QUITE a number of large and stylish buildings are being erected in different parts of the city. In nearly every case the buildings will be of brick. We understand that it is the intention of the Sisters of Charity to commence the construction at once of a large wing to the new property they bought last fall. The wing will extend from the main building (Revere House) along Great George Street, and almost if not up to Water Street, and will cost something like \$10,000. In addition to this, the rev. ladies intend making a considerable change in the main structure. We are always glad to see our neighbors up and doing.

MR. P. S. BROWN has arrived in Picton, with a stallion called Goodluck, standard and registered, No. 6612. Goodluck was sired by Hernando, 2891, dam by All Right, 3817, and is pronounced by St. John horsemen to be one of the best looking horses that ever came through that city. He is a beautiful seal brown, left hind foot white, stands sixteen and a half hands high, weighs 1120 lbs., and has the finest action that could be desired. He bears a very close resemblance to his sire, except in color. He is four years old, and shows a 2.50 gait, though he is hardly broken as yet. Mr. Brown is naturally very proud of this beautiful and finely bred young horse. Goodluck will make a speedy one or we are much mistaken, as he is bred on the right lines.—Agriculturist.

It is stated that the Canadian Pacific Railway Company have decided to expend between \$1,500,000 and \$2,000,000 on the mountain sections of the line. All rock cuttings will be widened, in order to prevent their being filled with snow as easily as during last winter, and the entire road through the Selkirk mountains will be re-ballasted. A SENATION was caused in financial circles on Tuesday by Mr. Parent, cashier of the Hochelaga bank, leaving the city with a deficit of over \$15,000 in his accounts. On Thursday last the bank opened a branch at Valleyfield, Que., and on Friday President St. Charles received a message from the cashier there that he was unable to balance the cash. Parent was thereupon instructed to proceed thither and assist the local man in unravelling the difficulty. Previous to going he drew cheques for \$12,000 and succeeded in getting the ledger keeper to accept them. Then he cashed the cheques and left the city. He is said to be in Boston. The bank is fully protected by a guarantee company. Parent is 27 and leaves a wife.

ABBEY'S Uncle Tom's Cabin Company appears in the Lyceum to-night and to-morrow night. Speaking of a performance at Albany, N. Y., the Argus of October 12th says:—"Uncle Tom's Cabin" was given at the Leland last evening in the presence of a very good sized audience, that seemed to enjoy the unfolding of the play as well as if it was the occasion of an original production. It does seem rather strange that this time-worn drama should retain such a firm hold on the theatrical inclinations of the public, but such is the fact and there is no gainsaying it. The production last evening was above the average, and was heartily applauded, the jubilee singers, in particular, being singled out for special marks of approval. This evening will bring the last performance.

A FINE audience is already assured the Oddfellows on June 15, when they produce the best and most successful American play ever written, "The Danites." The Lawrence Journal, in speaking of the play and of Miss Coyle, who plays the leading part here, says:—"Miss Agnes Coyle completed her engagement at the Opera House last evening, repeating the Danites to a crowded house, composed of our best citizens, and giving more real, heartfelt satisfaction to her auditors than any actress who has been here for a long time. None of her acts are overdrawn, neither is there anything lacking in the young lady's portrayal of 'Billy Piper.' She sustained the part with a smoothness so evenly balanced that the audience repeatedly recognized her efforts in outbursts of generous applause. We predict for her a crowded house whenever she returns." The best local talent in the Order of Oddfellows will contribute the support, and every attention will be paid to detail and scenic effect.

THE PEOPLE SAY

—That some folk will not accept a suggestion. —That this fact accounts for the words "Post Office" still remaining on the old Bank building. —That it accounts also for the unsightly condition of Queen Square, in the immediate vicinity of the Post Office. —That it is time something were done in both cases. —That a number of new and handsome buildings are being erected in the city. —That the painter is abroad, although not to such an extent as he should be. —That the wife should let her husband have the last word occasionally. —That while this conciliatory may not add materially to his self-respect, it may inspire him with confidence. —That it would be well for some wives to paste the foregoing on their mirror. —That it is about time the Water Bill was published. —That Robbins circus will probably pitch its tent in this city about the middle of July. —That it is hoped it is a better show than when it last visited us. —That it is time the Water Street sewer was commenced. —That nothing much has been heard about the Athletic Association lately. —That the celebrated Michael Strogoff Company is to make a tour of the provinces this year. —That an effort should be made to have said Company give a few performances in this city. —That Paton & Co's rat-catcher has captured Summerville. —That there is a boom in awnings. —That everyone should have one. —That the woman who can make her own dresses is a treasure to her husband. —That the foregoing information is not intended to boom the dressmaker. —That the sea serpent story is overdue. —That the missing Charley Ross has turned up again. —That this time he is a convict in a Connecticut prison. —That he is not a native of the Island. —That there should be more work and less talk at the jubilee meetings. —That the electric light on Steam Navigation Company's wharf supplies a long felt want. —That it would be well if some of the other wharves were lighted in like manner. —That the new fish market building is progressing. —That there is considerable mystery about the mutilating of the Rankin House register. —That butter and potatoes have gone up in price. —That it is little consolation for a man when he dives into his drawer for a shirt on Sunday morning, and finds one with the buttons off, to be told by his wife that she has been busy all the week sewing for some other heathen.
