engaged unloading coal from a schooner at No. 2 wharf, on Saturday afternoon, was struck by a coal-tub and knocked off the wharf, falling to the water a distance of about fifteen feet. He had to be driven to his home, and has since been under medical treatment.

MR. FAIRBANKS.—We take the following from the Canada Gazette: at head to tail: 2nd Queen's County Battalion of Infantry—2nd Company—2nd Lieutenant—Colonel Sergeant Alexander Wood, vice Thompson, retired.

THE MARKET.—Today's market was fairly well attended, with the supply inside about the average, and outside of produce, somewhat small. Prices in general ruled about the same, with oats firm and advanced a cent to 30c per bushel. Potatoes in the last week have dropped from 25c to 17c to 18c, with the demand slow. Hay is still quoted at 25c to 30c.

GOOD TEMPLARS.—The International Supreme Grand Lodge, I. O. G. T., will meet in convention at Boston on the 26th of June and continue in session for a week or more. Delegates will be present from Prince Edward Island; in fact every part of the world will be represented. This will be the largest and most influential gathering of Good Templars ever held. The Governor of Massachusetts, the Mayor of Boston, and other dignitaries will take part in the proceedings.

THE WHEEL.—It looks very much as if the Charlottetown Cycle Club had come to stay. We understand that arrangements are being made with the Driving Park Association whereby the club will secure the use of the park for a couple of days a week, also the training room under the grand stand. They have also secured the park for one day in the early part of August on which to hold a grand meet. The club evidently has a business and we wish them every success.

A CHRISTMAS.—Mr. W. J. Sibly, of Amherst, has a curiosity in the form of a piece of rail that has been under water in one of the Cape Breton mines which was flooded some thirty years ago. The action of the acid in the water of the mine has eaten the iron out of the rail and left the carbon in the original form. In texture it resembles one of the electric light carbons, and bears all the marks of wear, but is very light, its weight being about one-third that of the original rail.

POISONED BY ICE CREAM.—Seven persons were poisoned at Lawrence, Mass., on Sunday by eating ice cream. The victims were Mrs. Buckley, her three daughters and three visitors. The ice cream was of the home-made variety, and was eaten about two o'clock. Dr. Magee was summoned, and he found the victims suffering from pains in the stomachs. In less than two hours of the hardest kind of work for they were out of danger. The ice cream was frozen in two cans containing two quarts each. The ingredients used were milk and eggs and the mixture was flavored with vanilla extract.

DEATH OF FATHER McLEOD.—The Rev. P. A. McLeod, whose illness was reported in yesterday's issue, died last evening. The body will be removed from the Palace to St. Dunstan's Cathedral tomorrow morning at 8.45, and the Office for the Dead will be recited. At the conclusion of the office, a Solemn High Mass of Requiem will be sung. The funeral will take place from the Cathedral to the railway station, en route to Hope River, at half past three o'clock tomorrow afternoon. On arrival at Hope River the body will be placed in the church, where it will remain until the interment on the following day.

THE WEATHER.—Moderate winds; fair weather; stationary or a little higher temperature.

The C. T. A. Case.—The case against James McDonald, V. S., for violation of the C. T. A., was adjourned until tomorrow.

MR. ELLIS' LECTURES.

Sir,—From Councillor Tanton's letter in yesterday's issue of the Dominion, it would appear that he and His Worship Mayor Dawson are not at all in sympathy with the Market Hall to Mr. J. Spencer Ellis. Why they are opposed to Mr. Ellis' lectures does not seem clear. It cannot be in the interest of the citizens, for they have nothing to fear from inquiry. Nor can it be in the interests of truth, for truth does not suffer from examination.

By press comments on Mr. Ellis' lectures in other cities of the Dominion, I would gather he is but a seeker after truth. Why, then, should Mr. Tanton, or any one else, fear Mr. Ellis? Free inquiry and discussion is a menace to error and the advanced mind everywhere sees that the best policy is to encourage the expression of inquiry and honest criticism. Doubt is often valuable. It relieves one of mental indolence. Why, then, should we expect all to think alike? Is it possible that tolerance is a misnomer? It is the recognition of other people's right to express their opinions. It means that a man who has an opinion and expresses it should not be put down with violence, nor should he be treated with harshness, because his opinion differs from ours. Tolerance demands that Mr. Ellis should be allowed the use of the most convenient hall in the city, and if his opinions be wrong, that he be answered with good and sufficient reasons.

FAIRPLAY.

JUNE 4, 1895.

POLICE COURT.—This forenoon Michael Monaghan was fined \$20 or 90 days for drunkenness.

PRINCE OF WALES COLLEGE.—The commencement exercises of the Prince of Wales College will be held in the Opera House on Friday, 7th inst., at 8 o'clock. An admission fee of 10 cents will be charged to defray expenses.

THE HOUSEHOLD.—We call attention to the ad. of James T. Purdie in today's issue of anyone wishing to purchase one of the best properties in the city. Either for a hotel site or private residence, it is unsurpassed.

A NEW FEATURE.—The Standard, Boston's new and enterprising daily, has added to its mechanical equipment an immense three deck Goss web perfecting press, the only one of its kind in Boston or New England. A feature of the press enables the Standard to print red or blue advertisements, while other papers on the paper are being printed black. The youngest of the hub's big dailies is deserving of all credit for its enterprise.

HAS HIS OWN ANGEL.—A new sect of religious worshippers has sprung into existence at Zulu, Mo., and is attracting widespread attention. The Rev. Joe Shrader is the shepherd of the new flock. The centre of attraction is a young girl who makes periodical flights to heaven, so it is claimed, returning with messages for the believers. The Rev. Shrader claims the Bible to be out of date, and proposes to establish a new code obtained from headquarters through the instrumentality of his "angel."—Chicago Tribune.

CITY SCHOOL BOARD.—At the regular meeting of the School Board last evening it was decided to close the schools for the summer holidays as follows: Queen Square on the 25th; West Kent on the 26th and Prince Street on the 27th. The examinations of the departments in each school will be at 10 o'clock. The pupils will be massed in the hall at 12 o'clock, when the medals and certificates will be presented to the successful ones. It was ordered that the usual entertainments be dispensed with, except an opening and closing song. The teachers' report shows that the enrollment for May was 1395, an increase of 13 over the preceding month. The percentage of attendance was 83, the highest since Mr. Cullen's term. The fewest cases of tardiness were in Miss Harris' and Miss McKinnon's departments. The best method of relieving the crowded condition of Prince Street School was discussed. It was thought the most reasonable method would be to remove the boys attending Prince Street School (about 70 in number) to West Kent Street School—thus relieving Prince Street of one primary department.

At Marie, on the 24th ult., Ella Louise, beloved wife of Oliver Webster, in the 23rd year of her age. The deceased was 14 1/2 years old. Her untimely death was a true bereavement.
